托福阅读真题·题型 1（补全单词）

共 625 套 · 6249 题 · 日期 2026-01-21 ~ 2026-09-13

（本题库已将参考答案统一移至文末，便于自测练习）

2026-09-13（2 套）

2026-09-13 Music and Social Change

原文（Passage）

Music has long served as a powerful tool for cultural expression and social change. Comp _ _ _ _ _ and musi _ _ _ _ _ have us _ _ their wo _ _ to chal _ _ _ _ _ norms a _ _ reflect poli _ _ _ _ _ realities. Beethoven's symph _ _ _ _ _, for exam _ _ _, echoed t _ _ revolutionary spirit of his time. In the twentieth century, protest songs became anthems for civil rights and anti-war movements, helping to mobilize public sentiment. These examples show how music can influence thought and action. Studying these intersections reveals music's lasting role in shaping cultural and ideological shifts throughout history.

2026-09-13 Shadow Puppetry

原文（Passage）

Shadow puppetry is an ancient form of storytelling that uses flat, articulated (movable) figures cast onto a screen by a light source. Shadow puppetry comb _ _ _ _ visual arti _ _ _ _ with dram _ _ _ _ narration, crea _ _ _ _ engaging perfor _ _ _ _ _ _ that con _ _ _ traditional ta _ _ _ and mo _ _ _ lessons. Th _ _ art fo _ _ originated in Asia and spread to various cultures around the world. The puppets are typically made of leather or paper and manipulated by sticks or strings. Performers narrate stories, often accompanied by music or sound effects.

2026-09-12（3 套）

2026-09-12 Industrialization and City Architecture

原文（Passage）

The advent of industrialization in the late eighteenth and nineteenth centuries dramatically reshaped city architecture across Europe and North America. As urban popu _ _ _ _ _ _ _ surged, cit _ _ _ expanded upw _ _ _ with t _ _ construction o _ multi-story buil _ _ _ _ _ and, event _ _ _ _ _, steel-framed skysc _ _ _ _ _ _ that def _ _ _ _ modern skyl _ _ _ _. These towering structures reflected new engineering capabilities and the growing demand for centralized workspaces. Within cities, transportation systems like streetcars made commuting more efficient, further fueling urban growth. This architectural transformation marked a shift toward dense, vertical living and working environments, emblematic of the industrial age.

2026-09-12 Synchronized Film Sound

原文（Passage）

The evolution of the film industry has been shaped by major technological shifts, especially the move from silent films to movies with sound. In the silent era, filmmakers relied entirely on visual storytelling, using expressive acting and title cards to convey dialogue and emotion. The introd _ _ _ _ _ _ of synchronized so _ _ _—where au _ _ _ was mat _ _ _ _ precisely wi _ _ the mov _ _ _ image—all _ _ _ _ audiences t _ hear act _ _ _ speak f _ _ the first time, transforming the cinematic experience. This breakthrough laid the foundation for later innovations like CGI and immersive sound design, expanding how stories could be told on screen.

2026-09-12 Wind Currents

原文（Passage）

Wind currents form due to differences in atmospheric pressure, which arise from uneven solar heating across Earth's surface. As warmer air rises and cooler air sinks, pressure differentials are created, driving horizontal air movement known as wind. Wind currents transport mois _ _ _ _ and infl _ _ _ _ _ temperature, pla _ _ _ _ a k _ _ role i _ shaping wea _ _ _ _ patterns. T _ _ Coriolis eff _ _ _, caused b _ Earth's rota _ _ _ _, further alters wind direction, creating prevailing winds that impact regional climates and storm systems. Understanding these interactions is crucial for accurate forecasting.

2026-09-05（5 套）

2026-09-05 Baroque to Classical Music

原文（Passage）

The transition from Baroque to Classical music reflected broader cultural shifts in eighteenth-century Europe. Baroque music, with its elaborate textures and emotional intensity, mirrored the grandeur of monarchies and the Church. As Enlightenment ide _ _ gained infl _ _ _ _ _, Classical music eme _ _ _ _ with sim _ _ _ _, less orn _ _ _ structures, bala _ _ _ _ phrasing, and a fo _ _ _ on rea _ _ _ and or _ _ _. Composers li _ _ Haydn and Mozart embraced simplicity and symmetry, aligning with the era's intellectual and political movements that favored rational thought over divine authority. This stylistic shift marked a move toward accessibility and elegance in musical expression.

2026-09-05 Bone Toolmaking

原文（Passage）

Using bone for the manufacture of tools and other objects has a long history. Many of the wea _ _ _ _ that prehi _ _ _ _ _ _ people us _ _ for hun _ _ _ _ were ma _ _ from t _ _ bones o _ the ani _ _ _ _ they hun _ _ _. The phys _ _ _ _ properties of these materials varied greatly. For example, the strength and flexibility of antler were important to the way these tools were utilized. Many early bone tools show distinctive signs of wear and polishing, revealing how they were handled and used over time.

2026-09-05 Human Brain Function

原文（Passage）

The human brain is an extraordinarily intricate organ, unrivaled in its complexity and function. Studying its anatomy reveals a remarkable internal architecture, composed of billions of neurons intricately interconnected by synapses. These neurons tran _ _ _ _ electrical impu _ _ _ _, facilitating t _ _ brain's ro _ _ in enab _ _ _ _ cognition, proce _ _ _ _ _ information, regul _ _ _ _ _ essential bod _ _ _ functions, a _ _ facilitating emot _ _ _ _. The reflective nature of studying the brain encourages careful consideration of how its structure impacts behavior and thought.

2026-09-05 Public Health Initiatives

原文（Passage）

Public health initiatives aim to promote well-being and prevent disease across populations. These strat _ _ _ _ _ often fo _ _ _ on bo _ _ short-term resp _ _ _ _ _ to emerg _ _ _ _ _ _ and long- _ _ _ _ investments i _ infrastructure. Eff _ _ _ _ include vacci _ _ _ _ _ _ programs, educ _ _ _ _ _ campaigns, and the development of policies that ensure access to clean water and nutritious food. Collaboration between governments, nonprofit organizations, and communities

is essential for effective public health interventions. Understanding the social determinants of health, such as economic stability and education, helps tailor initiatives to address the specific needs of different populations.

2026-09-05 Traditional Craftsmanship

原文（Passage）

Craftsmanship has undergone a profound transformation over the centuries, shifting from a demonstration of manual skill to an expression of artistic vision and communal identity. In medieval Europe, skilled makers—known as artisans—were highly valued not only for their tech _ _ _ _ _ expertise b _ _ also f _ _ their abi _ _ _ _ to inf _ _ _ their crea _ _ _ _ _ with mea _ _ _ _ and repr _ _ _ _ _ deeper spir _ _ _ _ _ or cult _ _ _ _ themes. The intricate details in woodwork, textiles, and pottery served as a testament to the craftsman's mastery and the motifs prevalent during that era.

2026-08-30（7 套）

2026-08-30 Animal Communication Signals

原文（Passage）

Animal behavior encompasses a rich tapestry of communication signals, from the melodic complexity of birdsong and ultrasonic echolocation to the visual brilliance of courtship displays and color signals. Chemical cues guide social bonding and mating, while tactile gestures like grooming convey group affi _ _ _ _ _ _ _. Electric disch _ _ _ _ _ within aqua _ _ _ environments a _ _ vibrational mess _ _ _ _ transmitted thr _ _ _ _ underwater surf _ _ _ _ illustrate strat _ _ _ _ _ that evo _ _ _ _ in resp _ _ _ _ to evolutionary pressures. By studying these signals with ethological rigor, researchers unravel the cognitive and ecological contexts underlying social interactions.

2026-08-30 Artisan Craftsmanship

原文（Passage）

Craftsmanship blends art with functional design through a meticulous process requiring creativity and precision. Artisans wo _ _ with mater _ _ _ _ like me _ _ _, wood, a _ _ fabric t _ create prod _ _ _ _ that a _ _ both use _ _ _ and beau _ _ _ _ _. Each pi _ _ _ shows the maker's skill, attention to detail, and personal style. Beyond utility, handcrafted items carry cultural significance. Even as societies modernize, the value of tradition and quality endures, highlighting a lasting appreciation for the uniqueness and care embedded in artisanal work.

2026-08-30 Fifteen-Minute Neighborhoods

原文（Passage）

The idea behind fifteen-minute neighborhoods is to enhance city planning by designing areas where residents can easily meet most daily needs within a short walk or bike ride. This model prioritizes proximity, ensuring residents can access essential services like grocery sto _ _ _, schools, health _ _ _ _, and recrea _ _ _ _ _ _ spaces with _ _ _ heavy reli _ _ _ _ on auto _ _ _ _ _ _ _. By redu _ _ _ _ dependence o _ cars, these comm _ _ _ _ _ _ _ can imp _ _ _ _ quality of life and promote sustainability. Planners emphasize fostering vibrant, walkable communities.

2026-08-30 Glaciers and Ice Ages

原文（Passage）

The last Ice Age sculpted the face of Earth, leaving behind majestic glaciers that continue to shape the landscape even today. These mas _ _ _ _ ice riv _ _ _ flow slo _ _ _, grinding do _ _

mountains a _ _ carving val _ _ _ _ over mill _ _ _ _ _. Compared t _ other geolo _ _ _ _ _ phenomena, t _ _ movement of glaciers is imperceptible on a human timescale, yet their impact is undeniably profound. Glaciers serve as natural archives of Earth's climatic history, preserving atmospheric data in layers of ice that have accumulated over thousands of years. Studying glaciers allows scientists to analyze past temperature patterns and environmental changes over time.

2026-08-30 Prehistoric Art and Religion

原文（Passage）

Prehistoric art and religion provide invaluable insights into the spiritual life of early humans. Cave paintings and carvings often depict animals and symbolic figures, reflecting the beliefs and rituals of ancient communities. These artworks ser _ _ as a win _ _ _ into t _ _ social struc _ _ _ _ _ and cult _ _ _ _ practices o _ prehistoric t _ _ _ _. By stud _ _ _ _ them, resea _ _ _ _ _ _ can bet _ _ _ understand the evolution of human thought and spirituality. These early forms of art show that even long ago, people had deep feelings, ideas, and questions about life and the world around them.

2026-08-30 Social Insect Labor

原文（Passage）

Social insects---like ants, bees, and termites---live in highly organized colonies that function as a single, cooperative unit. The colony members have a strict division of labour, meaning that different insects per _ _ _ _ different ta _ _ _: queens repr _ _ _ _ _, workers gat _ _ _ food a _ _ provide ca _ _ for offs _ _ _ _ _, and sold _ _ _ _ defend t _ _ colony. Ea _ _ individual has a specialized role, and communication via pheromones or dances keeps everyone in sync. Their division of labour ensures survival and efficiency, showcasing nature's remarkable blueprint for teamwork.

2026-08-30 Standard Time Zones

原文（Passage）

In the late nineteenth century, North America faced growing problems with timekeeping as railroads expanded across the continent. Towns set their clocks by the s _ _, so t _ _ times ke _ _ by municip _ _ _ _ _ _ _ varied slig _ _ _ _. Because tra _ _ _ required pre _ _ _ _ scheduling a _ _ telegraph mess _ _ _ _ depended on consi _ _ _ _ _ timing, this system caused confusion and delays. In 1883, major railroads adopted standard time zones, dividing the continent into regions with uniform time and making long-distance travel and communication more efficient and reliable.

2026-08-29（3 套）

2026-08-29 Atmospheric Pressure

原文（Passage）

Atmospheric pressure plays a critical role in weather systems. High-pressure zones bring clear, calm conditions due to descending air that inhibits cloud formation. In low-pressure systems, warm air rises, cools, and condenses into clouds, wh _ _ _ can le _ _ to precip _ _ _ _ _ _ _. Barometric pressure varia _ _ _ _ _ help meteoro _ _ _ _ _ _ _ improve fore _ _ _ _ _, as ra _ _ _ fluctuations of _ _ _ signal appro _ _ _ _ _ _ storms. Adva _ _ _ _ models use atmospheric force gradients, temperature, and humidity to predict storm movement and intensity, providing vital information for both short-term weather outlooks and long-term climate assessments.

2026-08-29 Early Agricultural Settlements

原文（Passage）

Early humans gradually transitioned from a nomadic lifestyle to establishing permanent settlements. Instead of const _ _ _ _ _ moving aro _ _ _ in sea _ _ _ of fo _ _, they be _ _ _ to exper _ _ _ _ _ with plan _ _ _ _ seeds, lea _ _ _ _ to t _ _ development o _ agriculture and a more reliable food supply. As communities grew, people began organizing themselves into social groups with defined roles and shared practices. These early settlements became centers for the emergence of language, artistic expression, and religious rituals.

2026-08-29 Keystone Species Ecology

原文（Passage）

In the realm of conservation ecology, the role of keystone species is profoundly significant. These species, although not necessarily abundant, exert a substantial influence on their ecosystems' structure and functioning. Beavers, for example, transform landscapes by building dams that cre _ _ _ wetlands, habi _ _ _ _ rich i _ biodiversity a _ _ vital f _ _ water purifi _ _ _ _ _ _ and fl _ _ _ control. Their rem _ _ _ _ often trig _ _ _ _ a cas _ _ _ _ of ecological changes, potentially leading to the decline or transformation of the ecosystem. Consequently, conservation efforts frequently prioritize the protection of these pivotal organisms to maintain ecological balance.

2026-08-25（3 套）

2026-08-25 Baiji Dolphin Extinction

原文（Passage）

The extinction of the baiji dolphin, also known as the Yangtze River dolphin, serves as a stark reminder of the impact of human activities on freshwater ecosystems. Declared functi _ _ _ _ _ _ extinct i _ 2006, t _ _ baiji suff _ _ _ _ from hab _ _ _ _ loss a _ _ the eff _ _ _ _ of poll _ _ _ _ _. Conservationists atte _ _ _ _ _ rescue miss _ _ _ _ and breeding programs, but these efforts were hindered by the dolphin's declining population and fragmented habitat. Studying the baiji's extinction helps scientists develop strategies to protect other endangered freshwater species and highlights the need for sustainable practices.

2026-08-25 Keystone Species Ecology

原文（Passage）

In the realm of conservation ecology, the role of keystone species is profoundly significant. These species, although not necessarily abundant, exert a substantial influence on their ecosystems' structure and functioning. Beavers, for example, transform landscapes by building dams that cre _ _ _ wetlands, habi _ _ _ _ rich i _ biodiversity a _ _ vital f _ _ water purifi _ _ _ _ _ _ and fl _ _ _ control. Their rem _ _ _ _ often trig _ _ _ _ a cas _ _ _ _ of ecological changes, potentially leading to the decline or transformation of the ecosystem. Consequently, conservation efforts frequently prioritize the protection of these pivotal organisms to maintain ecological balance.

2026-08-25 Theatrical Realism

原文（Passage）

Realism in theater is a movement that emerged in the 19th century, aiming to portray everyday life with authenticity and truthfulness. It rejects exaggerated sentime _ _ _ _ _ _ _ and theat _ _ _ _ _ conventions, ins _ _ _ _ focusing o _ believable chara _ _ _ _ _, natural conver _ _ _ _ _ _ _, and sett _ _ _ _ that ref _ _ _ _ real soc _ _ _ environments. Real _ _ _ _ _ plays often explore complex moral and social issues, emphasizing psychological depth and the influence of environment and circumstance on human behavior. Realism continues to influence contemporary theatre by encouraging honest, nuanced storytelling.

2026-08-24（7 套）

KPO 211 - Glaciers

来源：KPO

原文（Passage）

Glaciers are large expanses of ice that move slowly over land. As th _ _ advance, these mas _ _ _ play a crit _ _ _ _ role i _ shaping t _ _ Earth’s sur _ _ _ _. The imm _ _ _ _ weight a _ _ movement o _ glaciers gr _ _ _ down rocks and soil, creating valleys. These glacially carved depressions may eventually evolve into freshwater basins following the ice’s retreat. Researchers analyze glacial geomorphology to reconstruct paleoclimatic conditions and model prospective environmental shifts. The shrinking of glaciers is a clear sign of ongoing global climate change.

KPO 212 - Rainforests

来源：KPO

原文（Passage）

Rainforests constitute a vital component of Earth’s biogeochemical systems, exerting significant influence over atmospheric regulation and thermal balance. They a _ _ full o _ tall tr _ _ _ and pla _ _ _ that u _ _ sunlight t _ make fo _ _. This pro _ _ _ _ also ta _ _ _ carbon dioxide o _ _ of the air, which helps to keep our planet cool. When trees are cut down, the amount of heat-trapping gases in the air can increase, making the planet warmer. The sustained conservation of rainforest biomes is crucial for ensuring climatic homeostasis on a planetary scale.

KPO 213 - Mushrooms

来源：KPO

原文（Passage）

Mushrooms are a diverse group of fungi that thrive in a wide range of natural and cultivated environments, such as wooded areas and landscaped gardens. They a _ _ unique bec _ _ _ _ they d _ not ma _ _ their fo _ _ like pla _ _ _ do. Ins _ _ _ _, mushrooms abs _ _ _ nutrients fr _ _ the so _ _ and dead plants. The most conspicuous anatomical feature of a mushroom is the cap, which constitutes its uppermost section. Beneath this structure are intricate, lamella-like ridges referred to as gills, where microscopic reproductive units are produced. These units enable the dissemination and ecological colonization of mushrooms across environments conducive to fungal growth.

KPO 214 - Night Sky

来源：KPO

原文（Passage）

The night sky has fascinated humans for centuries, leading to numerous discoveries about our universe. Stars, plan _ _ _, and gala _ _ _ _ are obse _ _ _ _ using teles _ _ _ _ _, which mag _ _ _ _ distant obj _ _ _ _. Many astro _ _ _ _ _ _ study st _ _ formations t _ learn ab _ _ _ the origins of the universe. By analyzing the light emitted from stars, scientists can determine their composition and age. This exploration helps us understand the complex nature of cosmic development and our place within it.

KPO 215 - Fossils Through Time

来源：KPO

原文（Passage）

Fossils are the preserved remains of ancient organisms that provide a window into Earth's distant past. They a _ _ typically fo _ _ _ in sedimentary rocks a _ _ can inc _ _ _ _ bones, she _ _ _, or impr _ _ _ _ _ _ _. By stud _ _ _ _ fossils, scien _ _ _ _ _ can recon _ _ _ _ _ _ the appea _ _ _ _ _ and behavior of extinct species. Fossil records reveal the gradual changes that have occurred over millions of years, illustrating the process of evolution. This evidence helps us comprehend how life on Earth has transformed over time.

KPO 216 - Consciousness

来源：KPO

原文（Passage）

The concept of consciousness is central to philosophical debates about the nature of the mind. Consciousness ref _ _ _ to t _ _ awareness o _ one's thou _ _ _ _, sensations, a _ _ surroundings. Philos _ _ _ _ _ _ have lo _ _ questioned whe _ _ _ _ consciousness c _ _ be fu _ _ _ explained by physical processes or if it transcends material explanations. Some argue that consciousness is an emergent property of complex neural networks, while others suggest it may involve nonphysical dimensions. This ongoing inquiry continues to challenge our understanding of human cognition.

KPO 217 - Industrialization

来源：KPO

原文（Passage）

Industrialization marked a significant turning point in modern history, leading to profound social and economic changes. As fact _ _ _ _ _ emerged, cit _ _ _ expanded rap _ _ _ _, drawing peo _ _ _ from ru _ _ _ areas. Th _ urban migr _ _ _ _ _ brought n _ _ challenges, incl _ _ _ _ _ overcrowded liv _ _ _ conditions and environmental pollution. The industrial era also sparked technological innovations that transformed transportation and communication. Despite these advances, the period prompted critical debates over workers' rights and the ethical implications of industrial growth.

2026-08-22（32 套）

2026-08-22 Abstract Art

原文（Passage）

The evolution of abstract art in the early twentieth century marks a pivotal shift in the perception and purpose of artwork. Abstract artists often seek to repr _ _ _ _ _ the esse _ _ _ _ _ qualities o _ emotions assoc _ _ _ _ _ with t _ _ subject, focu _ _ _ _ on mo _ _ and move _ _ _ _, as we _ _ as symb _ _ _ _ _, rather than realistic detail. The abstract art movement broke away from traditional ideas about art, prompting viewers to think more deeply about what they saw. As artists explored new methods of expression, they revolutionized how people interact with art, creating a conversation between artist and audience.

2026-08-22 Animal Social Hierarchies

原文（Passage）

In studying animal behavior, it becomes apparent that social hierarchies play a significant role in the lives of many terrestrial mammals. These hierarchies, often established through displays of dominance and submission, dictate acc _ _ _ to resou _ _ _ _ such a _ food, mat _ _, and shel _ _ _, thereby influ _ _ _ _ _ _ survival a _ _ reproductive succ _ _ _. Behavioral ecol _ _ _ _ _ _ have obse _ _ _ _ that such complex social structures can lead to increased group stability, as roles are

clearly defined, reducing the frequency of potentially harmful disputes and promoting cooperation among group members.

2026-08-22 Geological Formations

原文（Passage）

The study of geological formations provides insights into Earth's dynamic processes. Metamorphic rocks are rocks that have been transformed by heat and pressure. Sedimentary rocks fo _ _ as lay _ _ _ of mate _ _ _ _ build u _ over ti _ _ and a _ _ eventually pre _ _ _ _ and fu _ _ _ together t _ create so _ _ _ rock. The strata inside these formations serve as historical records of environmental conditions, revealing changes in climate, sea levels, and biological evolution. Analyzing rocks allows geologists to reconstruct past geological events.

2026-08-22 Mauryan Empire

原文（Passage）

Throughout history, the Indian subcontinent has been a cultural crossroads that has facilitated the exchange of ideas, goods, and philosophies between East and West. The Mauryan Empire, established in 322 BCE, represented one of the earliest fo _ _ _ of consol _ _ _ _ _ _ rule i _ the reg _ _ _ and la _ _ the ground _ _ _ _ for fut _ _ _ administrative mod _ _ _. A not _ _ _ _ achievement w _ _ the spread of Buddhism under the emperor Ashoka, who propagated its teachings beyond India into Central Asia. The Gupta period, often termed the golden age, witnessed advancements in sciences, mathematics, and art.

2026-08-22 Oceanography and Hydrology

原文（Passage）

Oceanography and hydrology are fields that study the dynamics of water on Earth, encompassing aspects like ocean currents, tides, and the hydrological cycle. Ocean currents, influ _ _ _ _ _ by fac _ _ _ _ such a _ wind patt _ _ _ _ and Earth's rota _ _ _ _, play a cru _ _ _ _ role i _ regulating glo _ _ _ climate si _ _ _ they redist _ _ _ _ _ _ heat across the planet. The hydrological cycle, on the other hand, describes the continuous movement of water between the Earth's surface and atmosphere, involving processes such as evaporation, condensation, and precipitation. Together, these phenomena illustrate the interconnected nature of Earth's water systems.

2026-08-22 Realism in Theater

原文（Passage）

Realism in theater is a movement that emerged in the 19th century, aiming to portray everyday life with authenticity and truthfulness. It rejects exaggerated sentime _ _ _ _ _ _ _ and theat _ _ _ _ _ conventions, ins _ _ _ _ focusing o _ believable chara _ _ _ _ _, natural conver _ _ _ _ _ _ _, and sett _ _ _ _ that ref _ _ _ _ real soci _ _ environments. Rea _ _ _ _ _ _ plays often explore complex moral and social issues, emphasizing psychological depth and the influence of environment and circumstance on human behaviour. Realism continues to influence contemporary theatre by encouraging honest, nuanced storytelling.

KPO 224 - AI Potential

来源：KPO

原文（Passage）

Artificial intelligence has rapidly expanded its role in science, medicine, and everyday life. AI systems mi _ _ _ human cogn _ _ _ _ _ functions, allo _ _ _ _ computers t _ analyze la _ _ _ datasets a _ _ make pred _ _ _ _ _ _ _ with remarkable sp _ _ _ and acc _ _ _ _ _. These capa _ _ _ _ _ _ _ support applications ranging from medical imaging to language translation. However,

AI also raises concerns about data privacy, bias, and employment. Understanding both its potential and limitations is essential for developing responsible technologies that benefit society.

KPO 225 - Atmospheric Pressure

来源：KPO

原文（Passage）

Atmospheric pressure is a key component of weather systems, influencing wind, clouds, and storms. High-pressure regions are generally associated with clear, stable conditions, while low-pressure systems encourage rising air, wh _ _ _ can le _ _ to clouds and precip _ _ _ _ _ _ _. Var _ _ _ _ _ _ in pressure help meteor _ _ _ _ _ _ _ improve fore _ _ _ _ _, since ra _ _ _ changes of _ _ _ indicate appro _ _ _ _ _ _ storms. Adva _ _ _ _ instruments and satellite observations allow scientists to track these changes and issue earlier warnings.

KPO 226 - Fossils and Evolution

来源：KPO

原文（Passage）

Fossils preserve evidence of organisms that lived millions of years ago and reveal how life has changed over time. Nat _ _ _ _ sele _ _ _ _ _ expl _ _ _ _ how advan _ _ _ _ _ _ _ tra _ _ _ inc _ _ _ _ _ in freq _ _ _ _ _ within popu _ _ _ _ _ _ _ and help spe _ _ _ _ ad _ _ _ to changing environments. Over many generations, these changes can produce major differences among organisms. Fossil evidence therefore provides a long-term record of biological change and the emergence of new forms of life.

KPO 227 - Public Health

来源：KPO

原文（Passage）

Public health is a field that looks at the overall well-being of communities, focusing on how society and individual health are connected. Over ti _ _, public health prog _ _ _ _ have gr _ _ _ from ba _ _ _ efforts li _ _ improving sanit _ _ _ _ _ to inc _ _ _ _ many strat _ _ _ _ _ that de _ _ with soc _ _ _ factors affecting health. This history shows the ongoing challenge of deciding how to use limited resources while facing more and more health problems, such as new diseases and long-term conditions linked to lifestyle. As leaders work to solve these issues, they are realizing the importance of teamwork across different fields.

KPO 228 - Circulatory System

来源：KPO

原文（Passage）

The circulatory system transports oxygen, nutrients, hormones, and waste products throughout the body. Blood flow adjust _ in respon _ _ to factor _ such as temp _ _ _ _ _ _ _, physical activ _ _ _, and emot _ _ _ _ _, ensur _ _ _ that each organ receiv _ _ an adequate supp _ _ of oxygen. The heart and blood vessels coordinate continuously to maintain stable internal conditions. This responsiveness allows the body to meet changing demands during exercise, rest, illness, and recovery.

KPO 229 - Mauryan Empire

来源：KPO

原文（Passage）

Throughout history, the Indian subcontinent has been a cultural crossroads that has facilitated the exchange of ideas, goods, and philosophies between East and West. The Mauryan Empire, established in 322 BCE, represented one of the earliest fo _ _ _ of consol _ _ _ _ _ _ rule i _ the reg _ _ _ and la _ _ the ground _ _ _ _ for fut _ _ _ administrative mod _ _ _. A not _ _ _ _ achievement w _ _ the spread of Buddhism under the emperor Ashoka, who propagated its teachings beyond India into Central Asia. The Gupta period, often termed the golden age, witnessed advancements in sciences, mathematics, and art.

KPO 230 - Economic Elasticity

来源：KPO

原文（Passage）

Elasticity is an economic concept that describes how strongly buyers and sellers respond to changing market conditions. Demand fo _ a prod _ _ _ with hi _ _ elasticity wi _ _ change substantially when close subst _ _ _ _ _ _ are available. Economists examine th _ shi _ _ _ in demand, reflect _ _ _ how consum _ _ _ react to price changes and whether i _ is easy to choose an alternative. Goods with few substitutes, such as essential medicines, usually have lower elasticity.

KPO 231 - Extraterrestrial Life

来源：KPO

原文（Passage）

In recent years, the search for extraterrestrial organisms has increasingly focused on water as an important clue. On Earth, water supports biological processes, and its detection on ice-covered moons such as Europa and Enceladus has attracted scien _ _ _ _ _ attention. Evid _ _ _ _ suggests th _ _ these i _ _ moons con _ _ _ _ oceans ke _ _ liquid b _ tidal hea _ _ _ _, a pro _ _ _ _ in wh _ _ _ gravitational forces generated by nearby planets produce internal warmth. This energy source may create environments comparable to Earth's deep-sea hydrothermal regions, where biological activity occurs without sunlight.

KPO 232 - Ocean Currents and Hydrology

来源：KPO

原文（Passage）

Oceanography and hydrology are fields that study the dynamics of water on Earth, encompassing aspects like ocean currents, tides, and the hydrological cycle. Ocean currents, influ _ _ _ _ _ by fac _ _ _ _ such a _ wind patt _ _ _ _ and Earth's rota _ _ _ _, play a cru _ _ _ _ role i _ regulating glo _ _ _ climate si _ _ _ they redist _ _ _ _ _ _ heat across the planet. The hydrological cycle, on the other hand, describes the continuous movement of water between the Earth's surface and atmosphere, involving processes such as evaporation, condensation, and precipitation. Together, these phenomena illustrate the interconnected nature of Earth's water systems.

KPO 233 - Rock Formations

来源：KPO

原文（Passage）

The study of geological formations provides insights into Earth's dynamic processes. Metamorphic rocks are rocks that have been transformed by heat and pressure. Sedimentary rocks fo _ _ as lay _ _ _ of mate _ _ _ _ build u _ over ti _ _ and a _ _ eventually pre _ _ _ _ and fu _ _ _ together t _ create so _ _ _ rock. The strata inside these formations serve as historical

records of environmental conditions, revealing changes in climate, sea levels, and biological evolution. Analyzing rocks allows geologists to reconstruct past geological events.

KPO 234 - Heritage Tourism

来源：KPO

原文（Passage）

Heritage tourism can support local economies while encouraging the preservation of culturally important places. Achieving this balance requ _ _ _ _ careful manage _ _ _ _ of lo _ _ _ customs, ritu _ _ _, and hist _ _ _ _ sites. Communities must decide how these traditions are pres _ _ _ _ _ to visitors and comm _ _ _ _ _ _ _ _ exploited, with _ _ _ reducing th _ _ to scrip _ _ _ performances for outsiders. Successful tourism policies combine clear protections with community-led planning so that cultural practices remain meaningful to the people who sustain them.

KPO 235 - Paint Evolution

来源：KPO

原文（Passage）

The evolution of paint as a medium has significantly impacted the development of visual arts. Early art _ _ _ _ used nat _ _ _ _ pigments der _ _ _ _ from mine _ _ _ _, plants, a _ _ animal sou _ _ _ _ _ to cre _ _ _ their wo _ _ _. Advances i _ chemistry resu _ _ _ _ in the synthesis of vibrant, durable colors, expanding the artist's palette. Techniques such as oil painting allowed for greater detail and expression. The introduction of acrylic paints offered versatility and fast drying times. Modern painters continue to explore innovative materials and methods, pushing the boundaries of artistic creation. Understanding the history of paint enriches appreciation for the diversity and complexity of artistic practices.

KPO 236 - Microfinance

来源：KPO

原文（Passage）

Microfinance has transformed access to financial services by offering small loans to individuals and groups excluded from traditional banking. Loan recip _ _ _ _ _ can st _ _ _ or exp _ _ _ small busin _ _ _ _ _, improve th _ _ _ living cond _ _ _ _ _ _, and strengthen their comm _ _ _ _ _ _ _. By providing savings programs and practical training, microfinance encour _ _ _ _ financial liter _ _ _ and advan _ _ _ broader economic participation. Although small loans are not a complete solution to poverty, they can give borrowers greater control over their economic futures.

KPO 237 - Biochemistry

来源：KPO

原文（Passage）

Biochemistry is a branch of chemistry that examines chemical activity within living systems. It involv _ _ t _ _ study of the proc _ _ _ _ _ that oc _ _ _ in liv _ _ _ organisms. Ov _ _ the la _ _ century, biochemistry h _ _ become integ _ _ _ _ _ into ma _ _ fields, including medicine, genetics, and pharmacology. Drug development depends on biochemical research to identify molecular targets, examine how compounds interact with them, and understand the proteins and enzymes that make effective treatments possible.

KPO 238 - AI Potential

来源：KPO

原文（Passage）

Artificial intelligence has developed rapidly in recent years, transforming the way computers process information and solve complex problems. AI systems can mi _ _ _ human cog _ _ _ _ _ _ abilities, allo _ _ _ _ them t _ analyze la _ _ _ datasets a _ _ make pred _ _ _ _ _ _ _ with remarkable sp _ _ _ and acc _ _ _ _ _. These cap _ _ _ _ _ _ _ _ _ are already being applied in fields such as medical imaging and scientific research. However, the growing use of AI also raises concerns about data privacy, employment, and the responsible use of increasingly powerful technologies.

KPO 239 - Atmospheric Pressure

来源：KPO

原文（Passage）

Atmospheric pressure plays a critical role in weather systems. High-pressure zones bring clear, calm conditions due to descending air that inhibits cloud formation. In low-pressure systems, warm air rises, cools, and condenses into clouds, wh _ _ _ can le _ _ to precip _ _ _ _ _ _ _. Barometric pressure varia _ _ _ _ _ help meteoro _ _ _ _ _ _ _ improve fore _ _ _ _ _, as ra _ _ _ fluctuations of _ _ _ signal appro _ _ _ _ _ _ storms. Adva _ _ _ _ models use atmospheric force gradients, temperature, and humidity to predict storm movement and intensity, providing vital information for both short-term weather outlooks and long-term climate assessments.

KPO 240 - Fossils and Evolution

来源：KPO

原文（Passage）

Fossils provide important evidence about organisms that lived millions of years ago and reveal how life has changed over time. By comp _ _ _ _ _ fossils fr _ _ different per _ _ _ _, scientists c _ _ trace evol _ _ _ _ _ _ _ _ changes a _ _ understand h _ _ natural sele _ _ _ _ _ favors advant _ _ _ _ _ _ traits th _ _ become more common in populations. Such traits can improve an organism's chances of survival and reproduction, helping species adapt to changing environments. Together, fossil evidence and evolutionary theory provide a powerful record of the history and diversity of life on Earth.

KPO 241 - Public Health

来源：KPO

原文（Passage）

Public health focuses on improving the health and well-being of entire communities rather than treating only individual patients. Over ti _ _, public health prog _ _ _ _ have gr _ _ _ from ba _ _ _ measures li _ _ sanit _ _ _ _ _ to broader initiatives that includ _ disease prevention and health education. Modern programs use strat _ _ _ _ _ desi _ _ _ _ to address the soc _ _ _ conditions that influence health. These approaches are increasingly important as communities face emerging diseases as well as chronic illnesses associated with lifestyle and environment.

KPO 242 - Circulatory System

来源：KPO

原文（Passage）

The human circulatory system transports oxygen, nutrients, hormones, and waste products throughout the body while helping maintain internal balance. Blood flow adjus _ _ in resp _ _ _ _ to factor _ such as temp _ _ _ _ _ _ _, activ _ _ _, and emot _ _ _ _ _ states, ensur _ _ _ that ea _

_ organ receiv _ _ an adequate supp _ _ of oxygen and nutrients. During exercise, the heart pumps faster to meet increased demand, while changes in blood vessel diameter help regulate body temperature.

KPO 243 - Market Elasticity

来源：KPO

原文（Passage）

In economics, elasticity describes how strongly buyers respond to changes in market conditions. Demand f _ _ a prod _ _ _ with hi _ _ elasticity wi _ _ change substantially when prices rise because subst _ _ _ _ _ _ are readily available. By contrast, t _ _ demand for essential goods often shi _ _ _ less, reflec _ _ _ _ the fact that consum _ _ _ still need to purchase i _ even when prices increase. Understanding elasticity helps economists predict consumer behavior and anticipate how markets respond to changing prices.

KPO 244 - Search for Life

来源：KPO

原文（Passage）

The search for life beyond Earth often focuses on places where liquid water may exist, since water is essential for life as we know it. Sci _ _ _ _ _ _ _ evid _ _ _ _ suggests th _ _ some i _ _ moons may cont _ _ _ subsurface oceans ke _ _ liquid b _ tidal heat _ _ _, a proc _ _ _ in wh _ _ _ gravitational forces generate internal heat. Jupiter's moon Europa and Saturn's moon Enceladus are especially promising examples. Scientists study their icy surfaces and material released from beneath them for clues about potentially habitable environments.

KPO 245 - Ocean Currents

来源：KPO

原文（Passage）

Ocean currents are large-scale movements of seawater that transport heat and nutrients throughout the world's oceans. They are influ _ _ _ _ _ by fac _ _ _ _ such a _ wind patt _ _ _ _ and Earth's rota _ _ _ _, and they play a cru _ _ _ _ role i _ regulating glo _ _ _ climate, si _ _ _ they redi _ _ _ _ _ _ _ _ heat from warmer regions to cooler ones. This redistribution of heat affects weather systems and contributes to the global water cycle, including evaporation, condensation, and precipitation.

KPO 246 - Rock Formations

来源：KPO

原文（Passage）

Geologists study rocks to understand the dynamic processes that have shaped Earth over millions of years. Many rocks fo _ _ in lay _ _ _ as mat _ _ _ _ _ builds u _ over ti _ _. These layers a _ _ then press _ _ and fu _ _ _ together t _ create so _ _ _ rock under high temperature and pressure. Through plate movement and other geological processes, rocks formed deep within Earth's crust may eventually be pushed toward the surface. Rock layers preserve valuable records of past environmental conditions.

KPO 247 - Heritage Tourism

来源：KPO

原文（Passage）

Heritage tourism can bring economic benefits to communities rich in historic sites and traditions, but increased tourism can also place those resources at risk. Effective regu _ _ _ _ _ _ _ and manage _ _ _ _ should involve lo _ _ _ communities, protecting ritu _ _ _ and hist _ _ _ _ resources while pres _ _ _ _ _ _ their cultural meaning. Comm _ _ _ _ _ _ _ should guide how traditions are presented, wit _ _ _ _ turning th _ _ into scrip _ _ _ performances created only for visitors. Successful heritage tourism therefore depends on careful regulation and community-led planning rather than simply limiting visitor numbers or building new hotels.

KPO 248 - Paint Evolution

来源：KPO

原文（Passage）

Paint has served as an important medium of artistic expression for thousands of years, but the materials used to produce color have changed considerably over time. Early art _ _ _ _ relied on nat _ _ _ _ pigments der _ _ _ _ from min _ _ _ _ _ a _ _ other organic sou _ _ _ _ to cre _ _ _ their wo _ _ _, often grinding these substances i _ order to make usable paints. Advances in chemistry later res _ _ _ _ _ in the development of synthetic pigments that offered brighter, more durable colors. These innovations greatly expanded the range of colors available to artists.

KPO 249 - Microfinance Access

来源：KPO

原文（Passage）

Microfinance has transformed access to financial services by providing small loans to people who may not qualify for traditional bank credit. Loan recip _ _ _ _ _ can st _ _ _ or exp _ _ _ small busin _ _ _ _ _, improving th _ _ _ living cond _ _ _ _ _ _ and strengthening local comm _ _ _ _ _ _ _. Many programs also encour _ _ _ financial liter _ _ _ and other skills that can advan _ _ long-term economic independence. By expanding access to credit and knowledge, microfinance can help reduce poverty while giving individuals greater control over their economic futures.

2026-08-20（9 套）

2026-08-20 Philosophy of Mind

原文（Passage）

In philosophy of mind, questions about consciousness and self-awareness focus on mental capacities like thoughts, beliefs, and desires that shape behavior. Thinkers such as Descartes and Locke examined the nature of inner experience and recognized the limits of understanding other minds. Over ti _ _, this philos _ _ _ _ _ _ _ idea w _ _ adopted b _ cognitive scien _ _ _ _ _ who be _ _ _ studying h _ _ we iden _ _ _ _ and inte _ _ _ _ _ mental sta _ _ _ in ourselves and others. This shift enabled deeper insights into empathy, communication, and social understanding, offering a bridge between abstract thought and observable human behavior.

2026-08-20 The Agricultural Revolution

原文（Passage）

At the dawn of civilization, humans relied heavily on their natural surroundings to meet basic needs. Early humans were primarily hunters and gatherers, foraging for edible plants and hunting wild animals. This required humans to move often to find food. Over ti _ _, they obse _ _ _ _ natural patt _ _ _ _ and be _ _ _ planting se _ _ _, sparking t _ _ agricultural revol _ _ _ _ _. This cha _ _ _ allowed perm _ _ _ _ _ settlements a _ _ growing communities. With larger populations came complex social structures, trade, and specialized crafts.

2026-08-20 The Louisiana Purchase

原文（Passage）

The Louisiana Purchase of 1803 was a landmark diplomatic agreement in which the United States acquired approximately 828,000 square miles of territory from France for $15 million. Negotiated under President Thomas Jefferson, the acqui _ _ _ _ _ _ nearly dou _ _ _ _ the la _ _ area o _ the nat _ _ _ and sec _ _ _ _ access t _ key inl _ _ _ waterways a _ _ trade hu _ _ essential for economic expansion. The purchase also affirmed the principle of implied powers within the United States Constitution, setting a precedent for future territorial growth.

KPO 218 - In-unit Laundry

来源：KPO

原文（Passage）

In-unit washing machines have become increasingly common in modern apartment buildings because they allow residents to wash clothes without leaving home. These mach _ _ _ _ save ti _ _ and elim _ _ _ _ _ the ne _ _ to ca _ _ _ clothes t _ a sha _ _ _ facility. How _ _ _ _, they c _ _ consume mo _ _ water and electricity, leading to higher utility bills and a greater environmental burden. Installing a machine can also reduce limited living space, whereas shared laundry rooms may use resources more efficiently and lessen individual maintenance responsibilities.

KPO 219 - Time Zones

来源：KPO

原文（Passage）

Before standardized time zones, towns in North America often set their clocks according to local solar time. Each to _ _ used t _ _ sun t _ set t _ _ local ti _ _, which w _ _ kept diffe _ _ _ _ _ _ by neigh _ _ _ _ _ _ municipalities a _ _ could va _ _ slightly from place to place. The spread of trains required precise schedules, and telegraph messages needed consistent timing across regions. In 1883, major railroad companies adopted a system of standardized time zones, helping coordinate travel and communication over long distances.

KPO 220 - Social Insects

来源：KPO

原文（Passage）

Social insects such as ants, bees, and termites live in highly organized colonies in which members perform different functions. Inside ea _ _ colony, wor _ _ _ _ perform speci _ _ _ _ _ _ tasks, que _ _ _ reproduce a _ _ foragers gat _ _ _ food. Wor _ _ _ _ also ca _ _ for offs _ _ _ _ _, while sold _ _ _ _ defend the nest, with each role contributing to the group's survival. Colony members communicate through chemical signals, touch, or patterned movements. This division of labor allows the group to respond efficiently to environmental challenges.

KPO 221 - Exoplanet Habitability

来源：KPO

原文（Passage）

Exoplanets are planets that orbit stars beyond our solar system. In rec _ _ _ decades, astro _ _ _ _ _ _ have disco _ _ _ _ _ thousands o _ these wor _ _ _ using powe _ _ _ _ telescopes a _ _ indirect dete _ _ _ _ _ methods. So _ _ exoplanets or _ _ _ stars at distances that may allow liquid water to exist on their surfaces. Scientists analyze their atmospheres for gases such as water vapor and methane, which may indicate conditions suitable for life. These discoveries challenge

older ideas about how planetary systems form and help researchers estimate how common habitable environments may be.

KPO 222 - River Deltas

来源：KPO

原文（Passage）

River deltas form where rivers meet larger bodies of water and lose speed. When riv _ _ _ enter t _ _ open oc _ _ _, or s _ _, their cur _ _ _ _ slows a _ _ deposits sedi _ _ _ _ material car _ _ _ _ from upst _ _ _ _. Over ti _ _, the sediments accumulate and create new land. Deltas often contain fertile soils and support diverse plants, wildlife, and human settlements. Because they lie near the coast, however, deltas are vulnerable to flooding, erosion, and rising sea levels.

KPO 223 - Theater History

来源：KPO

原文（Passage）

Theater has long been an important part of human culture, combining performance, storytelling, music, and visual design. Ancient Gr _ _ _ theater intro _ _ _ _ _ dramatic conve _ _ _ _ _ _ that cont _ _ _ _ to infl _ _ _ _ _ productions to _ _ _. Performers wo _ _ masks a _ _ appeared wi _ _ a cho _ _ _, allowing characters and emotions to be represented clearly. During the Renaissance, Shakespeare's plays expanded the expressive possibilities of theater and helped it flourish as a popular art form. Modern theater continues to adapt these traditions to new audiences and technologies.

2026-08-18（5 套）

2026-08-18 Color and Pigment

原文（Passage）

Throughout history, color and pigment have played a central role in art, shaping how we perceive and interpret visual experiences. Artists ha _ _ long under _ _ _ _ _ the emot _ _ _ _ _ and psycho _ _ _ _ _ _ _ power _ _ color, util _ _ _ _ _ it _ _ convey mo _ _ _, create emph _ _ _ _, and evo _ _ responses. For example, red often symbolizes passion, while blue can elicit calmness. These symbolic associations can vary across cultures and time periods, allowing artists to communicate deeper layers of meaning through their color choices.

2026-08-18 Coral Reefs

原文（Passage）

Coral reefs are vibrant underwater ecosystems found in warm, shallow oceans around the world. Coral reefs are prod _ _ _ _ by colo _ _ _ _ of ti _ _ animals cal _ _ _ coral polyps, wh _ _ _ secrete calcium carbonate t _ build th _ _ _ hard skel _ _ _ _ _. These nat _ _ _ _ formations pro _ _ _ _ critical habitats for a diverse array of marine species, including fish, crustaceans, and mollusks. They also offer protection to coastal areas by reducing the impact of waves and storms. However, coral reefs are facing threats from climate change, pollution, and overfishing.

2026-08-18 Modern Geography and GIS

原文（Passage）

Modern geographers employ advanced technologies, including geographic information systems (GIS), to analyze spatial data, enabling them to visualize patterns of urban development, resource allocation, and environmental change. This analy _ _ _ _ _ approach all _ _ _ geographers t _ provide insi _ _ _ _ into pres _ _ _ _ global iss _ _ _ such a _ climate cha _ _ _,

migration, a _ _ sustainable devel _ _ _ _ _ _, offering frameworks for informed decision-making and policy implementation. Understanding the geographic dimensions of these challenges is crucial for fostering resilience and adaptability in a rapidly changing world.

2026-08-18 River Delta Formation

原文（Passage）

The formation of river deltas is a geographical process that illustrates the dynamic interaction between land and water. When a river reaches a body of water, such as an oc _ _ _ or s _ _, it sl _ _ _ down, depos _ _ _ _ _ the mater _ _ _ _ it has carr _ _ _ from upstr _ _ _. Gradually, t _ _ sediments accum _ _ _ _ _ to cre _ _ _ deltas, which are fertile landforms that extend into the water. Deltas not only support diverse ecosystems but also provide rich agricultural land.

2026-08-18 The Odyssey

原文（Passage）

The Odyssey is an ancient Greek epic poem that follows the hero, Odysseus, on his ten-year journey home after the Trojan War. It i _ widely consid _ _ _ _ one o _ the grea _ _ _ _ works i _ the hist _ _ _ of Europ _ _ _ literature. The Odyssey estab _ _ _ _ _ _ many narr _ _ _ _ _ structures a _ _ archetypes—like the hero's journey—that continue to shape storytelling today. It also delves into timeless human experiences. Odysseus's longing to return home, for example, resonates with the universal desire for belonging and stability. He must adapt, disguise, and rediscover himself, reflecting the fluid nature of identity.

2026-08-15（3 套）

2026-08-15 Ocean Currents

原文（Passage）

Ocean currents are large-scale movements of seawater that transport heat and nutrients throughout the world's oceans. They are influ _ _ _ _ _ by fac _ _ _ _ such a _ wind patt _ _ _ _ and Earth's rota _ _ _ _, and they play a cru _ _ _ _ role i _ regulating glo _ _ _ climate, si _ _ _ they redist _ _ _ _ _ _ heat from warmer regions to cooler ones. This redistribution of heat affects weather systems and contributes to the global water cycle, including evaporation, condensation, and precipitation.

2026-08-15 Prehistoric Kinship

原文（Passage）

The role of kinship was central to the social structure of prehistoric communities. Kinship not only structured family relationships but also shaped how resources were shared, labor was organized, and social hierarchies were maintained within the group. Arc _ _ _ _ _ _ _ _ _ _ _ evidence su _ _ _ _ _ _ that indiv _ _ _ _ _ _ held sp _ _ _ _ _ _ roles b _ _ _ _ on a _ _ and g _ _ _ _ _, contributing t _ a sophist _ _ _ _ _ _ division o _ labor. The intricacy of these social structures is further evidenced by the existence of ceremonial sites, which indicate collective activities and social gatherings.

2026-08-15 Rocks and Geology

原文（Passage）

Rocks provide geologists with valuable information about the processes that have shaped Earth over millions of years. Many rocks fo _ _ in la _ _ _ _ as ma _ _ _ _ _ _ builds u _ over ti _ _. These layers a _ _ then pre _ _ _ _ and fu _ _ _ together t _ create so _ _ _ rock under high temperature and pressure. Through plate movement and other geological processes, rocks formed deep

within Earth's crust can eventually be pushed toward the surface, where they provide a record of Earth's history.

2026-08-12 Abstract Art

原文（Passage）

The evolution of abstract art in the early twentieth century marks a pivotal shift in the perception and purpose of artwork. Abstract artists often seek to repr _ _ _ _ _ the esse _ _ _ _ _ qualities o _ emotions assoc _ _ _ _ _ with t _ _ subject, focu _ _ _ _ on mo _ _ and move _ _ _ _, as we _ _ as symb _ _ _ _ _, rather than realistic detail. The abstract art movement broke away from traditional ideas about art, prompting viewers to think more deeply about what they saw. As artists explored new methods of expression, they revolutionized how people interact with art, creating a conversation between artist and audience.

2026-08-12 Atmospheric Pressure

原文（Passage）

Atmospheric pressure plays a critical role in weather systems. High-pressure zones bring clear, calm conditions due to descending air that inhibits cloud formation. In low-pressure systems, warm air rises, cools, and condenses into clouds, wh _ _ _ can le _ _ to precip _ _ _ _ _ _ _. Barometric pressure varia _ _ _ _ _ help meteoro _ _ _ _ _ _ _ improve fore _ _ _ _ _, as ra _ _ _ fluctuations of pres _ _ _ _ often signal appro _ _ _ _ _ _ storms. Adva _ _ _ _ models use atmospheric force gradients, temperature, and humidity to predict storm movement and intensity, providing vital information for both short-term weather outlooks and long-term climate assessments.

2026-08-12 Atmospheric Pressure — Part 2

原文（Passage）

Atmospheric pressure plays a critical role in weather systems. High-pressure zones bring clear, calm conditions due to descending air that inhibits cloud formation. In low-pressure systems, warm air rises, cools, and condenses into clouds, wh _ _ _ can le _ _ to precip _ _ _ _ _ _ _. Barometric pressure varia _ _ _ _ _ help meteoro _ _ _ _ _ _ _ improve fore _ _ _ _ _, as ra _ _ _ fluctuations of _ _ _ signal appro _ _ _ _ _ _ storms. Adva _ _ _ _ models use atmospheric force gradients, temperature, and humidity to predict storm movement and intensity, providing vital information for both short-term weather outlooks and long-term climate assessments.

2026-08-12 Chiaroscuro

原文（Passage）

In the world of academia, art history is more than just studying paintings—it is about decoding the emotional language of visual storytelling. For example, chiaroscuro is a tech _ _ _ _ _ that origi _ _ _ _ _ during t _ _ Renaissance. Exemp _ _ _ _ _ _ by str _ _ _ contrast bet _ _ _ _ light a _ _ shadow, the st _ _ _ evokes dr _ _ _ through sele _ _ _ _ _ illumination. Artists like Caravaggio mastered this interplay, using it to pull viewers into the heart of his scenes, guiding their eyes and stirring their emotions with every flicker of light.

2026-08-12 Crop Rotation

原文（Passage）

Crop rotation is an essential practice in sustainable agriculture. Crop rotation involves the sequential plan _ _ _ _ of diff _ _ _ _ _ crops i _ the sa _ _ area acr _ _ _ various sea _ _ _ _. This

tech _ _ _ _ _ significantly impr _ _ _ _ soil hea _ _ _ by divers _ _ _ _ _ _ the nutrients extracted from, and returned to, the soil. When one crop depletes certain nutrients, another crop can replenish them, creating a balanced ecosystem. This method also helps in controlling pests and diseases, as rotating crops disrupt their reproductive cycles, reducing their prevalence without the need for chemical pesticides.

2026-08-12 Environmental Geology

原文（Passage）

Geology involves the study of Earth's physical structure and substances, the processes that act upon them, and the history of the planet and its life forms. Environmental geology specif _ _ _ _ _ _ focuses o _ how geolo _ _ _ _ _ processes aff _ _ _ human activ _ _ _ _ _ and t _ _ environment. I _ encompasses ar _ _ _ such a _ natural haz _ _ _ assessment, resource management, and land-use planning. By understanding the geological factors that influence environmental conditions, geologists can help mitigate the impacts of natural disasters and promote sustainable development.

2026-08-12 Moon Phases in History

原文（Passage）

Observing the moon's phases has been important for many cultures throughout history, influencing calendars, navigation, and mythology. Lunar cycles formed the basis of early timekeeping systems, such as the Islamic Hijri calendar and the traditional Chinese lunisolar calendar. Seafarers us _ _ the posi _ _ _ _ of t _ _ moon t _ make predi _ _ _ _ _ _ about oc _ _ _ levels a _ _ its illumi _ _ _ _ _ _ to gu _ _ _ their voy _ _ _ _, especially during night travel. In mythology, the moon often embodied powerful deities or symbols, shaping rituals, stories, and seasonal festivals. Across continents, the waxing and waning of the moon has remained a universal clock and an inspiration for human imagination.

2026-08-12 Neolithic Pottery

原文（Passage）

During the Neolithic period, craftspeople began producing pottery that served both practical and aesthetic purposes. Initially created f _ _ storing fo _ _ and wa _ _ _, these cl _ _ vessels event _ _ _ _ _ featured decor _ _ _ _ _ elements su _ _ as care _ _ _ _ _ incised patt _ _ _ _ and pai _ _ _ _ designs. This dual function—utility and beauty—marks one of the earliest examples of craftsmanship evolving into artistic expression. The refinement of pottery techniques, including firing and glazing, reflected growing technical skill and cultural values.

2026-08-12 Ottoman Empire

原文（Passage）

The Ottoman Empire, which lasted from 1299 to 1922, was a formidable force that reshaped the political and cultural landscapes of Europe, the Middle East, and North Africa. Renowned for its mili _ _ _ _ prowess a _ _ strategic conq _ _ _ _ _, the emp _ _ _ reached i _ _ zenith un _ _ _ the re _ _ _ of Suleyman the Magnificent, dur _ _ _ which a _ _ _ and archit _ _ _ _ _ _ flourished. The Ottomans also played a pivotal role in global commerce, controlling key trade routes that linked the spice markets of Asia with the merchant hubs of Europe.

2026-08-12 Weather Prediction Systems

原文（Passage）

The atmosphere is a dynamic and complex system, shaped by countless interacting variables such as solar radiation, air pressure, and moisture levels. Meteorologists use advanced mod _ _ _

to simu _ _ _ _ these intera _ _ _ _ _ _, but predi _ _ _ _ _ weather rem _ _ _ _ a chal _ _ _ _ _ due t _ the inher _ _ _ _ _ chaotic nat _ _ _ of atmos _ _ _ _ _ _ processes. Small changes in initial conditions can lead to vastly different outcomes, making long-term forecasts especially uncertain. Despite technological progress, the atmosphere's unpredictability continues to pose limits to accurate and consistent weather prediction.

2026-08-09（1 套）

2026-08-09 Academic Reasoning

原文（Passage）

In academic research, reasoning is key to forming and testing hypotheses. Logical reasoning uses structured thinking to evaluate arguments and reach conclusions. Deductive reasoning starts with known facts and leads to certain outcomes, while inductive reasoning draws gen _ _ _ _ ideas fr _ _ specific observ _ _ _ _ _ _, though i _ involves so _ _ uncertainty. Us _ _ _ both met _ _ _ _ _ together stren _ _ _ _ _ _ the appr _ _ _ _ to invest _ _ _ _ _ _ _ and inquiry. This practice helps scholars build solid arguments and make informed decisions. By applying clear reasoning strategies, researchers can advance knowledge and contribute meaningful insights to their fields.

2026-08-08（4 套）

2026-08-08 Ancient Rome Society

原文（Passage）

The society of ancient Rome was a complex hierarchy, featuring a distinct class system. At the top were the patricians, the el _ _ _ aristocratic fami _ _ _ _ who he _ _ the majo _ _ _ _ o _ the political po _ _ _. Most of the popul _ _ _ _ _ had lim _ _ _ _ privileges, infl _ _ _ _ _, and rig _ _ _. They were called plebeians. Despite their larger numbers, plebeians were largely excluded from formal political decision-making in the early Republic. Over time, however, they fought for and gradually secured more privileges, such as the ability to hold public office.

2026-08-08 Color and Pigment

原文（Passage）

Throughout history, color and pigment have played a central role in art, shaping how we perceive and interpret visual experiences. Artists ha _ _ long under _ _ _ _ _ the emot _ _ _ _ _ and psycho _ _ _ _ _ _ _ power o _ color, util _ _ _ _ _ it t _ convey mo _ _, create emph _ _ _ _, and evo _ _ responses. For example, red often symbolizes passion, while blue can elicit calmness. These symbolic associations can vary across cultures and time periods, allowing artists to communicate deeper layers of meaning through their color choices.

2026-08-08 Craft Evolution

原文（Passage）

Craft traditions have evolved from practical handwork into forms of artistic and cultural expression. Early artisans valued techn _ _ _ _ skill, b _ _ they also recognized craft as a medium f _ _ preserving memory and identity. Objects made for daily use could show a community's abi _ _ _ _ to inf _ _ _ ordinary crea _ _ _ _ _ wi _ _ deeper mean _ _ _, spir _ _ _ _ _, and cult _ _ _ _ values. Over time, craftsmanship reflected both practical needs and the symbolic imagination of the people who produced it.

2026-08-08 Weather Forecasting

原文（Passage）

The atmosphere is a dynamic and complex system, shaped by countless interacting variables such as solar radiation, air pressure, and moisture levels. Meteorologists use advanced mod _ _ _ to simu _ _ _ _ these inter _ _ _ _ _ _ _, but pred _ _ _ _ _ _ weather rem _ _ _ _ a chall _ _ _ _ due t _ the inhe _ _ _ _ _ _ chaotic nat _ _ _ of atmos _ _ _ _ _ _ processes. Small changes in initial conditions can lead to vastly different outcomes, making long-term forecasts especially uncertain. Despite technological progress, the atmosphere's unpredictability continues to pose limits to accurate and consistent weather prediction.

2026-07-29 Critical Thinking

原文（Passage）

Critical thinking is a vital skill that involves analyzing information objectively and making reasoned judgments. This process requ _ _ _ _ a clear, rati _ _ _ _ approach t _ problem-solving, wh _ _ one asse _ _ _ _ evidence, ident _ _ _ _ _ biases, a _ _ evaluates argu _ _ _ _ _. Critical thin _ _ _ _ are ab _ _ to distinguish between fact and opinion, and they ask probing questions to gain deeper insights. In academic contexts, this skill helps students develop well-founded conclusions and become more effective learners. Encouraging critical thinking is essential for fostering intellectual growth and informed decision-making.

2026-07-29 Human Circulatory System

原文（Passage）

The human circulatory system plays a central role in maintaining physiological balance by transporting oxygen, nutrients, and waste products throughout the body. At its core is the heart, which propels blood through arteries and veins to reach tissues such as the brain, muscles, and skin. Blood flow adj _ _ _ _ in resp _ _ _ _ to fac _ _ _ _ like tempe _ _ _ _ _ _, physical acti _ _ _ _, and emot _ _ _ _ _ stress, ensu _ _ _ _ that ea _ _ organ rece _ _ _ _ appropriate sup _ _ _ _. Studying these patterns helps students understand how internal systems coordinate to sustain health and adapt to changing conditions.

2026-07-29 Public Health

原文（Passage）

Public health is a field that looks at the overall well-being of communities, focusing on how society and individual health are connected. Over ti _ _, public health prog _ _ _ _ have gr _ _ _ from ba _ _ _ efforts li _ _ improving sanit _ _ _ _ _ to inc _ _ _ _ many strat _ _ _ _ _ that de _ _

with soc _ _ _ factors affecting health. This history shows the ongoing challenge of deciding how to use limited resources while facing more and more health problems, such as new diseases and long-term conditions linked to lifestyle. As leaders work to solve these issues, they are realizing the importance of teamwork across different fields.

2026-07-29 Shadow Puppetry

原文（Passage）

Shadow puppetry is an ancient form of storytelling that uses flat, articulated (movable) figures cast onto a screen by a light source. Shadow puppetry comb _ _ _ _ visual arti _ _ _ _ with dram _ _ _ _ narration, crea _ _ _ _ engaging perfor _ _ _ _ _ _ that con _ _ _ traditional ta _ _ _ and mo _ _ _ lessons. Th _ _ art fo _ _ originated in Asia and spread to various cultures around the world. The puppets are typically made of leather or paper and manipulated by sticks or strings. Performers narrate stories, often accompanied by music or sound effects.

KPO 204 - Making Crafts

来源：KPO

原文（Passage）

Making crafts is both fun and creative, making it a favorite way to relax for many people. Some en _ _ _ making jew _ _ _ _, while oth _ _ _ like pain _ _ _ _. Crafts c _ _ be sim _ _ _ or com _ _ _ _, depending o _ what y _ _ want t _ create. There are many materials to choose from, like paper, fabric, and wood. Many people find that making crafts is an engaging activity that allows them to make beautiful things and to express themselves.

KPO 205 - Glaciers and Climate Indicators

来源：KPO

原文（Passage）

Glaciers are massive bodies of ice that move slowly under their own weight, carving valleys and shaping landscapes as they advance and retreat. They fo _ _ where sn _ _ accumulates ov _ _ time a _ _ compresses in _ _ ice. Glaciers a _ _ important indic _ _ _ _ _ of cli _ _ _ _ change, a _ their move _ _ _ _ and size can reflect fluctuations in temperature and precipitation. Studying glaciers helps us understand past climate conditions and predict future environmental changes. Melting glaciers also impact sea levels and freshwater supplies.

KPO 206 - Logical Reasoning

来源：KPO

原文（Passage）

Logical reasoning is a cornerstone of effective thinking and decision-making. Wh _ _ faced wi _ _ a com _ _ _ _ problem, w _ can div _ _ _ it in _ _ multiple manag _ _ _ _ _ components, iden _ _ _ _ the ro _ _ causes, a _ _ develop coherent solutions. This enables us to draw conclusions based on evidence rather than emotions or biases. Logical reasoning is not just important for lawyers and scientists. It is also essential in everyday situations, from choosing the best investment options to resolving interpersonal conflicts.

KPO 207 - Extinctions

来源：KPO

原文（Passage）

Extinctions are a natural part of Earth’s history. They c _ _ result fr _ _ a var _ _ _ _ of cau _ _ _, such a _ climate cha _ _ _ _, habitat lo _ _, and compe _ _ _ _ _ _ with ot _ _ _ species. Am _ _ _ the most famous extinction events was the disappearance of nearly all of the dinosaurs 65 million years ago. Today, human activities are accelerating the rate of extinctions, posing a significant threat to biodiversity. Conservation efforts aim to protect endangered species and preserve the natural ecosystems they depend on.

KPO 208 - Public Health

来源：KPO

原文（Passage）

Public health is a multidisciplinary field concerned with preventing disease, prolonging life, and promoting health through organized efforts and informed choices. It in _ _ _ _ _ _ strategies such a _ health edu _ _ _ _ _ _, vaccination pro _ _ _ _ _, and poli _ _ _ _ aimed a _ ensuring sa _ _ environ _ _ _ _ _. Public health prof _ _ _ _ _ _ _ _ _ work to iden _ _ _ _ health disparities. They also manage outbreaks of infectious diseases, promote healthy lifestyles, and contribute to improved quality of life and reduce the burden on healthcare systems worldwide.

KPO 209 - Sleep and Health

来源：KPO

原文（Passage）

Sleep is crucial for maintaining overall health and well-being. It rep _ _ _ _ our bod _ _ _ and gi _ _ _ a cha _ _ _ for o _ _ brains t _ process memo _ _ _ _. Research sh _ _ _ that get _ _ _ _ a full ni _ _ _ of sleep within 24 hours after learning will help us remember new information better. Lack of sleep not only hurts our learning ability but also affects mood and concentration. For example, we might find it harder to focus, make decisions, and respond quickly.

KPO 210 - Cave Drawings

来源：KPO

原文（Passage）

We know from drawings that have been preserved in caves for over 10,000 years that early humans performed dances as a group activity. We mi _ _ _ think th _ _ prehistoric peo _ _ _ concentrated on _ _ on ba _ _ _ survival. How _ _ _ _, it i _ clear fr _ _ the rec _ _ _ that dan _ _ _ _ was important to them. They recorded more drawings of dances than of any other group activity. Dances served various purposes, including ritualistic communication with the divine, storytelling, and social cohesion.

2026-07-22 3D Printing

原文（Passage）

The advancement of 3D printing technology has revolutionized manufacturing by enabling precise, layer-by-layer fabrication of complex objects. 3D printing can use div _ _ _ _ materials su _ _ as plas _ _ _ _, metals, a _ _ ceramics. Engi _ _ _ _ _ are ab _ _ to fabr _ _ _ _ _ lightweight, str _ _ _ components wi _ _ internal struc _ _ _ _ _ that are impossible to produce using traditional methods. In the medical field, 3D printing facilitates the production of patient-specific implants and prosthetics tailored to anatomical data from imaging scans. 3D printing enhances design flexibility and production efficiency by streamlining prototyping and reducing material waste.

2026-07-22 Abstract Art

原文（Passage）

The evolution of abstract art in the early twentieth century marks a pivotal shift in the perception and purpose of artwork. Abstract artists often seek to repr _ _ _ _ _ the esse _ _ _ _ _ qualities o _ emotions assoc _ _ _ _ _ with t _ _ subject, foc _ _ _ _ _ on mo _ _ and move _ _ _ _, as we _ _ as symb _ _ _ _ _, rather than realistic detail. The abstract art movement broke away from traditional ideas about art, prompting viewers to think more deeply about what they saw. As artists explored new methods of expression, they revolutionized how people interact with art, creating a conversation between artist and audience.

2026-07-22 Circadian Rhythm

原文（Passage）

The circadian rhythm regulates sleep-wake cycles and other physiological processes, operating on a roughly 24-hour cycle influenced by external cues such as light and temperature. Disruptions to this rhythm, like irre _ _ _ _ _ sleep patt _ _ _ _, can le _ _ to hea _ _ _ issues incl _ _ _ _ _ insomnia, exhau _ _ _ _ _, and decr _ _ _ _ _ cognitive func _ _ _ _. Some resea _ _ _ _ _ _ are expl _ _ _ _ _ the mechanisms of circadian rhythms, aiming to develop treatments for sleep

disorders and improve overall health. Understanding these rhythms is crucial for addressing various health concerns.

2026-07-22 Fungi Ecosystems

原文（Passage）

Fungi play an important role in ecosystems due to their unique structures and functions. Unlike plants, which produce their food through photosynthesis, fungi obtain nutrients by decomposing dead or decaying organisms. By brea _ _ _ _ down com _ _ _ _ organic mat _ _ _, they pl _ _ a k _ _ role i _ nutrient cyc _ _ _ _, returning esse _ _ _ _ _ elements li _ _ carbon ba _ _ to the soil. Such activity not only sustains their growth but also benefits surrounding plants. In forest ecosystems, fungi create large networks of root-like structures that contribute to soil health and promote biodiversity.

2026-07-22 Geological Formations

原文（Passage）

The study of geological formations provides insights into Earth's dynamic processes. Metamorphic rocks are rocks that have been transformed by heat and pressure. Sedimentary rocks fo _ _ as lay _ _ _ of mate _ _ _ _ build u _ over ti _ _ and a _ _ eventually pre _ _ _ _ and fu _ _ _ together t _ create so _ _ _ rock. The strata inside these formations serve as historical records of environmental conditions, revealing changes in climate, sea levels, and biological evolution. Analyzing rocks allows geologists to reconstruct past geological events.

2026-07-22 Mughal Empire

原文（Passage）

The Mughal Empire, which ruled much of South Asia from 1526 to 1857, was a powerful Islamic dynasty known for its administrative sophistication and cultural patronage. Mughal paintings, particularly miniature illustrations, blended Persian, Indian, and Central Asian artistic traditions. These sm _ _ _ works, commis _ _ _ _ _ _ by Mughal empe _ _ _ _, often depi _ _ _ _ royal li _ _, historical eve _ _ _, and sce _ _ _ from myth _ _ _ _ _ with remar _ _ _ _ _ detail a _ _ realism. As court-sponsored art, they reflected imperial wealth, political authority, and cross-cultural exchange, serving both aesthetic and documentary purposes within a thriving economy supported by trade, agriculture, and centralized governance.

2026-07-22 Philosophical Inquiry

原文（Passage）

Philosophy investigates the nature of reality, existence, and knowledge through critical thinking and reasoning. It expl _ _ _ _ fundamental ques _ _ _ _ _ about t _ _ human exper _ _ _ _ _, ethics, a _ _ the mi _ _. Philosophers dev _ _ _ _ theories t _ better under _ _ _ _ _ the wo _ _ _ and our place in it. This discipline challenges individuals to reflect deeply on their beliefs and assumptions, fostering intellectual growth and enlightenment. Contemporary philosophical branches include bioethics, philosophy of mind, and environmental philosophy, addressing modern challenges such as artificial intelligence consciousness, genetic engineering ethics, and humanity's relationship with nature.

2026-07-22 Realism In Theater

原文（Passage）

Realism in theater is a movement that emerged in the 19th century, aiming to portray everyday life with authenticity and truthfulness. It rejects exaggerated sentime _ _ _ _ _ _ _ and theat _ _ _ _ _ conventions, ins _ _ _ _ focusing o _ believable chara _ _ _ _ _, natural conver _ _ _ _ _ _ _,

and sett _ _ _ _ that ref _ _ _ _ real soc _ _ _ environments. Real _ _ _ _ _ plays often explore complex moral and social issues, emphasizing psychological depth and the influence of environment and circumstance on human behavior. Realism continues to influence contemporary theatre by encouraging honest, nuanced storytelling.

2026-07-22 Underwater Robotics

原文（Passage）

Advancements in underwater robotics are revolutionizing ocean exploration. These robots, known as autonomous underwater vehicles (AUVs), can navigate deep-sea environments independently. Equipped with sen _ _ _ _ and cam _ _ _ _, AUVs col _ _ _ _ data o _ marine li _ _, ocean curr _ _ _ _, and under _ _ _ _ _ geology. Th _ _ can re _ _ _ depths th _ _ are inaccessible to human divers, providing valuable insights into uncharted regions. Researchers use AUVs to study the impact of climate change on ocean ecosystems and to explore underwater archaeological sites, enhancing our understanding of the ocean.

2026-07-22 Wind Currents

原文（Passage）

Wind currents form due to differences in atmospheric pressure, which arise from uneven solar heating across Earth's surface. As warmer air rises and cooler air sinks, pressure differentials are created, driving horizontal air movement known as wind. Wind currents transport mois _ _ _ _ and infl _ _ _ _ _ temperature, pla _ _ _ _ a k _ _ role i _ shaping wea _ _ _ _ patterns. T _ _ Coriolis eff _ _ _, caused b _ Earth's rota _ _ _ _, further alters wind direction, creating prevailing winds that impact regional climates and storm systems. Understanding these interactions is crucial for accurate forecasting.

KPO 199 - Ecological Footprint

来源：KPO

原文（Passage）

An ecological footprint measures how much land and water area a person or society uses to support daily life. It includes the cons _ _ _ _ _ _ _ of food, energy, and materials, as well as va _ _ _ _ _ human activities that create waste. A large footprint can have sign _ _ _ _ _ _ _ environmental impacts, especially when em _ _ _ _ _ _ _ and res _ _ _ _ _ use increase rapidly. Sustainable dev _ _ _ _ _ _ _ _, careful la _ _ planning, and better res _ _ _ _ _ management can help reduce pressure. When demand is great _ _ than Earth’s cap _ _ _ _ _ ecosystems may be damaged.

KPO 200 - Homo Sapiens

来源：KPO

原文（Passage）

Archaeological evidence suggests that Homo sapiens first emerged in Africa approximately 300,000 years ago. These early humans crafted to _ _ _ from sto _ _ _ and ani _ _ _ bones an _ adapted the _ _ hunting techn _ _ _ _ _ to th _ changing clim _ _ _ _ and landsc _ _ _ _, thus ensu _ _ _ _ their survival. As they migrated out of Africa, they encountered diverse environments, leading to cultural and technological innovation.

KPO 201 - Chiaroscuro

来源：KPO

原文（Passage）

Chiaroscuro is an artistic techn _ _ _ _ that orig _ _ _ _ _ _ in Renaissance painting. Th _ _ method uses contrasts of light and shadow to create dramatic effects. Ex _mp _ _ _ from famous painters show st _ _ _ _ contrasts bet _ _ _ _ brightness a _ _ darkness. This st _ _ _ can dr _ _ attention to sel _ _ _ _ _ parts of a scene, making figures appear more vivid and emotionally powerful.

KPO 202 - Sodium-ion Batteries

来源：KPO

原文（Passage）

Sodium-ion batteries ha _ _ attracted attention as an envi _ _ _ _ _ _ _ _ _ _ _ friendly energy techn _ _ _ _ _. Researchers cons _ _ _ _ them a promising and sust _ _ _ _ _ _ _ alternative to lithium-ion batteries. Th _ _ _ batteries may help make energy storage cheaper and allow th _ _ to be used in sev _ _ _ _ fields, especially where lit _ _ _ _ resources are limited and wide _ _ availability matters.

KPO 203 - Classical Music

来源：KPO

原文（Passage）

Classical music has a un _ _ _ _ value because it can enga _ _ listeners through emo _ _ _ _ _ _ depth an _ formal structure. Its func _ _ _ _ is not only entertainment but also education. Certain works ind _ _ _ _ _ cultural ideals, while careful list _ _ _ _ _ helps develop cert _ _ _ habits of attention. Classical music ca _ strengthen conn _ _ _ _ _ _ between history, emotion, and artistic expression.

2026-07-19（1 套）

2026-07-19 Neolithic Pottery

原文（Passage）

During the Neolithic period, craftspeople began producing pottery that served both practical and aesthetic purposes. Initially created f _ _ storing fo _ _ and wa _ _ _, these cl _ _ vessels event _ _ _ _ _ featured decor _ _ _ _ _ elements su _ _ as care _ _ _ _ _ incised patt _ _ _ _ and pai _ _ _ _ designs. This dual function marks one of the earliest examples of craftsmanship evolving into artistic expression.

2026-07-18（5 套）

2026-07-18 Camels

原文（Passage）

Camels live in the desert where the weather is hot and dry. Sometimes i _ the des _ _ _, camels ha _ _ to tra _ _ _ for a lo _ _ time wit _ _ _ _ finding a _ _ food o _ water. S _ when cam _ _ _ do find food, they are able to eat and drink a lot. Camels turn extra food into fat and store this fat in a special hump on their back. Then they change this fat into energy to help them cross the desert.

2026-07-18 Comparative Advantage

原文（Passage）

In analyzing global trade dynamics, the principle of comparative advantage plays a foundational role. It suggests that nations should specialize in producing goods they can create most efficiently, thereby enhancing ove _ _ _ _ economic produc _ _ _ _ _ _ and fost _ _ _ _ _ international interde _ _ _ _ _ _ _ _. However, exce _ _ _ _ _ reliance o _ this mo _ _ _ can exp _ _

_ economies t _ significant ri _ _ _. Countries that concentrate on a limited range of exports may become vulnerable to market volatility, such as shifts in global demand or price fluctuations. While comparative advantage can stimulate growth, it must be strategically managed to ensure long-term economic sustainability.

2026-07-18 Deserts

原文（Passage）

Deserts, often characterized by aridity and extreme temperatures, have long been dismissed as barren wastelands. However, this perce _ _ _ _ _ overlooks th _ _ _ critical ecolo _ _ _ _ _ significance a _ _ the remar _ _ _ _ _ adaptations o _ the orga _ _ _ _ _ they ho _ _. These sev _ _ _ environments req _ _ _ _ resilience and innovation, with plants and animals developing unique survival strategies. Moreover, deserts play a vital role in global carbon cycles, and their vast landscapes offer unparalleled opportunities for research into climate change impacts. Thus, recognizing the intrinsic value of deserts is essential for fostering a deeper appreciation and commitment to desert conservation.

2026-07-18 Early Human Diet

原文（Passage）

Animal bones and plant remains discovered in archaeological sites provide valuable insights into the eating habits and lifestyles of early humans. Our ance _ _ _ _ _ relied o _ a var _ _ _ diet th _ _ included me _ _, fruits, nu _ _, and veget _ _ _ _ _, This i _ no surpr _ _ _ as th _ _ followed a hunting-gathering lifestyle. Later in history, the development of agriculture allowed for more stable food sources. It should be noted that, compared to animal bones, plant remains are much less likely to be well preserved, so the abundance of animal bones in archaeological digs do not necessarily mean that early humans ate little plant foods.

2026-07-18 Kinship in Prehistoric Communities

原文（Passage）

The role of kinship was central to the social structure of prehistoric communities. Kinship not only structured family relationships but also shaped how resources were shared, labor was organized, and social hierarchies were maintained within the group. Archaeo _ _ _ _ _ _ _ evidence sugg _ _ _ _ that indiv _ _ _ _ _ _ held spec _ _ _ _ roles ba _ _ _ on a _ _ and gen _ _ _, contributing t _ a sophis _ _ _ _ _ _ _ division o _ labor. The intricacy of these social structures is further evidenced by the existence of ceremonial sites, which indicate collective activities and social gatherings.

2026-07-16 Circadian Rhythms

原文（Passage）

Circadian rhythms are natural cycles that help regulate key functions in the body over a roughly 24-hour period. These rhythms respond to external cues like light and temperature, aligning sleep, alertness, and hormone levels with the environment. Disruption of circadian rhythms, often due to irreg _ _ _ _ sleep patt _ _ _ _, can le _ _ to neg _ _ _ _ _ effects o _ health, incl _ _ _ _ _ impaired cogn _ _ _ _ _ function, mo _ _ disorders, a _ _ metabolic disturb _ _ _ _ _.

2026-07-16 Color Perception

原文（Passage）

Color perception has fascinated scientists and artists alike for centuries. The study of pigments, subst _ _ _ _ _ that gi _ _ color t _ materials, rev _ _ _ _ complex intera _ _ _ _ _ _ with li _ _ _. Pigments abs _ _ _ certain wavel _ _ _ _ _ _ and ref _ _ _ _ others, wh _ _ _ is why objects appear to have color.

2026-07-16 Pigment in Visual Arts

原文（Passage）

In visual arts, the interplay between color and pigment is fundamental in shaping artistic expression. Pigments, the materials that give color to paint, are der _ _ _ _ from var _ _ _ _ sources, incl _ _ _ _ _ minerals, pla _ _ _, and synt _ _ _ _ _ compounds. Art _ _ _ _ selected mate _ _ _ _ _ based o _ their abi _ _ _ _ to con _ _ _ _ underlying layers (opacity) and resist fading over time.

2026-07-15（5 套）

2026-07-15 Evolution of Paint

原文（Passage）

The evolution of paint as a medium has significantly impacted the development of visual arts. Early art _ _ _ _ used nat _ _ _ _ pigments der _ _ _ _ from mine _ _ _ _, plants, a _ _ animal sou _ _ _ _ to cre _ _ _ their wo _ _ _. Advances i _ chemistry resul _ _ _ in the synthesis of vibrant, durable colors, expanding the artist's palette. Techniques such as oil painting allowed for greater detail and expression. The introduction of acrylic paints offered versatility and fast drying times. Modern painters continue to explore innovative materials and methods, pushing the boundaries of artistic creation. Understanding the history of paint enriches appreciation for the diversity and complexity of artistic practices.

2026-07-15 Glaciers

原文（Passage）

Glaciers play a crucial role in Earth's climate and ecosystems. They store about 70% of the planet's freshwater and help regulate global temperatures by reflecting sunlight. As they move, glaciers shape lands _ _ _ _ _, carving val _ _ _ _ and transp _ _ _ _ _ _ sediment. Th _ _ _ seasonal mel _ feeds riv _ _ _ and la _ _ _, supporting agric _ _ _ _ _ _ and wild _ _ _ _. Glaciers se _ _ _ as indicators of climate change-rapid melting signals shifts in global temperatures. Studying glaciers helps scientists understand past climate patterns and predict future environmental impacts, making them vital to global research.

2026-07-15 Glassblowing

原文（Passage）

Glassblowing began in the Roman Empire around the first century B. C. E. It involves shaping molten glass by blowing air into it through a tube, allowing artisans to create different shapes. Roman glass _ _ _ _ _ _ _ crafted every _ _ _ items li _ _ cups, bot _ _ _ _, and decor _ _ _ _ _ vases, mak _ _ _ glass mo _ _ widely avai _ _ _ _ _. Glassblowing i _ still carr _ _ _ out today for both artistic and functional purposes-creating everything from colorful sculptures and ornaments to custom lighting and scientific glassware.

2026-07-15 Theater

原文（Passage）

Unlike literature or visual arts, theater engages audiences through live performances, creating an immediate emotional connection. The collab _ _ _ _ _ _ _ nature o _ theater fos _ _ _ _ a dyn _ _

_ _ exchange am _ _ _ professionals th _ _ spurs creat _ _ _ _ _. Theater c _ _ challenge precon _ _ _ _ _ _ notions a _ _ invite audiences to consider diverse perspectives. Its ephemeral quality-existing only in the moment of performance-heightens the impact, forcing both performers and viewers to engage with the present, ultimately transforming their understanding of human experiences.

2026-07-15 Water And Volcanism

原文（Passage）

The discovery of water and volcanic activity on moons like Europa and Enceladus has sparked interest in the potential for extraterrestrial life. These moons, orbi _ _ _ _ the pla _ _ _ _ Jupiter a _ _ Saturn, ha _ _ ice-covered surf _ _ _ _ with oce _ _ _ lying under _ _ _ _ _. Volcanic acti _ _ _ _, in t _ _ form o _ hydrothermal vents, provides heat and nutrients, creating environments where microbial life could potentially thrive. Missions by spacecraft such as the Galileo and Cassini have gathered valuable data on these moons.

2026-07-04 Color and Pigment

原文（Passage）

Throughout history, color and pigment have played a central role in art, shaping how we perceive and interpret visual experiences. Artists ha _ _ long under _ _ _ _ _ the emot _ _ _ _ _ and psycho _ _ _ _ _ _ _ power o _ color, util _ _ _ _ _ it t _ convey mo _ _, create emph _ _ _ _, and ev _ _ _ responses. For example, red often symbolizes passion, while blue can elicit calmness. These symbolic associations can vary across cultures and time periods, allowing artists to communicate deeper layers of meaning through their color choices.

2026-07-04 Conservation Ecology

原文（Passage）

Conservation ecology focuses on protecting and restoring natural habitats to preserve biodiversity. Ecologists st _ _ _ ecosystems t _ understand h _ _ different spe _ _ _ _ interact wi _ _ their envir _ _ _ _ _ _. This rese _ _ _ _ informs strat _ _ _ _ _ for mana _ _ _ _ natural reso _ _ _ _ _ and mitigating human impact. Efforts include habitat restoration, species protection, and sustainable practices. Understanding conservation principles is crucial for maintaining ecological balance and ensuring the survival of diverse species. Corridor creation connects fragmented habitats, while monitoring local ecosystems and wildlife populations.

2026-07-04 Geology Science

原文（Passage）

Geology is the scientific study of our planet, including its composition, structure, and processes. Geolo _ _ _ _ _ analyze ro _ _ _, minerals, a _ _ the nat _ _ _ _ forces th _ _ change t _ _ outer la _ _ _ _ of Ea _ _ _ over ti _ _. This know _ _ _ _ _ helps scientists understand the planet’s history and predict future changes. It is essential for natural resource management, hazard mitigation, and environmental protection. Advances in geologic research, such as satellite-based remote sensing, deep-Earth imaging, and isotopic dating, have greatly improved our ability to monitor earthquakes, track volcanic activity, and assess groundwater resources.

2026-07-04 Glaciers Ice Ages

原文（Passage）

The last Ice Age sculpted the face of Earth, leaving behind majestic glaciers that continue to shape the landscape even today. These mas _ _ _ _ ice riv _ _ _ flow slo _ _ _, grinding do _ _ mountains a _ _ carving val _ _ _ _ over mill _ _ _ _ _. Compared t _ other geolo _ _ _ _ _ phenomena, t _ _ movement of glaciers is imperceptible on a human timescale, yet their impact is undeniably profound. Glaciers serve as natural archives of Earth's climatic history, preserving atmospheric data in layers of ice that have accumulated over thousands of years. Studying glaciers allows scientists to analyze past temperature patterns and environmental changes over time.

2026-07-04 Human Brain Function

原文（Passage）

The human brain is an extraordinarily intricate organ, unrivaled in its complexity and function. Studying its anatomy reveals a remarkable internal architecture, composed of billions of neurons intricately interconnected by synapses. These neurons tran _ _ _ _ electrical impu _ _ _ _, facilitating t _ _ brain's ro _ _ in enab _ _ _ _ cognition, proce _ _ _ _ _ information, regul _ _ _ _ _ essential bod _ _ _ functions, a _ _ facilitating emot _ _ _ _. The reflective nature of studying the brain encourages careful consideration of how its structure impacts behavior and thought.

2026-07-04 Urbanization and Industrialization

原文（Passage）

The trajectory of modern history has been profoundly shaped by urbanization and industrialization, which redefined both physical landscapes and social structures. As industrial centers grew, rural populations increasingly abandoned agrarian lifestyles rooted in seasonal labor and subsistence farming for wage-based employment in cities. Urban enviro _ _ _ _ _ _ became hu _ _ of econ _ _ _ _ opportunity a _ _ social exch _ _ _ _, where indiv _ _ _ _ _ _ from var _ _ _ backgrounds inter _ _ _ _ _, shared id _ _ _, and contr _ _ _ _ _ _ to emerging cultural movements. This shift marked a fundamental transformation in how people lived, worked, and connected within society.

2026-06-15 Theater Live Performances

原文（Passage）

Unlike literature or visual arts, theater engages audiences through live performances, creating an immediate emotional connection. The collab _ _ _ _ _ _ _ nature o _ theater fos _ _ _ _ a dyn _ _ _ _ exchange am _ _ _ professionals th _ _ spurs creat _ _ _ _ _. Theater c _ _ challenge precon _ _ _ _ _ _ notions a _ _ invite audiences to consider diverse perspectives. Its ephemeral quality,

existing only in the moment of performance, heightens the impact, forcing both performers and viewers to engage with the present, ultimately transforming their understanding of human experiences.

KPO 118 - Phototropism and Auxin

来源：KPO

原文（Passage）

Plants possess remarkable abilities to adjust their physical orientation in response to environmental stimuli, a process largely driven by internal chemical signals. The primary mecha _ _ _ _ behind this direct _ _ _ _ _ growth involves auxin, a crucial plant horm _ _ _ that will migr _ _ _ away from light sources to reach the shaded side of the stem. Once these chemical messengers accum _ _ _ _ _ in the darker tissues, they trigger complex cell _ _ _ _ responses that accel _ _ _ _ _ the rapid elong _ _ _ _ _ of the affected area. Because the shaded side expands significantly faster than the illuminated side, this asymm _ _ _ _ _ development physically forces the plant to bend toward the light. Ultimately, this resulting curva _ _ _ _

KPO 119 - Archaeological Tree Dating

来源：KPO

原文（Passage）

Tree-ring dating, or dendrochronology, provides archaeologists with a highly precise method for determining the age of ancient timber ruins. Researchers can estab _ _ _ _ an accu _ _ _ _ chronological frame _ _ _ _ by examining the struc _ _ _ _ _ patterns of tree rings found in excavated wood. Because annual tree growth depends heavily on available mois _ _ _ _, scientists can corre _ _ _ _ a specific sequ _ _ _ _ of wide and narrow rings with a dist _ _ _ _ period of severe drou _ _ _. Any sudden varia _ _ _ _

KPO 120 - Aging Star Evolution

来源：KPO

原文（Passage）

The lifecycle of a medium-sized star is primarily defined by the continuous nuclear fusion occurring deep within its dense core. As the star gradu _ _ _ _ cons _ _ _ _ its available hydrogen fuel, the severe deple _ _ _ _ of this vital resource initiates a profound trans _ _ _ _ _ in the overall stellar structure. Because the internal radiation pressure drops, the central core rapidly contr _ _ _ _ under immense gravity, which forces a subse _ _ _ _ _ outward expansion of the exte _ _ _ _ gaseous enve _ _ _ _. This drastic spatial reorganization fundamentally trans _ _ _ _ _ the aging celestial body into a massively swollen red giant. Ultimately, despite possessing a much cooler surface temperature, the greatly expanded physical size ensures that the star radiates a vastly higher total lumin _ _ _ _ _

KPO 121 - Strategic Resource Management

来源：KPO

原文（Passage）

In the realm of global trade, modern corporations must carefully manage their finite resources to maintain long-term success. To achieve maximum effic _ _ _ _ _ and remain profi _ _ _ _ _, managers must strategically allo _ _ _ _ capital toward projects that offer the highest return on investment. When a company decides to culti _ _ _ _ a new emerging market, it must often sacri _ _ _ _ immediate financial gains and forf _ _ _ the steady reve _ _ _ generated by its established

product lines. This difficult decision process requires evaluating every viable altern _ _ _ _ _ to ensure that the chosen path offers a distinct compar _ _ _ _ _ advantage over rival businesses. Ultimately, analyzing these strategic trade-offs allows executives to unlock the true economic poten _ _ _ _

KPO 122 - Spaced Practice Effect

来源：KPO

原文（Passage）

Educational psychologists have long studied the most effective strategies for students to memorize complex information. The psychological pheno _ _ _ _ _ known as the spacing effect demonstrates that when practice is distri _ _ _ _ _ over several days, learners experience much higher rates of long-term memory reten _ _ _ _. In sharp cont _ _ _ _ to massed practice or cramming, this spaced approach helps students strategically allo _ _ _ _ their limited cogni _ _ _ _ resources, and numerous laboratory experiments provide compelling evid _ _ _ _ for its superiority. Researchers emphasize that this rob _ _ _ learning effect relies on the brain receiving adequate rest periods to physically solidify new neural connections rather than overwhelming the memory system all at once. Ultimately, adopting such structured study intervals will dramatically enha _ _ _ the overall educational outc _ _ _

KPO 123 - Gothic Flying Buttresses

来源：KPO

原文（Passage）

The transition from Romanesque to Gothic architecture during the Middle Ages was marked by significant advancements in building techniques. A major struc _ _ _ _ _ innov _ _ _ _ _ of this era was the flying buttress, which allowed builders to incorp _ _ _ _ _ massive stained-glass windows for extraordinary aesth _ _ _ _ appeal. These arched supports were designed to ena _ _ _ walls to be much thinner by relying on an exte _ _ _ _ framework to redi _ _ _ _ the intense downward pres _ _ _ _ of the heavy stone ceilings. By functioning as a continuous load-bearing path that could safely distr _ _ _ _ _ the massive weight of the roof toward the solid ground, these distinctive features prevented the tall walls from buckling outward. Consequently, this brilliant engineering solution ultimately provided the necessary stabi _ _ _ _

KPO 124 - Crucial Ecosystem Species

来源：KPO

原文（Passage）

Biologists have long recognized that certain species disproportionately influence the overall health and stability of their natural environments. The role of a keys _ _ _ _ pred _ _ _ _ is absolutely essen _ _ _ _ to prev _ _ _ dominant herbivore populations from growing too large and overconsuming available vegetation. In the abse _ _ _ of these vital hunters, grazing animals rapidly depl _ _ _ the local plant life, triggering a destructive trophic casc _ _ _ throughout the food web. Because these regulatory creatures naturally main _ _ _ _ a delicate balance by controlling prey numbers, their survival dictates the survival of numerous other interdependent organisms. Consequently, the permanent loss of such critical species could ultimately cause the entire ecosy _ _ _ _ to completely coll _ _ _ _

KPO 125 - Chemical Catalyst Roles

来源：KPO

原文（Passage）

In the field of industrial chemistry, finding methods to optimize slow molecular processes is a fundamental objective for researchers. To achieve this goal, a specific chemical cata _ _ _ _ is often essen _ _ _ _ because it can easily facil _ _ _ _ _ a desired chemical reac _ _ _ _ under normal temperature conditions. These unique substances work by lowering the initial activ _ _ _ _ _ energy required to start the transformation, effectively removing the thermal barr _ _ _ and allowing the process to accel _ _ _ _ _ rapidly. Because these helpful agents are not permanently altered or cons _ _ _ _ during the procedure, they can be easily recovered and reused multiple times. Ultimately, this incredible effic _ _ _ _ _ leads to a dram _ _ _ _

KPO 126 - The Mechanical Clock Escapement

来源：KPO

原文（Passage）

The invention of the mechanical clock represented a monumental leap in timekeeping technology by introducing a reliable way to measure passing hours. At the heart of this device is an escapement mecha _ _ _ _ designed to regu _ _ _ _ the otherwise conti _ _ _ _ _ flow of physical energy from a wound spring or falling weight. This component controls the tran _ _ _ _ of power by breaking it into disc _ _ _ _ mechanical movements, producing a rhyt _ _ _ _ ticking sound as gears lock and unlock at every regular inte _ _ _ _. The controlled conve _ _ _ _ _ of stored force into these measured steps is what allows the clock hands to advance with remarkable preci _ _ _ _ rather than spinning wildly out of control. Consequently, operators could main _ _ _ _

2026-06-13 Artificial Intelligence

原文（Passage）

In recent years, the development of artificial intelligence has revolutionized numerous industries, transforming the way businesses operate and interact with their customers. AI technologies, such as machine learning and natural language processing, enable compa _ _ _ _ to perf _ _ _ tasks th _ _ previously requ _ _ _ _ human judg _ _ _ _. For exam _ _ _, customer serv _ _ _ chatbots ar _ now capa _ _ _ of underst _ _ _ _ _ _ and responding to queries, providing instant support. Additionally, AI-driven analytics tools offer insights by processing vast amounts of data in real time, helping organizations make informed decisions.

2026-06-13 Artificial Intelligence

原文（Passage）

Understanding the potential and limitations of artificial intelligence (AI) is crucial for harnessing its benefits while mitigating associated risks. AI technologies enable computers to mimic human cogn _ _ _ _ _ functions, allo _ _ _ _ them t _ analyze la _ _ _ datasets a _ _ make predi _ _ _ _ _ _ with sp _ _ _ and accu _ _ _ _. These capabi _ _ _ _ _ _ have been particularly beneficial in fields like healthcare, where AI assists in diagnosing diseases by recognizing patterns in medical images. As AI continues to evolve, ethical considerations surrounding data privacy and employment displacement must be addressed.

2026-06-13 Role Of Kinship

原文（Passage）

The role of kinship was central to the social structure of prehistoric communities. Kinship not only structured family relationships but also shaped how resources were shared, labor was organized, and social hierarchies were maintained within the group. Arc _ _ _ _ _ _ _ _ _ _ _ evidence su _ _ _ _ _ _ that indiv _ _ _ _ _ _ held sp _ _ _ _ _ _ roles b _ _ _ _ on a _ _ and g _ _ _ _ _, contributing t _ a sophist _ _ _ _ _ _ division o _ labor. The intricacy of these social structures is further evidenced by the existence of ceremonial sites, which indicate collective activities and social gatherings.

2026-06-13 South Pacific History

原文（Passage）

The history of the South Pacific is marked by diverse cultures and significant events. Indigenous popul _ _ _ _ _ _ developed com _ _ _ _ societies wi _ _ rich tradi _ _ _ _ _ and soc _ _ _ structures. T _ _ region's poli _ _ _ _ _ and econ _ _ _ _ landscapes exper _ _ _ _ _ _ profound cha _ _ _ _ following colonization by Europeans. Studying this history allows for a greater understanding of culture interactions and the ongoing effects of historical events on contemporary South Pacific societies. Traditional navigation techniques using stars and ocean swells enabled remarkable voyaging achievements, while contemporary movements focus on cultural preservation, language revitalization, and addressing climate change impacts on island nations.

2026-06-13 The Atmosphere

原文（Passage）

The atmosphere is a dynamic and complex system, shaped by countless interacting variables such as solar radiation, air pressure, and moisture levels. Meteorologists use advanced mod _ _ _ to simu _ _ _ _ these inter _ _ _ _ _ _ _, but predi _ _ _ _ _ weather rem _ _ _ _ a chal _ _ _ _ _ due t _ the inher _ _ _ _ _ chaotic nat _ _ _ of atmos _ _ _ _ _ _ processes. Small changes in initial conditions can lead to vastly different outcomes, making long-term forecasts especially uncertain. Despite technological progress, the atmosphere's unpredictability continues to pose limits to accurate and consistent weather prediction.

2026-06-07（16 套）

2026-06-07 Climate Change

原文（Passage）

Climate change is one of the biggest problems facing the world today. It results from changes in Earth's atmos _ _ _ _ _, oceans, a _ _ human activ _ _ _ _ _, especially bur _ _ _ _ fossil fu _ _ _. These act _ _ _ _ _ _ _ release ga _ _ _ that tr _ _ heat, cau _ _ _ _ the pla _ _ _ to warm up. This warming disrupts weather patterns and ecosystems. To mitigate these changes, scientists advocate for strategies such as reducing carbon emissions and investing in renewable energy. Climate models help experts understand what might happen in the future.

2026-06-07 Ecological Footprints

原文（Passage）

The concept of ecological footprints is used to analyze an individual's or a nation's environmental impacts. This measure accounts for the resources consumed as well as waste created and compares them to Earth's ability to regenerate those resources. Because consu _ _ _ _ _ _ patterns va _ _ globally, signi _ _ _ _ _ _ disparities eme _ _ _ between reg _ _ _ _. In deve _ _ _ _ _ countries, lar _ _ footprints res _ _ _ from gre _ _ _ _ per cap _ _ _ resource use and greater reliance on technology. Understanding these patterns is crucial for developing sustainable

policies that aim to reduce human demands on the planet's ecosystems, ensuring long-term environmental and economic viability.

2026-06-07 Modern Biochemistry

原文（Passage）

Rooted in both biology and chemistry, modern biochemistry has grown into a foundational science that explores the molecular basis of life. It emerged fr _ _ early investig _ _ _ _ _ _ into nat _ _ _ _ processes l _ _ _ fermentation a _ _ digestion and n _ _ encompasses t _ _ study o _ biomolecules su _ _ as proteins, carbohydrates, and nucleic acids. Biochemistry pla _ _ a vital role in diverse fields including agriculture, environmental science, and pharmacology, contributing to innovations in areas like crop improvement, pollution control, and drug design, for example. Its broad applications continue to shape our understanding of living systems and support solutions to global challenges.

KPO 178 - Film And Television

来源：KPO

原文（Passage）

Film and television play a powerful role in shaping cultural norms and public opinion. T _ _ industry encom _ _ _ _ _ _ a wide ra _ _ _ of arti _ _ _ _ and tech _ _ _ _ _ processes, fr _ _ scriptwriting a _ _ directing t _ post-production. Techno _ _ _ _ _ _ _ innovations - su _ _ as digital effects and streaming platforms - have significantly altered both how content is produced and how audiences engage with it. Studying film offers insights into narrative structure, visual storytelling, and the broader social impact of media. It also involves examining genres, audience responses, and the economic forces behind production.

KPO 179 - Geology Fundamentals

来源：KPO

原文（Passage）

Geology is the scientific study of Earth's physical makeup and the dynamic forces that shape its surface. Geologists inves _ _ _ _ _ _ the compo _ _ _ _ _ _ and form _ _ _ _ _ of ro _ _ _ and mine _ _ _ _ to unc _ _ _ _ the proc _ _ _ _ _ that ha _ _ influenced t _ _ planet ov _ _ time. This field helps explain natural events such as earthquakes and volcanic eruptions and provides essential knowledge for managing natural resources and mitigating environmental risks. Understanding geological systems is also key to addressing sustainability challenges in a rapidly changing world.

KPO 180 - Modern Biochemistry

来源：KPO

原文（Passage）

Modern biochemistry focuses on the chemical processes within and related to living organisms. It i _ a laboratory-based sci _ _ _ _ that comb _ _ _ _ biology a _ _ chemistry. Biochemists inves _ _ _ _ _ _ how cells func _ _ _ _ and commu _ _ _ _ _ _ ，exploring t _ _ fundamental mecha _ _ _ _ _ that sus _ _ _ _ life. The field has advanced our understanding of how diseases occur and how they can be treated or prevented. Techniques such as molecular cloning and protein analysis are central to biochemistry, leading to innovations in medicine and biotechnology.

KPO 181 - Cognitive Science

来源：KPO

原文（Passage）

Cognitive science and the study of consciousness delve into how humans and animals perceive the world, process information, and experience awareness. Cognition encom _ _ _ _ _ _ mental activ _ _ _ _ _ like mem _ _ _, learning, a _ _ decision-making, whe _ _ _ _ consciousness invo _ _ _ _ the subje _ _ _ _ _ experience o _ being aw _ _ _. Researchers u _ _ tools such as brain imaging to explore these complex processes. Findings in this field have far-reaching implications, from improving mental health care to advancing artificial intelligence and educational practices.

KPO 182 - Conservation

来源：KPO

原文（Passage）

Conservation is the effort to protect plants and animals that are endangered because of human activities. Conservationists sa _ _ endangered spe _ _ _ _ by crea _ _ _ _ areas wh _ _ _ they c _ _ live saf _ _ _. Conservationists al _ _ educate t _ _ public ab _ _ _ the impor _ _ _ _ _ of preserving the natural world. Conservation is based on research about wildlife and ecosystems that aims to understand their needs and the threats they face. By taking care of the environment, conservationists help ensure a healthy planet for future generations.

KPO 183 - Economic Theory

来源：KPO

原文（Passage）

Economics is the study of how societies allocate resources and make decisions about production, distribution, and consumption. It exam _ _ _ _ the behavior o _ governments, busin _ _ _ _ _, and indiv _ _ _ _ _ _ in t _ _ marketplace. Stud _ _ _ _ economics i _ not ju _ _ for th _ _ _ who asp _ _ _ to become economists or bankers. Gaining a basic understanding of economic concepts, like supply and demand, inflation, and employment, benefits everyone. It enables us to make informed decisions and understand the broader economic forces that shape our daily lives.

KPO 184 - Early Film History

来源：KPO

原文（Passage）

Early films were quite different from what we are used to today-they were silent and black-and-white. Technological develop _ _ _ _ _ introduced so _ _ _, color, a _ _ special eff _ _ _ _. Filmmaking requ _ _ _ _ the collab _ _ _ _ _ _ _ of ma _ _ different peo _ _ _: actors, dire _ _ _ _ _, writers. Films ha _ _ the power to entertain, educate, and inspire audiences, shaping popular culture and influencing social trends. The film industry has grown from its early beginnings to become a major cultural and economic force worldwide.

KPO 185 - Extraterrestrial Water

来源：KPO

原文（Passage）

Water is essential for life as we know it, so finding water on other planets and moons is a crucial part of the quest to find life beyond Earth. Mars' riverbeds sh _ _ evidence o _ water i _ ancient ti _ _ _. The moons Europa a _ _ Enceladus ha _ _ ice-covered surf _ _ _ _ that m _ _ hide oce _ _ _ beneath. Discov _ _ _ _ _ new extraterrestrial water, whether past or present, liquid or solid, could significantly impact our understanding of life in the universe. Such findings could guide future missions in the search for habitable environments outside of Earth.

KPO 186 - Early Civilizations

来源：KPO

原文（Passage）

Early civilizations, including those in Mesopotamia, Egypt, the Indus Valley, and China, emerged around river valleys, where fertile land and water resources supported agriculture. Th _ _ _ developed sophis _ _ _ _ _ _ _ social struc _ _ _ _ _, written lang _ _ _ _ _, and adva _ _ _ _ technologies, wh _ _ _ allowed th _ _ to thr _ _ _ and esta _ _ _ _ _ cities, tr _ _ _ networks, and even empires. Just as important were their significant contributions to fields like art, science, and law. These developments were crucial in shaping the course of human history.

KPO 187 - Human Consciousness

来源：KPO

原文（Passage）

Consciousness is the state of being aware of and able to think about one's own existence, thoughts, and surroundings. Wh _ _ you lo _ _ in a mir _ _ _ and recognize your _ _ _ _, you exh _ _ _ _ self-awareness, wh _ _ _ is n _ _ unique t _ humans b _ _ is al _ _ found in dolphins and great apes. Consciousness is not to be confused with cognition. The latter refers to mental processes involved in gaining knowledge and solving problems, like thinking, judging, and remembering.

KPO 188 - Human Brain Function

来源：KPO

原文（Passage）

The human brain is a complex organ responsible for controlling all bodily functions and enabling thought, emotion, and memory. It i _ divided in _ _ several reg _ _ _ _, each wi _ _ specific ro _ _ _. The cerebrum, i _ _ largest pa _ _, is invo _ _ _ _ in cogn _ _ _ _ _ functions su _ _ as reasoning, planning, and language. The cerebellum coordinates movement and balance, while the brainstem controls vital bodily functions like breathing and heart rate. Together, they enable the brain to perform its various tasks.

KPO 189 - Elephant Biology

来源：KPO

原文（Passage）

Elephants are social animals that live in groups called herds. They commu _ _ _ _ _ _ using sou _ _ _, gestures, a _ _ touch. These ani _ _ _ _ are kn _ _ _ for th _ _ _ strong fam _ _ _ bonds and of _ _ _ help ea _ _ other i _ times of need. They can remember the locations of water sources and food, which helps them survive in their natural environment. These highly intelligent creatures play an important role in their ecosystems, shaping the landscape, creating access to moisture, and spreading seeds.

KPO 190 - Map Technology

来源：KPO

原文（Passage）

Maps are tools that help us understand the world around us. They sh _ _ the loca _ _ _ _ _ of pla _ _ _ like cit _ _ _, rivers, a _ _ mountains. Th _ _ _ visual gu _ _ _ _ can al _ _ display different ty _ _ _ of infor _ _ _ _ _ _, such as climate or population. There are many kinds, including physical,

political, and thematic versions. The study of maps and cartography, the process by which they are made, can teach us about the geography of our planet and how people live in different regions.

2026-06-06（10 套）

2026-06-06 Academic Success Skills

原文（Passage）

What are some foundational skills for academic success? Critical thin _ _ _ _ allows stud _ _ _ _ to appr _ _ _ _ problems systema _ _ _ _ _ _ _, analyze infor _ _ _ _ _ _, and ma _ _ connections bet _ _ _ _ ideas. Al _ _ important a _ _ soft skills li _ _ time management and social skills. Time management is helpful for balancing studies, extracurricular activities, and personal life in an efficient manner. Social skills are good predictors of academic success because those who communicate effectively can form positive relationships with their peers and professors.

2026-06-06 Cloud Formation

原文（Passage）

Although there are many different types of clouds, they are all composed of the same basic substance. Ea _ _ cloud cons _ _ _ _ of ti _ _ drops o _ water o _ ice, wh _ _ _ are usu _ _ _ _ too sm _ _ _ to b _ seen wi _ _ the naked eye. These particles cluster together and form an invisible gas known as water vapor. Some of this vapor attaches to microscopic bits of dust or ice floating in the atmosphere. When enough of these elements combine, they create a visible cloud.

2026-06-06 Oceanography Studies

原文（Passage）

Oceanography is the study of the physical, chemical, and biological aspects of the ocean. This fi _ _ _ encompasses t _ _ exploration o _ ocean curr _ _ _ _, marine ecosy _ _ _ _ _, and geolo _ _ _ _ _ seabed struc _ _ _ _ _. Oceanographers u _ _ satellites a _ _ other adva _ _ _ _ technology to monitor and analyze ocean conditions. By tracking sea surface temperatures, currents, salinity, and other features, researchers contribute to our understanding of climate change. Their work is vital for sustaining ocean health and preserving marine biodiversity.

2026-06-06 Prehistoric Group Dancing

原文（Passage）

We know from drawings that have been preserved in caves for over 10,000 years that early humans performed dances as a group activity. We mi _ _ _ think th _ _ prehistoric peo _ _ _ concentrated on onl _ basic wo _ _ that w _ _ required f _ _ survival: hun _ _ _ _, gathering fo _ _, and making weapons and garments. However, it is clear from the record that group dancing was important t _ them. They made masks and costumes; they used much energy in the process of dancing; they recorded more drawings of dancing than of any other group activity.

2026-06-06 Prehistoric Group Dancing

原文（Passage）

We know from drawings that have been preserved in caves for over 10,000 years that early humans performed dances as a group activity. We mi _ _ _ think th _ _ prehistoric peo _ _ _ concentrated on _ _ on t _ _ basic wo _ _ that w _ _ required f _ _ survival: hun _ _ _ _, gathering fo _ _, and making weapons and garments. However, it is clear from the record that group dancing was important to them. They made masks and costumes; they used much energy in the process of dancing; they recorded more drawings of dancing than of any other group activity.

2026-06-06 Public Health

原文（Passage）

Public health is a multidisciplinary field concerned with preventing disease, prolonging life, and promoting health through organized efforts and informed choices. It in _ _ _ _ _ _ strategies such a _ health edu _ _ _ _ _ _, vaccination pro _ _ _ _ _, and poli _ _ _ _ aimed a _ ensuring sa _ _ environ _ _ _ _ _. Public health prof _ _ _ _ _ _ _ _ _ work to iden _ _ _ _ health disparities. They also manage outbreaks of infectious diseases, promote healthy lifestyles, and contribute to improved quality of life and reduce the burden on healthcare systems worldwide.

2026-06-06 Role Of Kinship

原文（Passage）

The role of kinship was central to the social structure of prehistoric communities. Kinship not only structured family relationships but also shaped how resources were shared, labor was organized, and social hierarchies were maintained within the group. Arc _ _ _ _ _ _ _ _ _ _ _ _ evidence su _ _ _ _ _ _ that indiv _ _ _ _ _ _ held sp _ _ _ _ _ _ roles b _ _ _ _ on a _ _ and g _ _ _ _ _, contributing t _ a sophist _ _ _ _ _ _ division o _ labor. The intricacy of these social structures is further evidenced by the existence of ceremonial sites, which indicate collective activities and social gatherings.

2026-06-06 The Atmosphere

原文（Passage）

The atmosphere is a dynamic and complex system, shaped by countless interacting variables such as solar radiation, air pressure, and moisture levels. Meteorologists use advanced mod _ _ _ to simu _ _ _ _ these intera _ _ _ _ _ _, but predi _ _ _ _ _ weather rem _ _ _ _ a chal _ _ _ _ _ due t _ the inher _ _ _ _ _ chaotic nat _ _ _ of atmos _ _ _ _ _ _ processes. Small changes in initial conditions can lead to vastly different outcomes, making long-term forecasts especially uncertain. Despite technological progress, the atmosphere's unpredictability continues to pose limits to accurate and consistent weather prediction.

2026-06-06 Urban Public Health

原文（Passage）

The introduction of sanitation practices in urban areas during the nineteenth century significantly improved public health. Innovations such as sew _ _ _ systems a _ _ clean wa _ _ _ supplies deve _ _ _ _ _ from t _ _ growing awar _ _ _ _ _ of the conne _ _ _ _ _ between po _ _ hygiene and ill _ _ _ _ and reduced the spr _ _ _ of infectious diseases like cholera and typhoid. Public health campaigns, supported by local governments and medical professionals, educated communities on the importance of hygiene. These efforts were instrumental in decreasing mortality rates and enhancing quality of life.

2026-06-06 Urban Public Health

原文（Passage）

The introduction of sanitation practices in urban areas during the nineteenth century significantly improved public health. Innovations such as sewage treatment and sew _ _ systems improved waste management, a _ _ clean wa _ _ _ supplies deve _ _ _ _ _ from t _ _ growing aw _ _ _ _ _ _ _ of the conne _ _ _ _ _ between po _ _ hygiene and ill _ _ _ _, and reduced the spr _ _ _ of infectious diseases like cholera and typhoid. Public health campaigns, supported by local governments and medical professionals, educated communities on the importance of hygiene. These efforts were instrumental in decreasing mortality rates and enhancing quality of life.

KPO 127 - Monarch History

来源：KPO

原文（Passage）

A monarch signifies a venerable ruler of a kingdom. Ot _ _ _ leaders wi _ _ this mu _ _ authority might ab _ _ _ their power, but t _ _ monarch do _ _ not bec _ _ _ _ their se _ _ _ of duty bi _ _ _ them. Monarchs possess a potent influence that sha _ _ _ policies. The term, monarch, stems from the solitary and ruling nature characterized by their governance.

KPO 128 - Global Economic Systems

来源：KPO

原文（Passage）

Global economic systems encompass a variety of markets, from stock exchanges and commodity trades to currency fluctuations and the consumer spending we observe. This ty _ _ of mar _ _ _ activity origi _ _ _ _ _ from businesses, which are the funda _ _ _ _ _ _ units of commerce. Businesses ha _ _ assets th _ _ carry a monetary value. The move _ _ _ _ of these valued ass _ _ _ generates cap _ _ _ _ that fl _ _ _ in streams. This capital, circulating in stream form, has the potential to move through international borders, market sectors, and investment portfolios.

KPO 129 - Audio Recordings

来源：KPO

原文（Passage）

Digital-only audio recordings are known as audio files. Audio files a _ _ a widespread fo _ _ of da _ _ preservation, a _ _ they ex _ _ _ in var _ _ _ _ formats. The mo _ _ basic format is called a waveform audio file, which ho _ _ _ sound but no adva _ _ _ _ properties. Enha _ _ _ _ audio format retains advanced properties, such as different sound qualities. Usually, when a recording is played back using the same program it was created with, it is presented in its enhanced audio format.

KPO 130 - Culinary Recipes

来源：KPO

原文（Passage）

Culinary recipes, frequently just termed recipes, comprise a collection of cooking instructions and accompanying ingredients that provide guidance for meal preparation. They emp _ _ _ _ chefs t _ create an ar _ _ _ of dishes. Recipe guides tran _ _ _ _ _ raw ingre _ _ _ _ _ _ into delicious meals f _ _ enjoyment on plates o _ in bowls. They enable cooks to perform measur _ _ _ _ _ _ and ma _ _ culinary cho _ _ _ _ based on the recipe guidelines. Recipes also aid in consistent and more efficient food preparation among kitchen staff and between staff and cooking appliances. These recipes can be inscribed in a cookbook's pages, printed on separate cards or sheets, or stored on digital devices such as tablets or smartphones.

KPO 131 - Recent Years

来源：KPO

原文（Passage）

In recent years, educators have established digital libraries that schools and institutions worldwide are adopting to improve their students' knowledge and research capabilities. Many of

th _ _ _ online reso _ _ _ _ _ are outfitted with interactive tools and study gui _ _ _ to ass _ _ _ learners in staying info _ _ _ _ through studying. So _ _ platforms pro _ _ _ _ complimentary tuto _ _ _ _ sessions or even fr _ _ access to scholarly arti _ _ _ _ as motivation for students to excel academically. Moreover, several universities grant tuition discounts as a reward for their scholars' outstanding performance.

KPO 132 - University Libraries

来源：KPO

原文（Passage）

University libraries are essentially extensive repositories filled with volumes and frequented by learners from diverse disciplines. They can acc _ _ _ a wea _ _ _ of know _ _ _ _ _ through a combination of dig _ _ _ _ databases, phys _ _ _ _ books, and scholarly jour _ _ _ _ without the inconvenience of leaving the campus. A broad spectrum of subjects can be stu _ _ _ _ and resea _ _ _ _ _ in university libraries, and they are particularly benef _ _ _ _ _ for acqu _ _ _ _ _ comprehensive insights into academic fields. These libraries are frequently engaged for the worldwide dissemination of research and studies in academic circles.

KPO 133 - Human Behavior

来源：KPO

原文（Passage）

Understanding human behavior accurately is complex, as psychology isn't an exact discipline. Psychology dep _ _ _ _ on gath _ _ _ _ _ and anal _ _ _ _ _ data acqu _ _ _ _ through stu _ _ _ _ and exper _ _ _ _ _ _ involving individuals. The data from these studies is then revi _ _ _ _ by experts, who inte _ _ _ _ _ it to provide insi _ _ _ _ into hu _ _ _ actions and mental processes. With a comprehensive number of studies, the accumulated data can lead to a more accurate understanding of human behavior.

KPO 134 - Understanding Photosynthesis

来源：KPO

原文（Passage）

Understanding photosynthesis is crucial as it pertains to the conversion of light energy into chemical energy by plants, taking place when sunlight intensity on the leaf's surface is sufficient, or as a dist _ _ _ _ process. Int _ _ _ _ light ar _ _ _ from sou _ _ _ _ such as the sun provoke the chlorophyll to transform photons into glucose that energy level, thus initi _ _ _ _ _ energy production. This is beneficial as the energy storage incr _ _ _ _ _ when the light dimin _ _ _ _ _ and the glucose mole _ _ _ _ _ consolidate into more com _ _ _ _ carbohydrates, fost _ _ _ _ _ growth which fuels the plant's development like natural fertilizers. In contrast, the absorption of carbon dioxide from the air that is not produced by the plant's respiration is known as gas exchange, often described as transpiration.

KPO 135 - Creative Thinking

来源：KPO

原文（Passage）

Undoubtedly, a certain amount of creative thinking can be beneficial. Vivid imagi _ _ _ _ _ _ is a catalyst f _ _ innovative ideas. Strong pas _ _ _ _ or curi _ _ _ _ _ drives t _ _ pursuit of challenging proj _ _ _ _ and dedic _ _ _ _ _ oneself to discovery. Inventors labo _ _ _ _ into the night to refine th _ _ _ creations a _ _ in the realm of idea generation. Those with a high capacity

for creative thought tend to be passionate about art, science, and invention - they are the dynamic, inspiring individuals in the community.

KPO 136 - Switzerland Geography

来源：KPO

原文（Passage）

Switzerland is a landlocked country situated at the core of Europe. It is am _ _ _ the ra _ _ nations th _ _ do n _ _ border a _ ocean. Mult _ _ _ _ languages are artic _ _ _ _ _ _ in Switzerland, and i _ hosts a var _ _ _ _ of dist _ _ _ _ traditions. This country features an impressive landscape that encompasses both verdant valleys and soaring alps.

KPO 137 - Cognitive Psychology

来源：KPO

原文（Passage）

Cognitive psychology explores the diverse mental processes underlying human behavior. He _ _, a process refers t _ a ser _ _ _ of men _ _ _ steps in a spec _ _ _ _ cognitive dom _ _ _ and framework, while behavior is an act _ _ _ that prov _ _ _ _ a tang _ _ _ _ expression o _ the process. Although cognitive psychology is closely related to neuroscience and social psychology, it focuses on mental functions rather than the methods usually employed in those fields.

KPO 138 - Human Body

来源：KPO

原文（Passage）

The human body is encircled by a multitude of vital organs along with numerous smaller glands within the systemic network. The mo _ _ prominent o _ these is the liver, with a ma _ _ of about 3 pounds. It h _ _ a closely associated organ, the pancreas. The circulatory sys _ _ _ is a a _ intricate net _ _ _ _ of blood vessels supp _ _ _ _ _ these vi _ _ _ structures. I _ is an extensive circuit of arteries and veins, and it was designed to distribute oxygenated blood due to the pumping action of the heart.

KPO 139 - Urban Gardening

来源：KPO

原文（Passage）

Urban gardening, often known as rooftop farming, entails cultivating pla _ _ _ in a city environment. Once a detailed pl _ _ is drafted for the space, a series o _ raised be _ _ a _ _ container sys _ _ _ _ are arranged, la _ _ _ upon layer, i _ a systematic way. T _ _ resulting gr _ _ _ space retains the layout of the original blueprint, though it might not precisely mirror the intended design.

KPO 140 - Cultural Anthropology

来源：KPO

原文（Passage）

Contemporary scholars in the realm of cultural anthropology have broadened the discipline in diverse directions. Indi _ _ _ _ _ _ _ like Laura Adams have sugg _ _ _ _ _ that t _ _ traditional fram _ _ _ _ _ should b _ discarded a _ _ anthropologists sho _ _ _ concentrate sol _ _ _ on deciphering and expl _ _ _ _ _ cultural dynamics. On the other hand, exp _ _ _ _ such as Michael Fischer have called for a more intricate and nuanced comprehension of cultural identities.

KPO 141 - Silicon Valley

来源：KPO

原文（Passage）

The Silicon Valley is often associated with the influential tech mogul community of the West Coast, contemporary innovation, or generally speaking, the prosperous American middle and upper echelons of entrepreneurs. Wh _ _ _ most Silicon Valley pion _ _ _ _ hail from well-established and financially sec _ _ _ backgrounds, the sector's workforce is becoming increa _ _ _ _ _ _ more var _ _ _ in te _ _ _ of economic sta _ _ _ and cult _ _ _ _ heritage. Comp _ _ _ _ _ extend subst _ _ _ _ _ _ benefits to foster the inclusion of individuals from less privileged and middle-income backgrounds. However, assorted analyses reveal that the proportion of employees from lower-income brackets remains relatively limited.

KPO 142 - Revenue Efficiency Graph

来源：KPO

原文（Passage）

A revenue-efficiency graph is a diagram that depicts the correlation between cost- effectiveness and investment amounts. B _ definition, cost-effectiveness repre _ _ _ _ _ the ratio of out _ _ _ value t _ the expense incurred. Cost-effectiveness can va _ _ from ze _ _ (no ret _ _ _ on investment) to o _ _ (maximum return on investment). Investment magn _ _ _ _ _ is quantified by its fin _ _ _ _ _ _ contribution.

KPO 143 - Oak Tree Biology

来源：KPO

原文（Passage）

The oak tree, together with its symbolism, is often incorporated as a motif in traditional folklore. It is t _ _ state tr _ _ of Iowa, a _ _ is depi _ _ _ _ in its official seal. The ban _ _ _ of the County of Worcestershire, an Eng _ _ _ _ county, displays a green o _ _ leaf hove _ _ _ _ above a river. The oak tree like _ _ _ _ features o _ the currency of British pound notes. In the tales of many ancient European communities, the oak tree is regularly portrayed as the entity that granted people the wisdom of agriculture.

KPO 144 - Wave Dynamics

来源：KPO

原文（Passage）

Ocean-to-shore wave dynamics describe the movement of water propelled by force that occurs between the sea and the coastline, driven by a swell that rolls inward. These pow _ _ _ _ _ surf cond _ _ _ _ _ _ are gen _ _ _ _ _ _ wherever th _ _ _ is sufficient wi _ _ strength, vari _ _ _ _ _ _ occurring in underwater topography, and tidal influences t _ create subst _ _ _ _ _ _ waves th _ _ can exceed the hei _ _ _ of a person. Such maritime phenomena are typically observed during the stormy seasons.

KPO 145 - Agricultural Production

来源：KPO

原文（Passage）

Agricultural production constitutes a multi-billion-dollar industry that utilizes advanced technologies and a variety of crops to supply food to consumers. The pro _ _ _ _ that signif _ _ _

_ _ _ _ influences the market is largely dependent on wh _ _ health trends are prevalent, and the ty _ _ _ of cr _ _ _ that far _ _ _ _ grow for people are meticulously cho _ _ _ to sat _ _ _ _ a cer _ _ _ _ demographic due to cost, nutri _ _ _ _ _ _ value, and cultural preferences. Producers must also consider the tastes and desires of their target market, select the suitable produce, analyze consumer trends and competitors, and develop a business plan to distribute their products.

KPO 146 - Programming Realm

来源：KPO

原文（Passage）

In the realm of programming, there are two main approaches. The initial method invo _ _ _ _ writing co _ _ and th _ _ debugging, wh _ _ _ the alter _ _ _ _ _ _ is to out _ _ _ _ the algorithm first and subsequently impl _ _ _ _ _ it in a cho _ _ _ programming language. My preference leans tow _ _ _ _ the lat _ _ _ approach, as outlining the algorithm clarifies the logic, leading to code that is both more efficient and easier to maintain.

KPO 147 - Owl Species

来源：KPO

原文（Passage）

Owls frequently function as nocturnal hunters. They pers _ _ _ _ _ by sei _ _ _ _ and cons _ _ _ _ _ various animals. They feast o _ unwary rodents and ins _ _ _ _ that co _ _ into t _ _ open. Th _ _ often consume sm _ _ _ birds. Th _ _ _ aerial predators depend on snatching airborne prey and other nutrient-dense food sources.

KPO 148 - Sahara Desert

来源：KPO

原文（Passage）

The Sahara Desert got its designation from an Arab geographer named Al-Bakri. He was the ini _ _ _ _ scholar to document t _ _ breadth of the desert. While map _ _ _ _ the des _ _ _ he ca _ _ across a settlement of resilient nomads. They evoked i _ him ta _ _ _ from anc _ _ _ _ caravan lo _ _ about desert wanderers cal _ _ _ Saharans. Hence, he decided to name the desert Sahara.

KPO 149 - Common Belief

来源：KPO

原文（Passage）

Despite common belief, the term "mountain bikes" generally refers to bicycles designed for the western United States' rocky terrain, especially in areas like the historic gold rush territories, while other regions in the States might like bikes adapted for flatlands, coastal paths, or ur _ _ _ environments. Th _ _ are usu _ _ _ _ equipped wi _ _ gears numbering 21 or 24, b _ _ models with 27 or 30 gears exist as well. The Downhill Dominator and the Trail Tracker mod _ _ _ both fea _ _ _ _ enhanced suspe _ _ _ _ _ systems of 180mm and 140mm respectively. Unlike ro _ _ bicycles, so _ _ mountain bikes do not have any indicators or markings denoting their gear ratio.

KPO 150 - Introductory Algebra

来源：KPO

原文（Passage）

Also referred to as the fundamental course, introductory algebra is a subject that is often viewed as the most elementary level of mathematics, and it serves as the cornerstone for advanced

studies. Consequently, it is typi _ _ _ _ _ the ini _ _ _ _ subject tac _ _ _ _ by n _ _ students. It is gene _ _ _ _ _ taught in schools b _ _ seldom cov _ _ _ _ in speci _ _ _ _ _ _ research pap _ _ _ and acad _ _ _ _ conferences. While not as universally recognized as other branches like calculus and geometry, this subject is accessible through various educational websites, though it's less frequently the focus of scholarly articles and symposiums.

KPO 151 - Great Kapok Tree

来源：KPO

原文（Passage）

Located at the core of the Amazon Rainforest in Brazil, the Great Kapok Tree rises as a majestic plant that has been a source of life and nourishment for a _ array o _ creatures f _ _ countless generations. It has been a beacon of sustenance for the ani _ _ _ _ of t _ _ rainforest for cent _ _ _ _ _ and origi _ _ _ _ _ supported a vast ecos _ _ _ _ _ within its branches. The te _ _ Kapok refers to the cotton-like fl _ _ _ produced by the tree in local dialect. It has thrived for hundreds of years, even before the era of European exploration. Among the many marvels of natural rainforest ecology, this tree is recognized as one of the most impressive.

KPO 152 - Steering Wheel

来源：KPO

原文（Passage）

A steering wheel refers to a rotation-responsive apparatus akin to a helm. It is often inst _ _ _ _ _ in vehi _ _ _ _ centered in front of the driver's seat. It functions b _ detecting t _ _ direction ste _ _ _ _ by the operator. The corresponding pe _ _ _ controls are necessary. The pedal cont _ _ _ _ that a _ _ typically posit _ _ _ _ _ just be _ _ _ the dashboard collaborate with other parts. This component is also integrated into some gaming controllers and a selection of arcade machines.

KPO 153 - Video Game Platforms

来源：KPO

原文（Passage）

Most video game platforms can be categorized into two types: console gaming or PC gaming. Console gaming occ _ _ _ on dev _ _ _ _ specifically desi _ _ _ _ for gameplay, which are typically conn _ _ _ _ _ to a television. PC gaming requ _ _ _ _ a pers _ _ _ _ computer, wh _ _ _ games m _ _ need to be purc _ _ _ _ _ and downloaded. Both appro _ _ _ _ _ offer distinct advantages and disadvantages.

KPO 154 - Romantic Movement

来源：KPO

原文（Passage）

In the 18th century, the Romantic Movement, focused on emotion, began in Germany and other countries, producing much poetry and prose. William Wordsworth, its influential pioneer, is tho _ _ _ _ to have asserted that the boun _ _ _ _ _ spirit se _ _ _ expression wh _ _ _ society enforces its silence. The cy _ _ _ of crea _ _ _ _ persists, the spi _ _ _ oscillates bet _ _ _ _ expression and restraint acr _ _ _ the va _ _ sphere of convention. Wordsworth emphasized the need for nature's inspiration, especially from the sublime, and introspection until the spirit completes its creative journey to gain deep insight.

KPO 155 - Quill Technology

来源：KPO

原文（Passage）

During the flourishing period of classic literature and poetic expression, covering the early 1800s to the mid-1800s, the quill held an essential position on the writer's desk. Some authors, su _ _ as Jane Austen wi _ _ her nuanced character portrayals, had a disti _ _ _ _ _ _ style of narrative. F _ _ of t _ _ classic novels, however, cont _ _ _ _ _ illustrated chapters, wh _ _ _ were pres _ _ _ _ _ instead in separate pic _ _ _ _ books. Am _ _ _ the epoch's most notable literary figures were Edgar Allan Poe, a pioneer of the Gothic genre, Charles Dickens of Victorian England's social critique, and the deeply influential Herman Melville, author of "Moby Dick," who made a lasting impact on literature before his passing at the age of 72.

KPO 156 - Urban Planning

来源：KPO

原文（Passage）

Urban planning involves designing frameworks for city development based on their growth needs or spatial constraints and is a frequently adopted strategic approach in ma _ _ regions. I _ has nume _ _ _ _ applications in comm _ _ _ _ _ development, a _ expanding ur _ _ _ areas req _ _ _ _ to b _ organized in _ _ more manageable a _ _ functional divisions. Strategies in modern urban planning are broadly utilized, such specifically as those in transportation design, environmental sustainability, social sciences, architecture, and infrastructure management. The importance of urban planning strategies escalates in parallel with the increasing population of cities and the technological advancements of planning tools.

KPO 157 - Blue Whale

来源：KPO

原文（Passage）

The Blue Whale is the largest recorded mammal and has been key to understanding marine biology. But the most powe _ _ _ _ land ani _ _ _ in te _ _ _ of stre _ _ _ _ is t _ _ African elephant. The Blue Whale is larger because it has a body th _ _ can gr _ _ up t _ 100 fe _ _ long comp _ _ _ _ to the elephant's maximum length of 24 feet. These elephants have a muscular structure made mainly of dense muscle tissue and fibrous connective material.

KPO 158 - Defensive Economizing

来源：KPO

原文（Passage）

Companies save money during economic downturns, a tactic called defensive economizing. This is often seen in mar _ _ _ _ with vola _ _ _ _ financial trends. Abrupt shi _ _ _ in t _ _ economic land _ _ _ _ _ might res _ _ _ in a high failure rate am _ _ _ businesses empl _ _ _ _ _ defensive economizing. Nonetheless, th _ _ approach c _ _ be advantageous, enabling companies to operate efficiently for prolonged durations and more effectively manage their financial resources.

KPO 159 - City Planning

来源：KPO

原文（Passage）

Environmental sustainability in city planning means that how we build cities impacts the environment's health and o _ _ planet's future. Wit _ _ _ this seg _ _ _ _ specifically o _ the discourse, various funda _ _ _ _ _ _ notions perta _ _ _ _ _ to enviro _ _ _ _ _ _ _ sustainability wi

_ _ be scrutinized. This inc _ _ _ _ _ a t _ _ expert's review and practical examples explaining environmental sustainability in city development.

KPO 160 - Fresh Water Resources

来源：KPO

原文（Passage）

When fresh water is left undisturbed in a container, it becomes stagnant. This is the out _ _ _ _ of contamination: airborne bact _ _ _ _ and microor _ _ _ _ _ _ _ present i _ the envir _ _ _ _ _ _ infuse t _ _ water wi _ _ impurities. Th _ _ unintentional contam _ _ _ _ _ _ _ is avo _ _ _ _ to ensure the provision of clean drinking water.

KPO 161 - Owl Species

来源：KPO

原文（Passage）

Owls display increased alertness during dusk. Besides gliding sile _ _ _ _ through t _ _ darkening sky, the Barn owl can navi _ _ _ _ through de _ _ _ forests, empl _ _ _ _ _ its powerful, supple wingbeats a _ guides. As twil _ _ _ _ approaches, th _ _ _ owls descend in _ _ more open areas, frequently not exceeding 20 meters ab _ _ _ ground.

KPO 162 - Advanced Irrigation Systems

来源：KPO

原文（Passage）

Advanced irrigation systems are engineered to absorb moisture and then dispense it. They enco _ _ _ _ _ a va _ _ network o _ components wh _ _ _ remains wit _ _ _ the sys _ _ _ but fi _ _ _ with wa _ _ _ (or in cer _ _ _ _ situations, collects condensation, gath _ _ _ _ _ atmospheric moisture) as liquid is distributed throughout. In this manner, the water from an early irrigation cycle can be employed to hydrate the soil for the next planting phase.

KPO 163 - Penicillin Discovery

来源：KPO

原文（Passage）

In 1928, Alexander Fleming discovered penicillin, which had a huge impact on antibiotic medicine. It started with one moldy Petri dish. Then, the mold's substance was isolated into several pure extracts, ea _ _ a fraction of the orig _ _ _ _ compound, al _ _ known as the active agent, or the active compound. This proc _ _ _ _ _ was repli _ _ _ _ _ continuously and resu _ _ _ _ in the devel _ _ _ _ _ _ of penicillin. The im _ _ _ below dep _ _ _ _ this evol _ _ _ _ _ from the initial discovery to the final product.

KPO 164 - History Of England

来源：KPO

原文（Passage）

England once acted as the core of the British Empire. The anc _ _ _ _ capital o _ the Britons, London, kn _ _ _ as t _ _ heart of the kingdom, later is one of the most celebrated cities, w _ _ situated in the lowl _ _ _ _ along the southeastern str _ _ _ _ of the isle. The Normans un _ _ _ the command of William the Conqueror subdued the native Anglo-Saxon realm i _ 1066, and the territory became a pivotal pa _ _ of the Norman holdings. In 1707, England unified with Scotland to form the Kingdom of Great Britain, guided by the influential Queen Anne.

KPO 165 - Personal Growth

来源：KPO

原文（Passage）

Personal growth means the beginning of maturity. Personal Growth invo _ _ _ _ understanding h _ _ to reco _ _ _ _ _ elements of an individual's unique char _ _ _ _ _ and the reasons for their development. As children, individuals often dep _ _ _ on family mem _ _ _ _ and educ _ _ _ _ _ to he _ _ them ackno _ _ _ _ _ _ different asp _ _ _ _ of their temperament. Over time, these young individuals are encouraged to independently identify these traits, eventually leading to their own insights regarding the formation of distinct qualities.

KPO 166 - Virtual Reality

来源：KPO

原文（Passage）

Virtual reality simulates aspects of human experiences through the integration of software, hardware, or sensory enhancements. The exami _ _ _ _ _ _ of vir _ _ _ _ reality mim _ _ _ actual perception by repli _ _ _ _ _ _ various elem _ _ _ _ of sensory experiences. Developers exp _ _ _ _ the rationale of hu _ _ _ interaction by generating virtual landscapes - aiming to compr _ _ _ _ _ the intr _ _ _ _ _ data manipu _ _ _ _ _ _ that characterizes such environments. Although reality inherently involves authentic sensations, virtual reality is often regarded as an experience confined to a simulated space and sensory perception.

KPO 167 - Horse Drawn Carriage

来源：KPO

原文（Passage）

For centuries, the horse-drawn carriage dominated the realm of transportation. The future modifications to travel met _ _ _ _ will st _ _ not ju _ _ from enha _ _ _ _ accessibility, but also from innovative designs. For instance, the normal but cla _ _ _ _ bicycles may be subst _ _ _ _ _ _ by elec _ _ _ _ scooters which bo _ _ _ a combi _ _ _ _ _ _ of sl _ _ _ engineering and user-friendly features, along with GPS navigation and safety mechanisms. Such modes of transport are presently accessible for urban and suburban environments alike.

KPO 168 - Project Based Learning

来源：KPO

原文（Passage）

Project-based learning not only fosters practical skills but also its true advantage is found in its ability to steer a student's educational journey. By concentrating on real-world prob _ _ _ _ initially, students mu _ _ envision the applications of their know _ _ _ _ _ in act _ _ _ scenarios. Consequently, learners prioritize prac _ _ _ _ _ application ov _ _ theoretical knowledge. Th _ _ advantage enhances Experiential Learning by embr _ _ _ _ _ a project-focused methodology t _ education, rat _ _ _ than depending on abstract theories or preset ideas.

KPO 169 - Financial Management

来源：KPO

原文（Passage）

Financial management is a part of business that involves planning and managing assets and liabilities to handle market changes and financial crises. Moreover, it may also include

management of investments, retir _ _ _ _ _ funds, re _ _ estate, o _ any other resources. They are wh _ _ _ fiscal effic _ _ _ _ _ or saf _ _ _ are concerned. It i _ crucial f _ _ financial managers to guarantee th _ _ their strategies comply with applicable fiscal laws and standards.

KPO 170 - Pythagorean Theorem

来源：KPO

原文（Passage）

The Pythagorean theorem pertains to the dimensions of right-angled triangles on a two-dimensional plane and is attri _ _ _ _ _ to Pythagoras, w _ _ was the first to propose this groundb _ _ _ _ _ _ _ concept. Pythagoras posited th _ _ the met _ _ _ to calculate the len _ _ _ _ of si _ _ _ in th _ _ _ triangles that yields the most accurate results invo _ _ _ _ the s _ _ of the squares on the triangle's two shorter sides equaling the square on the longest side.

KPO 171 - Oak Tree Biology

来源：KPO

原文（Passage）

The oak tree exhibits a broad habitat, thriving in all temperate and subtropical regions, except for the arid deserts. It is seen across t _ _ European continent, from Norway, through the de _ _ _ forests, to the southern reaches o _ Spain, and fr _ _ the UK to the expansive Russian plains. I _ also gr _ _ _ in pa _ _ _ of Asia, cove _ _ _ _ territories fr _ _ across the Siberian taiga t _ the forests of Turkey. In North America, its growth spans from the woodlands of Canada to the United States, encompasses areas around the Great Lakes, and stretches from Alaska down to the highlands of Mexico.

KPO 172 - Government Systems

来源：KPO

原文（Passage）

Governments can be broadly divided into three main forms, in alignment with their prevalent governance systems: democratic governments, authoritarian regimes, and monarchies. Nearly a _ _ democratic gover _ _ _ _ _ _ are representative and ma _ _ have a parliamentary system. Authoritarian reg _ _ _ _ are typically centralized, li _ _ the single- party rule fo _ _ _ in so _ _ states, o _ military dictatorships that con _ _ _ _ power thr _ _ _ _ force. Monarchies often operate with a figurehead ruler, such as a king or queen, who may or may not have actual power, depending on the constitutional laws that guide the nation's sovereignty.

KPO 173 - Treasure Map Quest

来源：KPO

原文（Passage）

The treasure map quest is a kind of adventure game where clues are distributed across a charted area. The chart is typi _ _ _ _ _ an oblong or quadrilateral form. The a _ _ of t _ _ game is to loc _ _ _ all of the trea _ _ _ _ _ marked on the map. Numerous treasure ma _ _ are desi _ _ _ _ with a motif so that a _ _ the mar _ _ _ treasures sh _ _ _ a connection. The clues that lead to the treasures are placed either along straight paths, across varied terrain, or through winding trails.

KPO 174 - Tropical Rainforest

来源：KPO

原文（Passage）

A tropical rainforest is often described as a vast expanse of vegetation, wildlife, and microorganisms within many regions of the Earth. T _ simply p _ _ it ano _ _ _ _ way, a tropical rainf _ _ _ _ _ is a more biodi _ _ _ _ _ area comp _ _ _ _ to t _ _ typical ave _ _ _ _ ecosystem. Depending on the rainfall, size, and cli _ _ _ _ of a specific forest, the species within it m _ _ be endemic (unique to the region), migratory (traveling species), or widespread (found in multiple habitats). While endemic and migratory species are usually referred to as native or transient populations, widespread species may also be known as common fauna.

KPO 175 - Self Sufficiency

来源：KPO

原文（Passage）

Being self-sufficient means having the capacity to meet one's own needs without external assistance, reflecting a level of independence that enables a person, regardless of whether they are simply living day-to-day or striving for long-term objectives, to sustain thems _ _ _ _ _ or their organization. I _ terms o _ agricultural practices, the self-sufficiency of a farmer sign _ _ _ _ _ that the individual w _ _ is eng _ _ _ _ in prod _ _ _ _ _ food wit _ _ _ the certain areas and the boundaries of their la _ _ can sus _ _ _ _ themselves, and thus is not reliant on external sources for nourishment. Modern technology aims to boost production efficiency, while self-sufficiency focuses on being resource-independent. However, technology is often used to help achieve self-sufficiency.

KPO 176 - Architectural Blueprints

来源：KPO

原文（Passage）

Architects develop blueprints to satisfy the diverse preferences of their customers, whether they are individual homeowners or large real estate firms. While nume _ _ _ _ elements influence their blueprints, functionality i _ the pri _ _ _ _ concern. Practi _ _ _ _ _ _ is a key fac _ _ _ when deciding whe _ _ _ _ to reno _ _ _ _ an o _ _ building or to er _ _ _ a compl _ _ _ _ _ new structure. Occasionally, a brand new building may be more cost-effective than altering an existing one. Engaging the client in the planning stage helps both parties in determining the best strategy for the customer's requirements.

It sparked a cultural awakening that emphasized humanism, individual achievement, and secular learning, which reshaped European thought and institutions.

2026-03-08 Renaissance Period

原文（Passage）

The Renaissance was a period of cultural rebirth in Europe, spanning the fourteenth to seventeenth centuries. A vib _ _ _ _ period o _ cultural, arti _ _ _ _ and intell _ _ _ _ _ _ revival, t _ _ Renaissance mar _ _ _ a renewed interest in classical liter _ _ _ _ _, art, and scie _ _ _. The Renaissance had a profound historical imp _ _ _, serving as a bridge be _ _ _ _ _ the Middle Ages and the modern era. It sparked a cultural awakening that emphasized humanism, individual achievement, and secular learning, which reshaped European thought and institutions.

2026-03-08 Spider Silk

原文（Passage）

The unusual properties of spider silk-a remarkable combination of strength and elasticity-have long attracted the attention of many. Spider si _ _ has a brea _ _ _ _ point f _ _ greater th _ _ steel a _ _ may str _ _ _ _ its fu _ _ length bef _ _ _ breaking: a 0.01 centi _ _ _ _ _ thread c _ _ support eighty grams. Spider silk is also very durable, a feature well illustrated by the persistence of cobwebs. Throughout history, humans have adapted spider silk for many purposes. For a long period, thick webs were used in Europe as bandages.

2026-03-08 Synthetic Pigments Technology

原文（Passage）

Pigments are substances that provide color to materials, and they can be derived from various natural sources, such as minerals and plants. It w _ _ once com _ _ _ for art _ _ _ _ to cre _ _ _ their o _ _ paints b _ mixing sev _ _ _ _ pigments toge _ _ _ _. This pro _ _ _ _ was ti _ _-consuming and required detailed knowledge of pigments—their chemical properties, how they interact with different media, and their durability over time. But it also allowed painters to give their artworks a truly unique color palette.

2026-03-08 The Renaissance

原文（Passage）

The Renaissance was a period of cultural rebirth in Europe, spanning the fourteenth to seventeenth centuries. A vib _ _ _ _ period o _ cultural, arti _ _ _ _, and intell _ _ _ _ _ _ revival, t _ _ Renaissance mar _ _ _ a ren _ _ _ _ interest i _ classical liter _ _ _ _ _, a _ _ science. The Renaissance had a profound historical impact, serving as a bridge between the Middle Ages and the modern era. It sparked a cultural awakening that emphasized humanism, individual achievement, and secular learning, which reshaped European thought and institutions.

2026-03-08 Urban Heat Island

原文（Passage）

The urban heat island (UHI) effect is a phenomenon where urban areas experience significantly higher temperatures than surrounding rural regions. This temperature diffe _ _ _ _ _ is cau _ _ _ by t _ _ abundance o _ heat-absorbing surf _ _ _ _, like conc _ _ _ _, which ret _ _ _ heat dur _ _ _ the d _ _ and rel _ _ _ _ it slowly at night. Reduced vegetation and limited airflow in cities further intensify the effect, leading to increased energy consumption, elevated air pollution, and health risks, especially during heatwaves. Green spaces in urban areas play a critical role in combatting the effects of UHI.

2026-03-08 Vertebrate Fossils Biology

原文（Passage）

Fossils provide invaluable evidence of evolutionary history, documenting species that lived millions of years ago. Paleontologists examine these remains to understand how organisms have changed over time. Natural selection expl _ _ _ _ how advant _ _ _ _ _ _ traits incr _ _ _ _ in freq _ _ _ _ _ in a popul _ _ _ _ _. Species ad _ _ _ to th _ _ _ environments, wh _ _ _ leads t _ incredible dive _ _ _ _ _ observed in the biological world today through the mechanism of natural selection. The ongoing study of evolution continues to reveal how life on Earth has developed and diversified.

KPO 250 - Renaissance — Part 2

来源：KPO

原文（Passage）

The Renaissance was a period of cultural rebirth in Europe, spanning the fourteenth to seventeenth centuries. A vib _ _ _ _ period o _ cultural, arti _ _ _ _, and intell _ _ _ _ _ _ revival, t _ _ Renaissance mar _ _ _ a ren _ _ _ _ interest i _ classical liter _ _ _ _ _, a _ _, and science. The Renaissance had a profound historical impact, serving as a bridge between the Middle Ages and the modern era. It sparked a cultural awakening that emphasized humanism, individual achievement, and secular learning, which reshaped European thought and institutions.

KPO 251 - Fossils — Part 2

来源：KPO

原文（Passage）

Fossils provide invaluable evidence of evolutionary history, documenting species that lived millions of years ago. Paleontologists examine these remains to understand how organisms have changed over time. Natural selection expl _ _ _ _ how advant _ _ _ _ _ _ traits incr _ _ _ _ in freq _ _ _ _ _ in a popul _ _ _ _ _. Species ad _ _ _ to th _ _ _ environments, wh _ _ _ leads t _ incredible dive _ _ _ _ _ observed in the biological world today through the mechanism of natural selection. The ongoing study of evolution continues to reveal how life on Earth has developed and diversified.

KPO 252 - Pigments — Part 2

来源：KPO

原文（Passage）

Pigments are substances that provide color to materials, and they can be derived from various natural sources, such as minerals and plants. It w _ _ once com _ _ _ for art _ _ _ _ to cre _ _ _ their o _ _ paints b _ mixing sev _ _ _ _ pigments toge _ _ _ _. This pro _ _ _ _ was ti _ _-consuming and required detailed knowledge of pigments—their chemical properties, how they interact with different media, and their durability over time. But it also allowed painters to give their artworks a truly unique color palette.

KPO 80 - Renaissance

来源：KPO

原文（Passage）

The Renaissance was a period of cultural rebirth in Europe, spanning the fourteenth to seventeenth centuries. A vib _ _ _ _ period o _ cultural, arti _ _ _ _ and intell _ _ _ _ _ _ revival, t _ _ Renaissance mar _ _ _ a renewed interest in classical liter _ _ _ _ _, art, and scie _ _ _. The Renaissance had a profound historical imp _ _ _, serving as a bridge be _ _ _ _ _ the Middle Ages

and the modern era. It sparked a cultural awakening that emphasized humanism, individual achievement, and secular learning, which reshaped European thought and institutions.

KPO 81 - Fossils

来源：KPO

原文（Passage）

Fossils provide invaluable evidence of evolutionary history, documenting species that lived millions of years ago. Paleontologists examine these remains to understand how organisms have changed over time. Natural selection exp _ _ _ _ _ how advant _ _ _ _ _ _ traits increase in frequency in a popu _ _ _ _ _ _. Species ad _ _ _ to th _ _ _ environments, wh _ _ _ leads t _ incredible dive _ _ _ _ _ observed in the biol _ _ _ _ _ _ world today through the mechanism of nat _ _ _ _ selection. The ongoing study of evolution continues to reveal how life on Earth has developed and diversified.

KPO 82 - Cosmology

来源：KPO

原文（Passage）

Cosmology is the study of how the universe began, changed over time, and might evolve in the future. Scientists exa _ _ _ _ stars, pla _ _ _ _, and gala _ _ _ _ using observations and models to desc _ _ _ _ cosmic events. One wid _ _ _ accepted ide _ is the big bang, wh _ _ _ suggests the uni _ _ _ _ _ started from a single point and has been expa _ _ _ _ _ ever since. On _ _ _ _ _ research helps improve our understanding of space, time, and the forces shaping the cosmos, revealing new discoveries about the vast universe.

KPO 83 - Pigments

来源：KPO

原文（Passage）

Pigments are substances that provide color to materials, and they can be derived from various natural sources, such as minerals and plants. It w _ _ once common for art _ _ _ _ to create their own paints by mi _ _ _ _ several pig _ _ _ _ _ together. This pro _ _ _ _ was ti _ _-consuming and required detailed know _ _ _ _ _ of pigments-their chem _ _ _ _ properties, how they inte _ _ _ _ with diff _ _ _ _ _ media, and their durability over time. But it also allowed painters to give their artworks a truly unique color palette.

KPO 84 - Ocean Currents

来源：KPO

原文（Passage）

Ocean currents are critical components of Earth's climate system, influencing weather patterns and marine ecosystems. Driven b _ wind, temper _ _ _ _ _ changes, a _ _ differences i _ salinity, ocean currents distr _ _ _ _ _ heat acr _ _ _ the glo _ _. The Gulf Stream, f _ _ instance, wa _ _ _ the North Atlantic Current, affecting climate in Europe. Ongoing research continues to improve our understanding of the complexities of these dynamic systems.

2026-03-06（2 套）

2026-03-06 Paleontology Research

原文（Passage）

Paleontology is the scientific study of life's history through the examination of fossil remains. Fossils, incl _ _ _ _ _ bones, she _ _ _, and foot _ _ _ _ _ _, provide crit _ _ _ _ evidence o _ past orga _ _ _ _ _ and th _ _ _ environments. B _ analyzing su _ _ remnants, paleont _ _ _ _ _ _ _ _ can reconstruct ancient ecosystems and track evolutionary changes over millions of years. This field offers valuable insights into the development and extinction of species. Advanced techniques like radiometric dating and CT scanning allow scientists to determine precise ages of specimens and examine internal structures without damaging delicate fossils.

2026-03-06 Species Extinctions

原文（Passage）

Extinctions are a natural part of Earth's history, marking the end of species that die out and paving the way for new ones. These inci _ _ _ _ _ can b _ caused b _ varying fac _ _ _ _, such a _ environmental cha _ _ _ _, habitat lo _ _, and catast _ _ _ _ _ _ events. Stud _ _ _ _ extinctions he _ _ _ scientists understand biodiversity and the resilience of ecosystems. Notable extinctions, like the one that wiped out most of the dinosaurs, offer insights into how life on Earth can dramatically shift. Modern conservation efforts aim to prevent human-induced extinctions and preserve remaining species.

2026-03-04（4 套）

2026-03-04 Baiji Dolphin

原文（Passage）

The extinction of the baiji dolphin, also known as the Yangtze River dolphin, serves as a stark reminder of the impact of human activities on freshwater ecosystems. Declared functi _ _ _ _ _ _ extinct i _ 2006, t _ _ baiji suff _ _ _ _ from hab _ _ _ _ loss a _ _ the eff _ _ _ _ of poll _ _ _ _ _. Conservationists atte _ _ _ _ _ rescue miss _ _ _ _ and breeding programs, but these efforts were hindered by the dolphin’s declining population and fragmented habitat. Studying the baiji’s extinction helps scientists develop strategies to protect other endangered freshwater species and highlights the need for sustainable practices.

KPO 77 - South Pacific History

来源：KPO

原文（Passage）

The history of the South Pacific is marked by diverse cultures and significant events. indigenous pop _ _ _ _ _ _ _ _ developed com _ _ _ _ societies wi _ _ rich tradi _ _ _ _ _ and soc _ _ _ structures. th _ region’s poli _ _ _ _ _ and econ _ _ _ _ landscapes exper _ _ _ _ _ _ profound cha _ _ _ following colonization by Europeans. Studying this history allows for a greater understanding of cultural interactions and the ongoing effects of historical events on contemporary South Pacific societies. Traditional navigation techniques using stars and ocean swells enabled remarkable voyaging achievements, while contemporary movements focus on cultural preservation, language revitalization, and addressing climate change impacts on island nations.

KPO 78 - Piano

来源：KPO

原文（Passage）

The piano has a rich history that spans over 300 years, evolving from earlier keyboard instruments like the clavichord and harpsichord. The mod _ _ _ piano w _ _ invented aro _ _ _

1700 b _ Bartolomeo Cristofori, w _ _ developed a n _ _ mechanism th _ _ made i _ possible f _ _ players t _ control the dynamics-soft and loud sounds-by varying the pressure on the keys. Later key improvements include the addition of a cast iron frame and felt-covered hammers, which allowed for greater volume and durability. These changes made the piano a central instrument in both classical and popular music.

KPO 79 - Supply and Demand

来源：KPO

原文（Passage）

Supply and demand are fundamental concepts in economics because they determine the price and availability of goods or services. When the _ _ is mo _ _ demand f _ _ a pro _ _ _ _, suppliers m _ _ make i _ more expe _ _ _ _ _ to incr _ _ _ _ profits. conv _ _ _ _ _ _, an exc _ _ _ supply can lead to price reductions. Market equilibrium occurs when supply matches demand, resulting in stable prices. The real world, however, is rarely as simple as this. Various factors influence these dynamics, including consumer preferences, production costs, and external events.

2026-03-03（21 套）

2026-03-03 Human Anatomy

原文（Passage）

Human anatomy is the scientific study of human structure. Anatomy rev _ _ _ _ how different pa _ _ _ of t _ _ body inte _ _ _ _ and func _ _ _ _ together t _ maintain li _ _. For exa _ _ _ _, the circulatory sys _ _ _ transports bl _ _ _ throughout the body, carrying oxygen and nutrients to cells while removing waste products. Anatomists must also understand the organization of organs, tissues, and cells. Medical professionals use anatomical knowledge to diagnose and treat illnesses, improving patient care and health outcomes.

2026-03-03 Prehistoric Art Religion

原文（Passage）

Prehistoric art and religion provide invaluable insights into the spiritual life of early humans. Cave paintings and carvings often depict animals and symbolic figures, reflecting the beliefs and rituals of ancient communities. These artworks se _ _ _ as a win _ _ _ into t _ _ social struc _ _ _ _ _ and cult _ _ _ _ practices o _ prehistoric ti _ _ _. By stud _ _ _ _ them, resea _ _ _ _ _ _ can bet _ _ _ understand the evolution of human thought and spirituality. These early forms of art show that even long ago, people had deep feelings, ideas, and questions about life and the world around them.

KPO 50 - Animal Adaptations

来源：KPO

原文（Passage）

The study of animal biology reveals a diverse range of physical and biological traits that facilitate long-term existence in the wild. Through biological adapt _ _ _ _ _, many spec _ _ _ have evol _ _ _ unique traits to surv _ _ _ threats from fierce preda _ _ _ _ while navigating a changing enviro _ _ _ _ _. This comp _ _ _ beha _ _ _ _ is often seen in nocturnal ani _ _ _ _ that occupy a specific habi _ _ _, while migra _ _ _ _ patterns allow others to move across vast distances to find resources. These specialized characteristics ensure that populations can endure even when faced with significant ecological shifts or intense competition for food. By analyzing these inherited

mechanisms, researchers can better understand how different organisms manage to thrive in various global ecosystems.

KPO 51 - Ecological Niches

来源：KPO

原文（Passage）

Many animals have developed specialized traits to help them thrive within a specific ecological niche.Every unique dep _ _ _ _ on a uni _ _ _ biological adap _ _ _ _ _ _ to evade dangerous pre _ _ _ _ _ _ and ensure long-term survi _ _ _ in the wild. These behav _ _ _ _ _ changes are often influ _ _ _ _ _ by a shifting enviro _ _ _ _ _ where being an effic _ _ _ _ hunter or gatherer is an evolut _ _ _ _ _ _ necessity. For instance, creatures that navigate in total darkness are often nocturnal to avoid competition for limi _ _ _ food resources. By examining these diverse physiological patterns, scientists can better understand how life persists in harsh or unpredictable climates.

KPO 52 - Plant Adaptations

来源：KPO

原文（Passage）

Many plant species have developed complex biological systems to thrive in a wide range of terrestrial habitats. To man _ _ _ their ene _ _ _ needs, they uti _ _ _ _ photosynthesis to convert sunlight into fu _ _ while us _ _ _ vascular tissues to abs _ _ _ water and essential nutri _ _ _ _ from the soil. These internal structures are critical for long-term surv _ _ _ _, as they allow plants to be more effic _ _ _ _ when they repro _ _ _ _ and manage for limited sp _ _ _. Such evolutionary traits contribute to the vast biological diversity seen across different ecosystems. Scientists continue to study how these organisms manage to adapt to an ever-changing global environment.

KPO 53 - Ecosystem Diversity

来源：KPO

原文（Passage）

Maintaining a functional ecosystem requires a complex network of biological relationships that support various life forms. Hi _ _ levels of gene _ _ _ diversity and prot _ _ _ _ _ habitats are essential, as exte _ _ _ _ factors like pollution or cli _ _ _ _ change often thre _ _ _ _ the stab _ _ _ _ _ of these environments. When inva _ _ _ _ species enter a new territory, they upset the sustai _ _ _ _ _ balance of the region by outperforming nat _ _ _ organisms that lack natural pred _ _ _ _ _. This intense interaction forces different species to compete for limited resources like food and nesting space. A resilient community, however, can often recover from these disturbances and restore its original structural integrity over time.

KPO 54 - Emissions and Climate

来源：KPO

原文（Passage）

Modern industrial activities have fundamentally altered the chemical composition of the air surrounding our planet. Scien _ _ _ _ _ remain conce _ _ _ _ that the accum _ _ _ _ _ _ _ of greenhouse gases in the atmos _ _ _ _ _ is driving global warm _ _ _, as rising carbon emiss _ _ _ _ lead to catastrophic ecological conseq _ _ _ _ _ _. These shifts disrupt historical weather patterns and accel _ _ _ _ _ the rate of glacial melting in pol _ _ regions, resulting in a signif _ _ _

_ _ rise in sea levels. Such profound physical impacts pose a serious threat to diverse environmental systems that have remained balanced for thousands of years. Global initiatives now aim to reduce dependency on fossil fuels in an urgent attempt to stabilize temperatures and preserve biological diversity.

KPO 55 - Star Formation

来源：KPO

原文（Passage）

Modern astronomy relies on sophisticated technology to study the vast stages of a star's life cycle. Scien _ _ _ _ _ use precise obser _ _ _ _ _ _ of a dense nebula to deter _ _ _ _ how grav _ _ _ collapses gas clouds into a spec _ _ _ _ chemical compos _ _ _ _ _. As these bodies mature into stel _ _ _ objects, their high lumin _ _ _ _ _ allows researchers to det _ _ _ even the most dist _ _ _ examples of this pheno _ _ _ _ _. Planets eventually begin orbiting these young stars as the systems continue to evolve over billions of years. These developmental stages provide vital clues about the historical formation of our own solar system.

KPO 56 - Quantum Wave-Particle Duality

来源：KPO

原文（Passage）

Wave-Particle Duality in Quantum Physics: Quantum mechanics dramatically altered our understanding of reality, particularly concerning the fundamental nature of particles. One of the mos _ profound concepts it introduced was wave-particle duality, where quan _ _ _ objects like electrons and photons can exh _ _ _ _ both wave-like and particle-like properties depending o _ the experi _ _ _ _ _ _ setup. This means that a sing _ _ electron, for instance, doesn't just exi _ _ as a tiny ball; it can also spread ou _ as a wave, creating an interf _ _ _ _ _ _ pattern when obser _ _ _ appropriately. Such a dual nat _ _ _ poses significant challenges to classical intuition, forcing scientists to reconceptualize the very building blocks of the universe. The implications of this duality extend to many areas of modern physics, from quantum computing to the behavior of light.

KPO 57 - Molecular Bonds and Reactivity

来源：KPO

原文（Passage）

Molecular Bonds and Reactivity: The intricate world of molecular structures dictates the behavior and properties of all matter. In many chem _ _ _ _ react _ _ _ _, atoms [[b3] to achieve a stable electron confi _ _ _ _ _ _ _ _ by forming bonds with other at _ _ _, often aiming to]fill their outermost electron she _ _ _. This proc _ _ _ can involve the shari _ _ of electrons in covalent bonds or the trans _ _ _ of electrons in ionic bonds, ultim _ _ _ _ _ leading t _ the form _ _ _ _ _ of new molec _ _ _ _. The type and strength of these bonds significantly influence a compound's melting point, solubility, and overall reactivity. Understanding these fundamental principles is crucial for synthesizing new materials and comprehending biological processes.

KPO 58 - Historical Narrative

来源：KPO

原文（Passage）

Early historians often struggled to balance the recording of objective facts with the artistic demands of narrative storytelling. This dual purp _ _ _ forced writ _ _ _ to employ sophis _ _ _ _

_ _ _ rhet _ _ _ _ to engage their audie _ _ _. Such techn _ _ _ _ _ were integ _ _ _ to the maint _ _ _ _ _ _ of cultu _ _ _ identity and the preser _ _ _ _ _ _ of collective mem _ _ _. These scholars believed that a well-crafted chronicle could serve as a moral guide for future generations. By examining the past, they aimed to reveal universal truths about human nature and political governance.

KPO 59 - Ancient Wall Paintings

来源：KPO

原文（Passage）

Archaeologists working in the Mediterranean basin frequently encounter wall paintings that have survived for millennia under layers of volcanic ash. These fragile artif _ _ _ _ provide a unique glim _ _ _ into the dai _ _ lives of anci _ _ _ civili _ _ _ _ _ _ _. The metic _ _ _ _ _ excavation of these sites requi _ _ _ extr _ _ _ care to prev _ _ _ any dam _ _ _ to the pigm _ _ _ _. Chemical analy _ _ _ of the plaster suggests that the artists util _ _ _ _ locally sourced minerals to achi _ _ _ such lasting brilliance. Such discoveries allow researchers to recons _ _ _ _ _ the social hierarchies and religious ceremonies that defined these lost urban centers.

KPO 60 - Renaissance Fresco Techniques

来源：KPO

原文（Passage）

The transition from medieval tempera to Renaissance fresco techniques marked a significant shift in how artists approached large-scale wall narratives. This tra _ _ _ _ _ _ _ required pain _ _ _ _ to apply pig _ _ _ _ _ directly onto wet pla _ _ _ _, ensuring that the ima _ _ would bec _ _ _ a perma _ _ _ _ part of the wall's stru _ _ _ _ _. Such a laborious proc _ _ _ dema _ _ _ _ meticulous prepa _ _ _ _ _ _ and rapid execu _ _ _ _ before the surface dried. By integrating the colors into the chemical makeup of the masonry, creators achieved a luminous quality that defied the passage of time. This method allowed for the preservation of vibrant scenes that continue to offer insight into historical aesthetics today.

KPO 61 - Gothic Architecture

来源：KPO

原文（Passage）

During the late Middle Ages, European architects began experimenting with structural innovations to increase the height and light within religious buildings. This transformation requi _ _ _ an integ _ _ _ _ _ approach to design, where the us _ of flying buttresses allowed for thin _ _ _ walls. These features offered grea _ _ _ stab _ _ _ _ _ and permitted the insertion of mass _ _ _ stained-glass windows. The resulting aesthetic shif _ _ _ from the heavy, defensive fe _ _ of Romanesque masonry to an airy, vertical orientation. By redirecting the wei _ _ _ of the stone vaults outward and downward, builders achieved a sense of weightlessness that defined the Gothic era.

KPO 62 - Mercantilism

来源：KPO

原文（Passage）

During the sixteenth century, many European monarchs adopted mercantilism as a strategy to increase national wealth and power. This system aimed to maxi _ _ _ _ the exp _ _ _ of finished goods wh _ _ _ minimizing the impose of raw mat _ _ _ _ _ _. gove _ _ _ _ _ _ officials would

often imp _ _ _ heavy tari _ _ _ on foreign prod _ _ _ _ to protect dome _ _ _ _ industries. Such restrictive measures were designed to ensure a favorable balance of trade. By hoarding gold and silver, nations hoped to maintain economic superiority over their rivals.

KPO 63 - Legislative Organization

来源：KPO

原文（Passage）

The structural organization of a legislative body often determines the speed at which national policies are enacted. This cent _ _ _ authority remains cru _ _ _ _ to the maint _ _ _ _ _ _ of order during intense deba _ _ _ within the cham _ _ _. If the lead _ _ _ _ _ _ fails to secu _ _ a cons _ _ _ _ _, the legis _ _ _ _ _ _ process may expe _ _ _ _ _ _ a prolonged stasis. Political analysts observe that such gridlock frequently ste _ _ from deep-seated ideological divisions. Without a clear majority, parties must engage in complex negotiations to pass even the most basic administrative measures.

KPO 64 - Oral Traditions

来源：KPO

原文（Passage）

Anthropologists have long examined how oral traditions function as the primary vessel for a culture's collective memory. This oral legacy rel _ _ _ on the recit _ _ _ _ _ of myths that sust _ _ _ the social cohesion of the group. These narra _ _ _ _ _ often feature symb _ _ _ _ elements that help transmit cult _ _ _ _ values to the next gener _ _ _ _ _. By embe _ _ _ _ _ moral lessons within catchy rhythmic structures, elders ensure that complex soci _ _ _ _ rules rema _ _ memorable. Consequently, the preservation of these tales is vital for maintaining a distinct identity in a rapidly changing world.

KPO 65 - Infant Visual Development

来源：KPO

原文（Passage）

Developmental psychologists have long studied how infants begin to distinguish between complex visual patterns in their environment. Early expo _ _ _ _ to diver _ _ sensory stimuli allows the bra _ _ to form cru _ _ _ _ neural connec _ _ _ _ _. This proc _ _ _ is esse _ _ _ _ _ for the acquis _ _ _ _ _ of advanced spatial awar _ _ _ _ _ later in life. Children who interact with a variety of shapes and colors show improved problem-solving skills. These early milestones are reliable indicators of future cognitive flexibility and academic achievement.

KPO 66 - Robotics in Manufacturing

来源：KPO

原文（Passage）

Modern manufacturing has undergone a radical transformation due to the integration of sophisticated robotic systems. This shi _ _ often requi _ _ _ heavy inve _ _ _ _ _ _ in infrastructure and speci _ _ _ _ _ _ software to main _ _ _ _ hi _ _ levels of produ _ _ _ _ _ _ _. When compa _ _ _ to tradi _ _ _ _ _ _ methods, these auto _ _ _ _ _ systems signi _ _ _ _ _ _ _ _ reduce human err _ _. Engineers must continuously monitor these digital frameworks to ensure seamless operation and safety. Such advancements allow factories to scale their output rapidly while adapting to fluctuating market demands.

KPO 67 - Equitable Learning Opportunities

来源：KPO

原文（Passage）

Modern universities are increasingly shifting their focus toward providing equitable learning opportunities for diverse student populations. This shi _ _ requires a fund _ _ _ _ _ _ _ reeva _ _ _ _ _ _ _ of curri _ _ _ _ design and instru _ _ _ _ _ _ _ methods to ensure incl _ _ _ _ _. Hig _ _ _ education instit _ _ _ _ _ _ must prov _ _ _ the nece _ _ _ _ _ resou _ _ _ _ and supp _ _ _ systems for academic success. These systematic changes are designed to remove traditional barriers that previously excluded marginalized groups from the classroom. By prioritizing accessibility, colleges foster a more representative environment that benefits the entire intellectual community.

KPO 68 - Urban Redevelopment

来源：KPO

原文（Passage）

Many modern cities are currently undergoing a period of profound spatial reorganization as old industrial zones are repurposed for residential use. This pro _ _ _ _ of urban redevel _ _ _ _ _ _ often requi _ _ _ city planners to add _ _ _ _ the chall _ _ _ _ _ of aging infrastr _ _ _ _ _ _. They must inte _ _ _ _ _ modern amenities while pres _ _ _ _ _ _ the hist _ _ _ _ integrity of the original site. Such transitions reflect a shift tow _ _ _ service-oriented economies that prioritize susta _ _ _ _ _ _ living spaces over manufacturing hubs. By converting abandoned factories into vibrant lofts, municipalities can revitalize decaying neighborhoods and attract new investment.

2026-03-01（1 套）

2026-03-01 Grasshopper Biology

原文（Passage）

Grasshoppers are insects commonly found in dry places with grass and plants. Grasshoppers ha _ _ several wa _ _ they pro _ _ _ _ themselves aga _ _ _ _ danger. Th _ _ have powe _ _ _ _ back le _ _, which al _ _ _ them t _ jump aw _ _ from enemies, such as rodents and snakes. Some grasshoppers can jump twenty times the length of their bodies. By the time they are adults, grasshoppers can also fly. Adult grasshoppers fly very quickly and this helps them avoid danger.

2026-02-26（10 套）

KPO 40 - Mycorrhizal Symbiosis

来源：KPO

原文（Passage）

Most terrestrial plants form complex underground alliances with specialized fungi to enhance their nutrient uptake. These fungi prov _ _ _ essen _ _ _ _ minerals such as phosphorus, while the host plant trans _ _ _ _ carbon-based sugars in exch _ _ _ _. This symb _ _ _ _ _ relation _ _ _ _ is cru _ _ _ _ for surv _ _ _ _ in nutr _ _ _ _-poor soils where roots alone cannot extra _ _ sufficient resou _ _ _ _. Recent longitudinal studies demonstrate that these fungal networks also act as communication channels between neighboring trees. The resulting underground web allows a forest to function as a single, integrated biological unit.

KPO 41 - Bioluminescence

来源：KPO

原文（Passage）

Many deep-sea organisms have developed the unique ability to produce light through internal chemical reactions. This biol _ _ _ _ _ _ _ _ _ _ cap _ _ _ _ _ _ serv _ _ as a cru _ _ _ _ tool for surv _ _ _ _ in the apho _ _ _ zone. It allo _ _ pred _ _ _ _ _ to l _ _ _ prey into stri _ _ _ _ dist _ _ _ _ or help _ indiv _ _ _ _ _ _ find mates in the dark. These specialized light organs are often controlled by the nervous system for precise timing. Scientists believe these adaptations are essential for maintaining the ecological balance of the ocean's depths.

KPO 42 - Flowering Plant Evolution

来源：KPO

原文（Passage）

The transition from gymnosperms to flowering plants marked a significant turning point in the evolutionary history of terrestrial vegetation. This diver _ _ group of plants developed uni _ _ _ reproductive organ _ that enabled efficient pollination through insect activ _ _ _. By evolv _ _ _ colorful petal _ and fragr _ _ _ _ _, they attrac _ _ _ specific pollinators to ensure the success _ _ _ transfer of pollen. These adaptations allow plants to thrive in varied environments by forming mutualistic relationships with local fauna. Consequently, the rapid radiation of angiosperms led to the complex forest ecosystems that dominate the Earth’s landscape today.

KPO 43 - Forest Ecosystem Balance

来源：KPO

原文（Passage）

The health of a forest depends heavily on the complex relationships between its various biological components. This deli _ _ _ _ bal _ _ _ _ is sust _ _ _ _ _ by the diver _ _ _ _ of spec _ _ _ inhabiting the und _ _ _ _ _ _ _ layer. If a sing _ _ species exp _ _ _ _ _ _ _ _ a dras _ _ _ decline, the ent _ _ _ food web may bec _ _ _ unsta _ _ _. Ecologists observe that these systems are remarkably resilient when natural cycles remain uninterrupted. By monitoring these interactions, researchers can better understand how to protect vulnerable habitats from external threats.

KPO 44 - Plate Tectonics

来源：KPO

原文（Passage）

The lithosphere of the Earth is not a continuous shell but is instead divided into several massive, slow-moving tectonic plates. These plates flo _ _ on the semi-liquid mantle, where intens _ heat cau _ _ _ them to shi _ _ and coll _ _ _. This conti _ _ _ _ process of subdu _ _ _ _ _ and upri _ _ _ _ const _ _ _ _ _ resh _ _ _ _ the crustal surf _ _ _. Scientists monitor these movements using satellite technology and seismic sensors to predict potential earthquakes. Such geological activity explains why mountain ranges continue to grow and oceanic trenches deepen over millions of years.

KPO 45 - The Cryosphere

来源：KPO

原文（Passage）

The cryosphere, comprising all of Earth's frozen water, plays a critical role in maintaining the planet's energy balance. High-altitude glac _ _ _ _ and vast ice she _ _ _ act as a natu _ _ _ mir _ _ _ by reflec _ _ _ _ solar radi _ _ _ _ _ back into spa _ _. This phenom _ _ _ _ helps prev _ _ _ the exces _ _ _ _ absorp _ _ _ _ of heat by the oce _ _ _. Without this reflective cooling effect, global

temperatures would rise much faster than currently observed. Scientists monitor these icy regions closely because their melting reduces the Earth's overall albedo, or reflectivity.

KPO 46 - Spectroscopy in Astronomy

来源：KPO

原文（Passage）

Early astronomers primarily categorized celestial bodies based on their observable brightness and position in the night sky. _owev _ _, mod _ _ _ astrophys _ _ _ relies on spectro _ _ _ _ _ _ data to identify the chem _ _ _ _ compos _ _ _ _ _ of dist _ _ _ stars. These techni _ _ _ _ allow resear _ _ _ _ _ to disc _ _ _ _ patterns in temp _ _ _ _ _ _ _ and lumin _ _ _ _ _. By analyzing specific wavelengths of light, scientists can determine the age and life cycle of a stellar object. This systematic approach has transformed our understanding of how galaxies and nebulae form over billions of years.

KPO 47 - Mechanics and Motion

来源：KPO

原文（Passage）

The study of mechanics focuses primarily on how forces influence the motion of physical objects. When a force is exerted upon an obj _ _ _, it undergoes a signi _ _ _ _ _ _ trans _ _ _ _ _ _ _ _ _ _ in its state of rest. This act _ _ _ results in the accum _ _ _ _ _ _ _ of energy, which is propo _ _ _ _ _ _ _ to the velo _ _ _ _ of the mov _ _ _ mass. Scientists calculate this energy by measuring the work performed over a specific distance. These mathematical models allow researchers to predict how particles will behave under varying environmental conditions.

KPO 48 - Synthetic Dyes

来源：KPO

原文（Passage）

Early painters relied on natural minerals and plant extracts to create the vibrant colors seen in historical masterpieces. The disc _ _ _ _ _ of mauveine by William Perkin in 1856 mark _ _ the birth of synt _ _ _ _ _ dyes. This chem _ _ _ _ breakthrough allo _ _ _ industrialist _ to prod _ _ _ consistent hues that were form _ _ _ _ prohibitively expen _ _ _ _. Synthetic chemistry soon replaced rare organic sources with stable, laboratory-made alternatives. These new substances provided artists with an unprecedented range of lightfast and affordable pigments.

KPO 49 - Gothic Architecture

来源：KPO

原文（Passage）

During the twelfth century, a new architectural style emerged in northern France that would eventually redefine the aesthetic landscape of the entire continent. This tran _ _ _ _ _ _ was dri _ _ _ by an incr _ _ _ _ _ _ desire for higher ceil _ _ _ _ and more lum _ _ _ _ _ interiors. Mast _ _ build _ _ _ sought to incor _ _ _ _ _ _ pointed arches and ribb _ _ vaul _ _ to achi _ _ _ structural stabi _ _ _ _. These innovative designs allowed walls to become thinner, facilitating the installation of massive stained-glass windows. Eventually, the Gothic style became a symbol of urban pride and ecclesiastical power throughout the Holy Roman Empire.

Mushrooms are made up of two main parts: the mycelium and the fruiting body. The mycelium i _ long-lived, wh _ _ _ the fruiting body app _ _ _ _ only wh _ _ conditions a _ _ ideal f _ _ reproduction, li _ _ after ra _ _. Usually under _ _ _ _ _ _, the mycelium cons _ _ _ _ of a network of thread-like structures that absorb nutrients from the soil. The fruiting body is above ground and responsible for producing and spreading spores. These spores are released into the air to help the mushroom reproduce.

2026-01-28（27 套）

2026-01-28 Art And Religion

原文（Passage）

Throughout history, art and religion have been deeply in tertwined. Religious bel _ _ _ _ often ins _ _ _ _ artistic crea _ _ _ _ _, from anc _ _ _ _ cave pain _ _ _ _ _ to elab _ _ _ _ _ cathedral archit _ _ _ _ _ _. Throughout his _ _ _ _, artists ha _ _ used vis _ _ _ imagery to express spiritual ideas and convey religious stories. Iconography, the study of symbols and images in art, helps us understand the meaning behind religious artworks. Churches, temples, and other places of worship are often adorned with intricate designs that reflect the convictions and practices of their communities.

2026-01-28 Biological Pigments

原文（Passage）

Pigments are substances that provide color to materials, and they can be derived from various natural sources, such as minerals and plants. It w _ _ once com _ _ _ for art _ _ _ _ to cre _ _ _ their o _ _ paints b _ mixing sev _ _ _ _ pigments toge _ _ _ _. This pro _ _ _ _ was ti _ _-

consuming and required detailed knowledge of pigments-their chemical properties, how they interact with different media, and their durability over time. But it also allowed painters to give their artworks a truly unique color palette.

2026-01-28 Child Development Milestones

原文（Passage）

Child development milestones are key indicators of a child's growth. They enco _ _ _ _ _ various asp _ _ _ _ of development, incl _ _ _ _ _ language acqui _ _ _ _ _ _, motor ski _ _ _, and soc _ _ _ interactions. O _ _ example i _ taking a fi _ _ _ step, wh _ _ _ typically occurs around the age of twelve months. These milestones are useful in helping parents and caretakers monitor a child's progress. It is important to remember, however, that these milestones only provide a general guide, and each child develops at their own pace.

2026-01-28 Excavation of Artifacts

原文（Passage）

Archaeologists typically study human history and prehistory through the excavation of artifacts buried underground. Sometimes, how _ _ _ _, they disc _ _ _ _ artifacts subm _ _ _ _ _ underwater. A stone wall w _ _ found ben _ _ _ _ the Baltic Sea i _ 2012 th _ _ dates t _ over 10,000 ye _ _ _ ago. Resea _ _ _ _ _ _ believe it was used by hunter-gatherer societies to guide and trap reindeer. The wall consists of approximately 1,670 stones and is considered one of the oldest documented hunting structures made by humans.

2026-01-28 Human Cognition

原文（Passage）

Human cognition refers to the mental processes involved in acquiring, processing, storing, and using knowledge. These inc _ _ _ _ the many ways—including the particular wa _—that peo _ _ _ interpret sensory sig _ _ _ _ (perception), h _ _ we st _ _ _ and retr _ _ _ _ information (mem _ _ _), how lang _ _ _ _ is prod _ _ _ _ (speech), and how humans analyze and solve problems. Researchers study cognitive functions to uncover how the brain processes information and how these processes influence behavior. Insights from cognitive science can improve educational methods and help develop interventions for cognitive disorders.

2026-01-28 Human Cognition — Part 2

原文（Passage）

Human cognition refers to the mental processes involved in acquiring, processing, storing, and using knowledge. These inc _ _ _ _ the wa _ _ that peo _ _ _ interpret sensory sig _ _ _ _ (perception), h _ _ we st _ _ _ and retr _ _ _ _ information (mem _ _ _), how lang _ _ _ _ is prod _ _ _ _ (speech), and how humans analyze and solve problems. Researchers study cognitive functions to uncover how the brain processes information and how these processes influence behavior. Insights from cognitive science can improve educational methods and help develop interventions for cognitive disorders.

2026-01-28 Species Extinctions

原文（Passage）

Extinctions are a natural part of Earth's history, marking the end of species that die out and paving the way for new ones. These inci _ _ _ _ _ can b _ caused b _ varying fac _ _ _ _, such a _ environmental cha _ _ _ _, habitat lo _ _, and catast _ _ _ _ _ _ events. Stud _ _ _ _ extinctions he _ _ _ scientists understand biodiversity and the resilience of ecosystems. Notable extinctions, like the one that wiped out most of the dinosaurs, offer insights into how life on Earth can

dramatically shift. Modern conservation efforts aim to prevent human-induced extinctions and preserve remaining species.

2026-01-28 Underwater Archaeology

原文（Passage）

Archaeologists typically study human history and prehistory through the excavation of artifacts buried underground. Sometimes, how _ _ _ _, they disc _ _ _ _ artifacts subm _ _ _ _ _ underwater. A stone wall w _ _ found ben _ _ _ _ the Baltic Sea i _ 2012 th _ _ dates t _ over 10,000 ye _ _ _ ago. Resea _ _ _ _ _ _ believe it was used by hunter-gatherer societies to guide and trap reindeer. The wall consists of approximately 1,670 stones and is considered one of the oldest documented hunting structures made by humans.

KPO 21 - Home Consumption Habits

来源：KPO

原文（Passage）

Studies of everyday consumption show how household choices reflect both economic limits and personal habits. When families refu _ _ _ _ _ older homes, they often update furn _ _ _ _ _ and adjust daily rou _ _ _ _ to accom _ _ _ _ _ _ changing needs. In the kit _ _ _ _, people cons _ _ _ ingredients carefully, using the sto _ _ to prepare meals and deco _ _ _ _ spaces t _ improve comfort. These small decisions reveal how domestic life balances practicality with personal preference. Over time, such patterns help researchers understand broader trends in home consumption.

KPO 22 - Household Efficiency

来源：KPO

原文（Passage）

Research on household behavior highlights how small maintenance choices influence comfort and efficiency. To insu _ _ _ _ older houses, owners often fix the ceil _ _ _, rep _ _ _ worn areas, and plan changes that accom _ _ _ _ _ _ modern living needs. At home, families refri _ _ _ _ _ _ food properly, select an ingre _ _ _ _ _ in the kit _ _ _ _, and follow a rou _ _ _ _ that helps cons _ _ _ resources efficiently and reduce gar _ _ _ _ t _ maintain order. These everyday actions show how practical decisions shape domestic life. Over time, such habits reveal broader patterns in consumption and sustainability.

KPO 23 - Kitchen Routines

来源：KPO

原文（Passage）

Research on daily routines shows how simple household activities reflect habits and efficiency. In the kit _ _ _ _, people often heat water in a ket _ _ _ or bake food in an ov _ _, learning to prep _ _ _ meals according to a regular rou _ _ _ _. They cons _ _ _ ingredients like flo _ _, sti _ soup with a spo _ _, and plan tasks t _ reduce waste and save time. These repeated actions help shape stable patterns in domestic life. Over time, such routines make everyday decisions faster and more intentional.

KPO 24 - Adaptive Home Habits

来源：KPO

原文（Passage）

Household decisions often reflect changing lifestyles and practical needs. Families refu _ _ _ _ _ older homes to accom _ _ _ _ _ _ new routines, replacing furn _ _ _ _ _ and deco _ _ _ _ spaces for comfort. In daily life, people cons _ _ _ resources carefully, plan sche _ _ _ _, and rep _ _ _ items t _ reduce waste. These habits show how homes adapt over time. Small choices often lead to long-term efficiency.

KPO 25 - Visual Art Patterns

来源：KPO

原文（Passage）

Art historians often examine how visual repetition communicates meaning across different cultures. In religious buildings, mosa _ _ panels repeat patterns to express uni _ _, while compo _ _ _ _ _ links each port _ _ _ _ to a broader renai _ _ _ _ _ _ tradition. Critics analyze how aesth _ _ _ _, vibr _ _ _ choices, sym _ _ _, and lay _ _ _ wor _ together t _ reinf _ _ _ _ shared beliefs. These patterns help viewers understand complex ideas without written explanation. Over time, structure becomes a key guide for interpretation.

KPO 26 - Medical Treatment Decisions

来源：KPO

原文（Passage）

Effective medical treatment depends on accurate diagnosis and responsible intervention. When an inf _ _ _ _ _ _ spreads, doc _ _ _ _ may prescribe an anti _ _ _ _ _ _ only after they conf _ _ _ the source and severity. Incor _ _ _ _ use can inc _ _ _ _ _ resistance and lim _ _ future options. Hospitals monit _ _ symptoms closely and adjust treatment plans. Careful decision-making protects long-term health outcomes. Judgment matters as much as medication.

KPO 27 - Planetary Motion

来源：KPO

原文（Passage）

Astronomy explains how invisible forces shape the movement of objects in space. Planets follow predictable or _ _ _ paths because grav _ _ _ pulls them toward larger bodies, while rota _ _ _ _ around an ax _ _ maintains balance. Scientists meas _ _ _ distance, calc _ _ _ _ _ motion, and obs _ _ _ _ stars t _ predict eclipses and seasonal change. These models help researchers understand both nearby systems and distant galaxies. Patterns in space often mirror patterns found in physics on Earth.

KPO 28 - Drought and Water Planning

来源：KPO

原文（Passage）

Environmental systems respond slowly but powerfully to long-term pressure. Extended dro _ _ _ _ conditions reduce rain _ _ _ _ availability, forcing communities to adj _ _ _ water use and farming strategies. When supplies dec _ _ _ _, authorities may imp _ _ _ restrictions and pri _ _ _ _ _ _ _ essential needs. Scientists monit _ _ trends, anal _ _ _ data, and pred _ _ _ future risk based on historical patterns. Without planning, shortages can prev _ _ _ and disrupt regional stability. Preparation reduces long-term damage.

KPO 29 - Photosynthesis and Growth

来源：KPO

原文（Passage）

Plant growth depends on chemical processes that convert light into energy. Through photo _ _ _ _ _ _ _ _, plants use chlorophyll to abs _ _ _ sunlight and prod _ _ _ sugars that supp _ _ _ development. Biologists study lea _ structure, tissue funct _ _ _, and nutri _ _ _ cycles t _ explain seasonal growth. These mechanisms support ecosystems and global food systems. Understanding them helps improve sustainable farming.

KPO 30 - Entrepreneurial Business Growth

来源：KPO

原文（Passage）

Economic growth often begins with individual risk-taking and planning. An entre _ _ _ _ _ _ _ launches a venture by forming a clear stra _ _ _ _, securing capi _ _ _, and ident _ _ _ market demand. Firms then nego _ _ _ _ _ contracts, distr _ _ _ _ _ goods, and mon _ _ _ _ performance t _ ensure profit. These steps shape how businesses expand over time. Long-term success depends on adaptability and foresight.

KPO 31 - Engineering Design Testing

来源：KPO

原文（Passage）

Modern engineers often rely on precise tools to test how well a design works in real conditions. In the lab, they may etch a pattern on _ _ a met _ _ surface and then use a le _ _ to magn _ _ _ the deta _ _ _. If the reso _ _ _ _ _ _ is too low, the mech _ _ _ _ _ behind the device may be misunder _ _ _ _ _, so the team builds a proto _ _ _ _ to verify performance. This process helps researchers see tiny changes, compare results across trials, and explain why a design succeeds or fails. Over time, the same methods support more versatile products because small improvements can be measured and repeated reliably.

KPO 32 - Surface Water Runoff

来源：KPO

原文（Passage）

Water moves across the Earth’s surface in predictable ways after rainfall. When rain falls on land, some of it becomes runoff, flowing over the ground inst _ _ _ of soaking in. This oft _ _ happens w _ _ _ the soil is sat _ _ _ _ _ _, causing water to move tow _ _ _ nearby streams and ri _ _ _ _. These pro _ _ _ _ _ _ help shape the land and influence where water even _ _ _ _ _ _ collects. Understanding surface water movement is important for managing floods and water resources.

KPO 33 - Human Evolution

来源：KPO

原文（Passage）

Scientists study early human development to understand how modern traits emerged over time. Fossil evidence suggests that humans share a common ance _ _ _ _ with earlier primate species and gradu _ _ _ _ deve _ _ _ distinct physical features. As environ _ _ _ _ _ changed, popu _ _ _ _ _ _ _ adapted through beh _ _ _ _ _ _ _ shifts and str _ _ _ _ _ _ _ selection, allowing certain traits to become more common. These proc _ _ _ _ _ shaped surv _ _ _ _ patterns and influenced how groups spread across different regions. Such findings help explain the long-term process of human evolution.

KPO 34 - Archaeological Artifacts

来源：KPO

原文（Passage）

Archaeologists examine physical evidence to understand how people lived in earlier periods. During an excavation, researchers m _ _ uncover an arti _ _ _ _ and carefully record its loc _ _ _ _ _, size, and surroun _ _ _ _ mat _ _ _ _ _. If the object remains inta _ _, its shape, des _ _ _, and sur _ _ _ _ finish can provide clu _ _ about its func _ _ _ _ and age. These details allow scholars to connect objects with specific activities or traditions. Over time, repeated findings help build a clearer historical picture.

KPO 35 - Extinction and Adaptation

来源：KPO

原文（Passage）

Throughout Earth’s history, many species disappeared as conditions changed dramatically. Some animals became exti _ _ _ when th _ _ failed to ad _ _ _ to new clim _ _ _ _ or compete eff _ _ _ _ _ _ _ _ for limited resources. In contrast, other species mod _ _ _ _ _ their traits, improving surv _ _ _ _ through physical or beh _ _ _ _ _ _ _ changes. These resp _ _ _ _ _ demonstrated how envi _ _ _ _ _ _ _ _ _ pressure shaped biological outcomes. The fossil record preserves evidence of both failure and success.

KPO 36 - Early Kingdoms

来源：KPO

原文（Passage）

Many early societies developed systems of centralized rule over time. In some cases, a king _ _ _ governed a large reg _ _ _ by establishing laws, collecting res _ _ _ _ _ _, and organizing def _ _ _ _. As the popu _ _ _ _ _ _ increased, leaders needed eff _ _ _ _ _ _ meth _ _ _ to manage comm _ _ _ _ _ _ _ _ _ across distant ar _ _ _. These sys _ _ _ _ helped maintain stability and coordination within the society. Eventually, changes in leadership or resources could weaken this structure.

KPO 37 - Plant Reproduction

来源：KPO

原文（Passage）

Plant reproduction depends on seasonal cycles and environmental conditions. When flowers blo _ _ _ _, pollen is transf _ _ _ _ _ between plants, allowing spe _ _ _ _ to repr _ _ _ _ _ and sus _ _ _ _ healthy popu _ _ _ _ _ _ _. Farmers obser _ _ timing closely, prot _ _ _ young growth, and adj _ _ _ farming methods when weather changes. These processes affect crop yield and long-term food supply. Understanding them supports effective agriculture.

KPO 38 - The Water Cycle

来源：KPO

原文（Passage）

Water on Earth constantly moves through a cycle driven by energy from the sun. When surface water begins to evap _ _ _ _ _, it changes from a liquid into vapor as heat increases. This process occurs w _ _ _ mois _ _ _ _ rises into the air, later forming clo _ _ _ that eventually release rainfall. These cha _ _ _ _ help replen _ _ _ fresh _ _ _ _ _ suppl _ _ _ and maintain bal _ _ _ _ within natural syst _ _ _. Scientists study the water cycle to better predict weather patterns and climate change.

KPO 39 - Urban Growth Challenges

来源：KPO

原文（Passage）

Urbanization refers to the increasing concentration of population in cities and metropolitan areas. Rapid urban gro _ _ _ has changed city environments and created new job oppor _ _ _ _ _ _ _ _, but it has also put pressure on housing, transportation, and public ser _ _ _ _ _. Unplanned urban expan _ _ _ _ often results in traffic con _ _ _ _ _ _ _, air pollution, and limited access to basic infra _ _ _ _ _ _ _ _ _. To manage these issues, city planners develop practical plans and poli _ _ _ _ that encourage balanced devel _ _ _ _ _ and better use of available reso _ _ _ _ _. These efforts work best when different groups cooperate to _ _ _ _ a shared goal. Well-managed urban growth can improve living conditions and support long-term economic stability.

2026-01-27（7 套）

2026-01-27 Cloud Dynamics

原文（Passage）

Although there are many different types of clouds, they are all composed of the same basic substance. Ea _ _ cloud cons _ _ _ _ of ti _ _ drops o _ water o _ ice, wh _ _ _ are usu _ _ _ _ too sm _ _ _ to b _ seen wi _ _ the naked eye. These particles cluster together and form an invisible gas known as water vapor. Some of this vapor attaches to microscopic bits of dust or ice floating in the atmosphere. When enough of these elements combine, they create a visible cloud.

2026-01-27 Fossil Records

原文（Passage）

Fossils provide invaluable evidence of evolutionary history, documenting species that lived millions of years ago. Paleontologists examine these remains to understand how organisms have changed over time. Natural selection expl _ _ _ _ how advant _ _ _ _ _ _ traits incr _ _ _ _ in freq _ _ _ _ _ in a popul _ _ _ _ _. Species ad _ _ _ to th _ _ _ environments, wh _ _ _ leads t _ incredible dive _ _ _ _ _ observed in the biological world today through the mechanism of natural selection. The ongoing study of evolution continues to reveal how life on Earth has developed and diversified.

2026-01-27 James Cook

原文（Passage）

James Cook was a British naval officer, explorer, and cartographer born in 1728. He i _ best kn _ _ _ for h _ _ three voy _ _ _ _ across t _ _ Pacific Oc _ _ _, during wh _ _ _ he meticu _ _ _ _ _ _ mapped coast _ _ _ _ _ and coll _ _ _ _ _ data on astronomy, natural history, and oceanography. Cook is the first European to circumnavigate New Zealand and make contact with the Hawaiian Islands. He is also notable for implementing health measures aboard his ships, such as dietary changes to prevent the disease scurvy.

2026-01-27 Mass Extinctions

原文（Passage）

Mass extinctions have periodically reshaped the diversity of life on Earth, representing significant biological and ecological shifts. The most famous event, the Cretaceous-Paleogene extinction, occurred approximately 66 million years ago and led to the demise of the dinosaurs. Large-scale losses, with each los _ of spe _ _ _ _ affecting ecosystems, are of _ _ _ caused b _ catastrophic eve _ _ _ such a _ volcanic erup _ _ _ _ _, asteroid imp _ _ _ _, and cli _ _ _ _ change. T _ _ resulting extinctions and damage to biodiversity disrupt ecosystems and alter evolutionary trajectories. Studying past extinctions provides insights into the resilience and adaptability of life, helping scientists predict and mitigate future biodiversity loss.

2026-01-27 Mass Extinctions — Part 2

原文（Passage）

Mass extinctions have periodically reshaped the diversity of life on Earth, representing significant biological and ecological shifts. The most famous event, the Cretaceous-Paleogene extinction, occurred approximately 66 million years ago and led to the demise of the dinosaurs. Large-scale los _ _ _ of spe _ _ _ _ are of _ _ _ caused b _ catastrophic eve _ _ _ such as volcanic erup _ _ _ _ _, asteroid imp _ _ _ _, and cli _ _ _ _ change. T _ _ resulting damage to biodiversity disrupts ecosystems and alters evolutionary trajectories. Studying past ext _ _ _ _ _ _ _ _ provides insights into the resilience and adaptability of life, helping scientists predict and mitigate future biodiversity loss.

2026-01-27 Reusable Rockets

原文（Passage）

Space exploration has advanced significantly with the development of rockets that can be reused. Traditional rockets were discarded after a single use, but new designs allow them to return to Earth and be refurbished for multiple missions. This innov _ _ _ _ _ reduces t _ _ cost assoc _ _ _ _ _ with sp _ _ _ travel a _ _ increases freq _ _ _ _ _ of miss _ _ _ _. Companies li _ _ Space X ha _ _ pioneered reus _ _ _ _ rocket technology, successfully launching and landing rockets. These advancements pave the way for more ambitious projects, including potential manned missions to Mars and beyond.

2026-01-27 Supply And Demand

原文（Passage）

Supply and demand are fundamental concepts in economics because they determine the price and availability of goods or services. When the _ _ is mo _ _ demand f _ _ a pro _ _ _ _, suppliers m _ _ make i _ more expe _ _ _ _ _ to incr _ _ _ _ profits. Conve _ _ _ _ _, an exc _ _ _ supply can lead to price reductions. Market equilibrium occurs when supply matches demand, resulting in stable prices. The real world, however, is rarely as simple as this. Various factors influence these dynamics, including consumer preferences, production costs, and external events.

2026-01-23（20 套）

KPO 1 - Academic Research Process

来源：KPO

原文（Passage）

Academic study helps people understand the world in a systematic way. In many fields, students begin a stu _ _ by reading background materials, while res _ _ _ _ _ _ _ _ carefully col _ _ _ _ da _ _ from reliable sources. They ana _ _ _ _ the information to identify pat _ _ _ _ _, and then dev _ _ _ _ clear theo _ _ _ _ a _ _ explain their findings. Finally, researchers review their res _ _ _ _ and consider how the results contribute to existing knowledge. This process encourages careful thinking and evidence-based conclusions.

KPO 10 - Education and Learning

来源：KPO

原文（Passage）

Education provides individuals with knowledge and skills needed for personal and social development. Informal learning environments, students follow a structured cur _ _ _ _ _ _ _ to des _ _ _ lessons that impr _ _ _ students' under _ _ _ _ _ of key concepts and enco _ _ _ _ _

active participation in class activities. Teachers also emp _ _ _ _ _ _ regular practice to help learners retain information and app _ _ it to real situations. Schools aim to fos _ _ _ critical thinking and problem-solving skills that support lifelong learning. When educators pro _ _ _ _ proper guidance, feedback, and motivation, students are more likely to ach _ _ _ _ academic success. A strong education system benefits both individuals and society as a whole.

KPO 11 - Law and Fairness

来源：KPO

原文（Passage）

Laws help maintain order and fairness in everyday life. In many societies, citizens are expected to fol _ _ _ basic ru _ _ _ that guide behavior in public spaces. These rules are designed to protect individual rig _ _ _ and ensure that people are treated fa _ _. When a disagreement occurs, authorities may try to res _ _ _ _ the dis _ _ _ _ through discussion before taking further action. A clear le _ _ _ sys _ _ _ helps people understand what is allowed and what is not. Such systems aim to pro _ _ _ _ the public f _ _ common harm. A fair legal system supports trust within a community.

KPO 12 - Legal Procedures

来源：KPO

原文（Passage）

Legal systems exist to protect citizens and regulate behavior in society. If individuals vio _ _ _ _ the law, courts may imp _ _ _ a pen _ _ _ _ to discourage similar actions in the future. These rules are intended to provide pro _ _ _ _ _ _ _ for basic freedoms while maintaining public order. During a case, judges carefully examine evi _ _ _ _ _ and may ask witnesses to tes _ _ _ _ before a ju _ _. The final decision depends on whether the actions were tri _ _ and considered va _ _ _ under the law o _ not. Clear procedures help ensure justice and accountability.

KPO 13 - Basic Data Skills

来源：KPO

原文（Passage）

Numbers help people describe information in everyday situations. In a basic activity, students may mea _ _ _ _ values, cou _ _ items, and organize num _ _ _ _ in a clear list. They can add values to find the tot _ _ and calculate an ave _ _ _ _ to summarize the data. Learners often com _ _ _ _ results using a sim _ _ _ cha _ _ to show differences. Clear res _ _ _ _ make it easier to und _ _ _ _ _ _ _ the information and explain findings to others. Simple data skills support clear thinking and communication.

KPO 14 - Measurement and Data

来源：KPO

原文（Passage）

Measurements help people describe the world in a clear way. In a simple study, students may mea _ _ _ _ temperature at a regular int _ _ _ _ _ and rec _ _ _ the numbers in a table. They can est _ _ _ _ _ the value of a missing point and compute an ave _ _ _ _ for the whole set. Next, they com _ _ _ _ two groups and make a small cha _ _ to show the res _ _ _ _. When the steps are clear, it becomes easier to exp _ _ _ _ what happened and imp _ _ _ _ the process next time. Clear measurement supports better understanding.

KPO 15 - Energy and Motion

来源：KPO

原文（Passage）

Energy helps objects move and change position. When an object mo _ _ faster, it uses more ene _ _ _. A simple pu _ _ or pu _ _ can change the direction of motion. If an object gains spe _ _, it may be harder to sl _ _ down. A strong for _ _ can overcome fri _ _ _ _ _ and help an object st _ _ suddenly. These effects help explain how mot _ _ _ works in daily situations. Basic ideas of motion are important in understanding the physical world.

KPO 16 - Data Analysis Patterns

来源：KPO

原文（Passage）

Data analysis helps researchers understand how changes happen over time. Analysts often ana _ _ _ _ results carefully and ass _ _ _ data quality before drawing conclusions. They may focus on a key var _ _ _ _ _ and check whether two factors cor _ _ _ _ _ _ across different samples. If the pattern is con _ _ _ _ _ _ _ over time, it becomes more convincing. However, results can flu _ _ _ _ _ _ _ when conditions change. Researchers look for a clear pat _ _ _ _ and try to pre _ _ _ _ outcomes, while also est _ _ _ _ _ uncertainty. A strong con _ _ _ _ _ _ _ should match the evidence and avoid overclaiming. Careful reasoning leads to more reliable findings.

KPO 17 - Simple Electric Circuits

来源：KPO

原文（Passage）

Electricity is used in many everyday devices. When people swi _ _ _ on a simple cir _ _ _ _, energy from a bat _ _ _ _ begins to flo _ through the system. This ele _ _ _ _ _ ene _ _ _ can power lights and small machines. To work properly, the system must con _ _ _ _ all the wir _ _ correctly. A basic circuit allows users to con _ _ _ _ how dev _ _ _ _ operate. Simple electrical systems help explain how many tools function.

KPO 18 - Heat and Light

来源：KPO

原文（Passage）

Heat and light are forms of energy we experience every day. When an object has more he _ _, it often feels warmer. li _ _ _ can make a place wa _ _ or help us see in the dark. Some objects stay co _ _ because they ab _ _ _ _ less energy. Shiny surfaces may re _ _ _ _ _ light instead of heating up. The type of sur _ _ _ _ can affect how energy moves. People use tools to me _ _ _ _ _ de _ _ _ _ and observe how conditions cha _ _ _ over time. Understanding heat and light helps explain many natural events.

KPO 19 - Sound and Hearing

来源：KPO

原文（Passage）

Sound is an important part of everyday life. People hea _ sounds when objects vib _ _ _ _ and send waves through the a _ _. These waves tra _ _ _ to our ea _ _, allowing us to notice different noises. A sou _ _ can be lou _ or sof _, depending on how strong the vibration is. To pro _ _ _ _ hearing, people should avoid too much noi _ _ in daily environments. Understanding sound helps people better care for their hearing.

KPO 2 - Body Health Basics

来源：KPO

原文（Passage）

Maintaining good health depends on how the human body functions on a daily basis. Inside the body, cells abs _ _ _ nutrients and rely on oxy _ _ _ to produce ene _ _ _. These processes help the body reg _ _ _ _ _ major sys _ _ _ _, allowing organs to work together smoothly. When people cons _ _ _ balanced meals _ _ _ breathe properly, their bodies respond _ _ physical demands more efficiently. Poor habits, however, can increase fat _ _ _ _ and require individuals to adj _ _ _ their daily routines. Understanding these basic processes helps people make better health decisions.

KPO 20 - Wave Properties

来源：KPO

原文（Passage）

Waves play an important role in sound and light phenomena. When objects vib _ _ _ _, they create a wav _ that moves through a med _ _ _ such as air or water. Each wave has a specific fre _ _ _ _ _ _, which affects how it is perceived. Waves can tra _ _ _ long distances and may ref _ _ _ _ or abs _ _ _ energy when they reach a surface. Light waves carry ene _ _ _ and form the vis _ _ _ _ part of the spe _ _ _ _ _. These properties help scientists study sound, light, and communication.

KPO 3 - Home Cooking Basics

来源：KPO

原文（Passage）

Cooking at home allows people to enjoy fresh meals and control what they eat. Before starting, cooks often pre _ _ _ _ the ing _ _ _ _ _ _ _ _ and follow a simple rec _ _ _. They mea _ _ _ _ portions car _ _ _ _ _ _ to keep flavors balanced, a _ _ co _ _ the food u _ _ _ _ it is rea _ _. If the taste is not right, it is common to adj _ _ _ seasoning during the process. With practice, home cooking can become both enjoyable and rewarding.

KPO 4 - Environmental Responsibility

来源：KPO

原文（Passage）

Environmental conditions influence how people live and behave each day. In urban areas, residents exp _ _ _ _ _ _ _ higher levels of air poll _ _ _ _ _ and noise, which can affect personal hea _ _ _. To reduce negative effects, many people ad _ _ _ daily habits such as using public transport _ _ _ conserving energy at home. These actions help pro _ _ _ _ natural res _ _ _ _ _ _ and improve overall living conditions. When communities work to _ _ _ _ shared goals, collective eff _ _ _ _ can lead to long-term environmental improvement. Small changes in daily behavior can make a meaningful difference.

KPO 5 - Exercise and Recovery

来源：KPO

原文（Passage）

Regular exercise helps people stay healthy and feel more energetic. Before working out, many people wa _ _ up and str _ _ _ _ their mus _ _ _ _ to pre _ _ _ _ inj _ _ _. Simple exercises can imp _ _ _ _ overall str _ _ _ _ _ a _ _ build confidence over time. It is also important to re _ _ a _ _ _ _

exercise so the body can recover properly. A balanced exercise routine supports both physical and mental well-being.

KPO 6 - Workplace Productivity

来源：KPO

原文（Passage）

Daily productivity is influenced by how people organize their time and tasks. In many workplaces, employees dev _ _ _ _ routines that help them man _ _ _ responsibilities and pri _ _ _ _ _ _ _ important activities. Clear goals can increase mot _ _ _ _ _ _ _ and reduce unnecessary dis _ _ _ _ _ _ _ _ _. Many teams also ben _ _ _ _ from sharing ideas _ _ _ coordinating efforts across departments. When managers pro _ _ _ _ clear expectations and feedback, collective eff _ _ _ _ often lead to better results. Effective organization supports both performance and well-being.

KPO 7 - Clear Communication

来源：KPO

原文（Passage）

Clear communication helps people share ideas and understand each other better. In writing, people often sh _ _ _ messages to express their thoughts clearly. Writers choose simple wor _ _ to explain ideas and avoid confusion. A clear mes _ _ _ _ helps readers understand the main mea _ _ _ _. Many writers rev _ _ _ their work to improve ide _ _ and make explanations more cle _ _. When messages are easy to follow, communication becomes more effective f _ _ the aud _ _ _ _ _, a _ _ ideas are shared smoothly. Good communication makes everyday interactions easier and more meaningful.

KPO 8 - Technology for Problem Solving

来源：KPO

原文（Passage）

Technology plays an important role in helping people solve everyday problems. In many workplaces, teams use digital tools to ide _ _ _ _ _ issues, ana _ _ _ _ data, and dev _ _ _ _ effective solu _ _ _ _ _ to complex challenges. These tools enable employees to col _ _ _ _ information from multiple sources and share insights ac _ _ _ _ different departments. By automating routine tasks, technology helps reduce human err _ _ _ and imp _ _ _ _ overall performance. When organizations inv _ _ _ in appropriate systems and sup _ _ _ _ ongoing training, teams can adapt more quickly to change. Effective use of technology can improve productivity and decision-making over time.

KPO 9 - Trip Planning

来源：KPO

原文（Passage）

Planning a trip helps people feel more prepared and confident. Before traveling, many people pl _ _ their schedule carefully and cho _ _ _ a route that saves time. A simple ro _ _ _ can be marked on a m _ _ to avoid getting lost. Travelers often check the sche _ _ _ _ to make sure they arr _ _ _ o _ time for important activities. Unexpected del _ _ _ may happen, so it is helpful to adj _ _ _ pl _ _ _ when necessary. Good preparation can make travel experiences smoother and more enjoyable.

2026-01-21 Cosmology Studies

原文（Passage）

Cosmology is the study of how the universe began, changed over time, and might evolve in the future. Scientists exa _ _ _ _ stars, pla _ _ _ _, and gala _ _ _ _ using observ _ _ _ _ _ _ and mod _ _ _ to desc _ _ _ _ cosmic eve _ _ _. One wid _ _ _ accepted id _ _ is the big bang, wh _ _ _ suggests the universe started from a single point and has been expanding ever since. Ongoing research helps improve our understanding of space, time, and the forces shaping the cosmos, revealing new discoveries about the vast universe.

2026-01-21 Glacier Formation

原文（Passage）

Glaciers are massive, slow-moving bodies of ice that form in areas where snow accumulates over time and compresses into ice. Th _ _ can cha _ _ _ landscapes thr _ _ _ _ processes li _ _ erosion a _ _ deposition. A _ glaciers mo _ _, they ca _ _ _ out val _ _ _ _ and fjords, lea _ _ behind distinct geological features. Scientists study glaciers to understand past climate conditions and predict future changes. Glaciers are of particular concern today because their melting contributes to rising sea levels, impacting coastal communities worldwide.

2026-01-21 Philosophy of Mind

原文（Passage）

The field of philosophy of mind delves into the nature of consciousness, thought processes, and the intricate relationship between the mind and body. I _ addresses funda _ _ _ _ _ _ questions ab _ _ _ perception, iden _ _ _ _, self-awareness, a _ _ subjective exper _ _ _ _ _. The disci _ _ _ _ _ explores h _ _ and w _ _ we perc _ _ _ _ the world as we do, examining the mechanisms behind thought, emotion, and awareness. This field is a deeply interdisciplinary one that intersects with psychology, neuroscience, and cognitive science, providing a comprehensive approach to understanding human cognition and consciousness.

2026-01-21 Piano Musicology

原文（Passage）

The piano has a rich history that spans over 300 years, evolving from earlier keyboard instruments like the clavichord and harpsichord. The mod _ _ _ piano w _ _ invented aro _ _ _ 1700 b _ Bartolomeo Cristofori, w _ _ developed a n _ _ mechanism th _ _ made i _ possible f _ _ players t _ control the dynamics -soft and loud sounds-by varying the pressure on the keys. Later key improvements include the addition of a cast iron frame and felt-covered hammers, which allowed for greater volume and durability. These changes made the piano a central instrument in both classical and popular music.

2026-01-21 Plant Photoperiodism

原文（Passage）

The reaction of plants and animals to sunlight and seasonal changes, known as photoperiodism or seasonality, is vital to many biological and behavioral processes. Photoperiods, toge _ _ _ _ with tempe _ _ _ _ _ _ changes, imp _ _ _ seasonal migr _ _ _ _ _, mating rit _ _ _ _, and hiber _ _ _ _ _ _. In ma _ _ birds, hor _ _ _ _ levels incr _ _ _ _ in spr _ _ _, which leads to an increase in singing frequency in males and mating behaviors. Photoperiodism allows plants and animals to respond to changes in the environment associated with changing seasons and varying day length.

2026-01-21 Pottery Technology

原文（Passage）

Pottery is an ancient craft that involves shaping and firing clay in special wood-fired ovens (kilns) to create functional and decorative objects. Early po _ _ were sha _ _ _ by ha _ _ and hea _ _ _ in sim _ _ _ kilns, prod _ _ _ _ _ ceramics th _ _ lasted lon _ _ _. As soci _ _ _ _ _ developed, techn _ _ _ _ _ became more refined, with different cultures creating distinct styles. Over time, pottery evolved into both a practical craft and a significant form of artistic and cultural expression. Pottery has been practiced by cultures worldwide, reflecting their unique artistic traditions and functional needs.

2026-01-21 South Pacific

原文（Passage）

The history of the South Pacific is marked by diverse cultures and significant events. indigenous popul _ _ _ _ _ _ developed com _ _ _ _ societies wi _ _ rich tradi _ _ _ _ _ and soc _ _ _ structures. T _ _ region’s poli _ _ _ _ _ and econ _ _ _ _ landscapes exper _ _ _ _ _ _ profound cha _ _ _ _ following colonization by Europeans. Studying this history allows for a greater understanding of cultural interactions and the ongoing effects of historical events on contemporary South Pacific societies. Traditional navigation techniques using stars and ocean swells enabled remarkable voyaging achievements, while contemporary movements focus on cultural preservation, language revitalization, and addressing climate change impacts on island nations.

2026-01-21 Spix's Macaw

原文（Passage）

The Spix's Macaw, native to Brazil and famously known as the inspiration for the animated movie Rio, is critically endangered, with fewer than a hundred individuals remaining. The popul _ _ _ _ _ of th _ _ vibrant bl _ _ bird decl _ _ _ _ because o _ habitat lo _ _ and ill _ _ _ _ trapping f _ _ sale abr _ _ _, where pri _ _ _ _ collectors and pet stores spent large sums of money on the birds. Conservationists have initiated captive breeding programs and habitat restoration efforts to reintroduce the Spix's Macaw into the wild, where it was officially declared extinct in 2019.

2026-01-21 Tectonic Plates

原文（Passage）

Tectonic plates are large pieces of Earth's outer shell that move slowly over the planet's surface, and their study is fundamental in understanding Earth's geological activity. These plates fit toge _ _ _ _ much li _ _ a jig _ _ _ puzzle a _ _ constantly sh _ _ _, causing earth _ _ _ _ _ _, the form _ _ _ _ _ of moun _ _ _ _ _, and volc _ _ _ _ eruptions. Scien _ _ _ _ _ analyze these movements to better understand natural disasters and how Earth's surface changes over time. Advances in this field have significantly improved our ability to monitor and prepare for natural disasters as well as to mitigate their impacts.

2026-01-21 Tiger Behavior

原文（Passage）

Tigers are solitary animals known for their territorial behavior; males use scent markings and vocalizations to define their territories. Each ma _ _ tiger estab _ _ _ _ _ _ control ov _ _ a la _ _ _ territory span _ _ _ _ several squ _ _ _ miles a _ _ patrols t _ _ area regu _ _ _ _ _ to lo _ _ for prey and maintain dominance. This behavior helps reduce conflicts over prey, but tigers are known to fiercely defend their territory from intruders when necessary. Often hunting at night, tigers use stealth and their excellent night vision to their advantage.

KPO 69 - Module 1

来源：KPO

原文（Passage）

Glaciers are massive, slow-moving bodies of ice that form in areas where snow accumulates over time and compresses into ice. Th _ _ can cha _ _ _ landscapes thr _ _ _ _ processes li _ _ erosion a _ _ deposition. A _ glaciers mo _ _, they ca _ _ _ out val _ _ _ _ and fjords, lea _ _ _ _ behind distinct geological features. Scientists study glaciers to understand past climate conditions and predict future changes. Glaciers are of particular concern today because their melting contributes to rising sea levels, impacting coastal communities worldwide.

KPO 70 - Module 2

来源：KPO

原文（Passage）

The history of the South Pacific is marked by diverse cultures and significant events. Indigenous popul _ _ _ _ _ _ developed comple _ _ societies wit _ rich tradi _ _ _ _ _ and socia _ structures. Th _ region’s politica _ and economi _ landscapes exper _ _ _ _ _ _ profound chan _ _ following colonization by European powers. Studying this history allows for a greater understanding of cultural interactions and the ongoing effects of historical events on contemporary South Pacific societies. Traditional navigation techniques using stars and ocean swells enabled remarkable voyaging achievements, while contemporary movements focus on cultural preservation, language revitalization, and addressing climate change impacts on island nations.

Rain in Earth's Ecosystem

来源：TPO

原文（Passage）

Rain is a crucial part of Earth's ecosystem, supporting both plant growth and animal survival. As precip _ _ _ _ _ _ _ falls fr _ _ the s _ _, it reple _ _ _ _ _ _ water sou _ _ _ _, nourishes veget _ _ _ _ _, and sust _ _ _ _ wildlife. Some reg _ _ _ _ receive abun _ _ _ _ rainfall, wh _ _ _ others experience prolonged dry periods, affecting local environments. Excessive rain can lead to floods, creating hazards for communities and natural habitats. Despite occasional dangers, rainfall is essential for maintaining ecological balance, ensuring that plants and animals thrive in diverse climates around the world.

TPO-1-3 Module 2

来源：TPO

原文（Passage）

Climate pertains to the enduring patterns of temperature, humidity, wind, and precipitation in a specific geographical region or area over time. Climate is influen _ _ _ by lati _ _ _ _, altitude, and proxi _ _ _ _ to water bod _ _ _. Changes, driv _ _ by hu _ _ _ activities like deforest _ _ _ _ _, present substan _ _ _ _ challenges to eco _ _ _ _ _ _ _ and human socie _ _ _ _. Scientists scrutinize climate patterns and historical data to predict future changes and formulate strategies for mitigation and adaptation, ensuring resilience against environmental challenges.

TPO-2-1 Module 1

来源：TPO

原文（Passage）

The study of the universe is called cosmology. Th _ scope o _ this fi _ _ _ is extr _ _ _ _ _ large, encomp _ _ _ _ _ _ everything fr _ _ the sma _ _ _ _ _ particles t _ vast galaxies. O _ _ intriguing hypo _ _ _ _ _ _ in cosmology is the Big Bang Theory, according to which the universe began approximately 13.8 billion years ago from an infinitely dense point. Cosmologists also study dark matter and dark energy. They observe cosmic microwave background radiation, the faint glow left over from the Big Bang, to gather information about the universe in its early days.

TPO-2-2 Module 2

原文（Passage）

Classical civilizations, such as Ancient Greece and Rome, have profoundly influenced modern Western culture. These soc _ _ _ _ _ _ achieved rema _ _ _ _ _ _ progress in phil _ _ _ _ _ _, science, and gove _ _ _ _ _ _. The Greeks intr _ _ _ _ _ _ fundamental id _ _ _ in dem _ _ _ _ _ _, whereas the Ro _ _ _ _ created an int _ _ _ _ _ _ legal fra _ _ _ _ _ _. Studying classical civilizations provides insights into the origins of contemporary political systems, literary traditions, and architectural styles, highlighting the enduring legacy of these ancient cultures.

TPO-3-1 Module 1

来源：TPO

原文（Passage）

Fossils provide valuable information about the history of life on Earth. Th _ _ _ preserved remains o _ ancient orga _ _ _ _ _ are typi _ _ _ _ _ found i _ sedimentary ro _ _ _. By stud _ _ _ _ them, scien _ _ _ _ _ can le _ _ _ about th _ _ _ physical characteristics, behavior, and environments of extinct species. Fossil evidence has been crucial in understanding the process of evolution, showing how species have changed and adapted over millions of years. The discovery of transitional fossils helps to fill gaps in the evolutionary record.

TPO-3-2 Module 2

来源：TPO

原文（Passage）

The Industrial Revolution was a defining era in human history, sparking lasting changes in economies and daily life. It resh _ _ _ _ economies world _ _ _ _, shifting produ _ _ _ _ _ from man _ _ _ labor to mecha _ _ _ _ _ systems, which boo _ _ _ _ efficiency a _ _ output. Cit _ _ _ expanded rap _ _ _ _ as ru _ _ _ populations moved to industrial centers seeking work. Advancements in transportation and communication accelerated progress, laying the foundation for modern society. These innovations improved access to goods, increased productivity, and connected people across long distances, driving global development in ways that shaped the future.

TPO-4-1 Module 1

来源：TPO

原文（Passage）

Photoperiodism is how living things react to changes in daylight, shaping their seasonal activities and growth patterns, which are vital for survival and adaptation in nature. In pla _ _ _, this pro _ _ _ _ controls bloo _ _ _ _, seed gro _ _ _, and hiberna _ _ _ _—some spec _ _ _ only flo _ _ _ when the _ receive a specif _ _ amount of lig _ _. For animals, it influences migration,

hibernation, and breeding cycles. Their internal clocks help them adjust to shifting daylight, ensuring they stay in sync with their environment.

TPO-4-2 Module 2

来源：TPO

原文（Passage）

Public health is a multidisciplinary field concerned with preventing disease, prolonging life, and promoting health through organized efforts and informed choices. It invol _ _ _ strategies such a _ health edu _ _ _ _ _ _, vaccination progr _ _ _, and poli _ _ _ _ aimed a _ ensuring sa _ _ environ _ _ _ _ _. Public health profes _ _ _ _ _ _ _ work to iden _ _ _ _ health disparities. They also manage outbreaks of infectious diseases, promote healthy lifestyles, and contribute to improved quality of life and reduce the burden on healthcare systems worldwide.

TPO-5-1 Module 1

来源：TPO

原文（Passage）

Climate varies significantly across different regions of the world because it is affected by many factors. These inclu _ _ the amou _ _ of sunli _ _ _ and dista _ _ _ fro _ the ocean. Some plac _ _ are ve _ _ warm wit _ very litt _ _ rain, lik _ deserts. Others may have a cold climate with lots of snow, like the Arctic. Yet others experience mild climates and four distinct seasons. Understanding climate can help us prepare for different weather conditions.

TPO-5-2 Module 2

来源：TPO

原文（Passage）

European medieval history encompasses the period from the fall of the Roman Empire in the fifth century C.E. to the beginning of the Renaissance in the fifteenth century. This era saw signifi _ _ _ _ developments, inclu _ _ _ _ the ris _ of feudalism a _ a socia _ system, the establi _ _ _ _ _ _ of power _ _ _ kingdoms, a _ _ the spread o _ Christianity throughout Europe. The medieval period also witnessed numerous conflicts, such as the Crusades and the Hundred Years' War, which profoundly influenced the political boundaries, religious dynamics, and power structures of Europe.

TPO-6-1 Module 1

来源：TPO

原文（Passage）

Rain is a crucial part of Earth's ecosystem, supporting both plant growth and animal survival. As precipitation falls fr _ _ the s _ _, it repl _ _ _ _ _ _ _ water sou _ _ _ _, nourishes vege _ _ _ _ _ _, and sus _ _ _ _ _ wildlife. Some reg _ _ _ _ receive abu _ _ _ _ _ rainfall, wh _ _ _ others experience prolonged dry periods, affecting local environments. Excessive rain can lead to floods, creating hazards for communities and natural habitats. Despite occasional dangers, rainfall is essential for maintaining ecological balance, ensuring that plants and animals thrive in diverse climates around the world.

TPO-6-2 Module 2

来源：TPO

原文（Passage）

Volcanoes are openings in Earth’s crust through which molten rock, ash, and gases are ejected. Volcanic eru _ _ _ _ _ can cr _ _ _ _ islands, mou _ _ _ _ _ _, and ot _ _ _ landforms, but th _ _ can al _ _ be dest _ _ _ _ _ _ _, causing da _ _ _ _ to ne _ _ _ _ areas. Stu _ _ _ _ _ volcanoes helps scientists understand Earth’s internal processes: for example, how volcanoes form at tectonic plate boundaries or over hotspots in the mantle and how magma rises up from the mantle and erupts as lava on the surface.

Volcanoes

b2 → light
b3 → warm
b4 → cold
b5 → absorb
b6 → reflect
b7 → surface
b8 → measure
b9 → degree
b10 → change

KPO 19 - Sound and Hearing

b1 → hear
b2 → vibrate
b3 → air
b4 → travel
b5 → ears
b6 → sound
b7 → loud
b8 → soft
b9 → protect
b10 → noise

KPO 2 - Body Health Basics

b1 → absorb
b2 → oxygen
b3 → energy
b4 → regulate
b5 → systems
b6 → consume
b7 → and
b8 → to
b9 → fatigue
b10 → adjust

KPO 20 - Wave Properties

b1 → vibrate
b2 → wave
b3 → medium
b4 → frequency
b5 → travel
b6 → reflect
b7 → absorb
b8 → energy
b9 → visible
b10 → spectrum

KPO 3 - Home Cooking Basics

b1 → prepare
b2 → ingredients
b3 → recipe
b4 → measure
b5 → carefully
b6 → and
b7 → cook
b8 → until
b9 → ready
b10 → adjust

KPO 4 - Environmental Responsibility

b1 → experience
b2 → pollution
b3 → health
b4 → adopt
b5 → and
b6 → protect
b7 → resources
b8 → toward
b9 → efforts

KPO 5 - Exercise and Recovery

b1 → warm
b2 → stretch
b3 → muscles
b4 → prevent
b5 → injury
b6 → improve
b7 → strength
b8 → and
b9 → rest
b10 → after

KPO 6 - Workplace Productivity

b1 → develop
b2 → manage

b3 → prioritize
b4 → motivation
b5 → distraction
b6 → benefit
b7 → and
b8 → provide
b9 → efforts

KPO 7 - Clear Communication

b1 → share
b2 → words
b3 → message
b4 → meaning
b5 → revise
b6 → ideas
b7 → clear
b8 → for
b9 → audience
b10 → and

KPO 8 - Technology for Problem Solving

b1 → identify
b2 → analyze
b3 → develop
b4 → solutions
b5 → collect
b6 → across
b7 → errors
b8 → improve
b9 → invest
b10 → support

KPO 9 - Trip Planning

b1 → plan
b2 → choose
b3 → route
b4 → map
b5 → schedule
b6 → arrive
b7 → on
b8 → delays
b9 → adjust
b10 → plans

2026-01-21 Cosmology Studies

b1 → examine
b2 → planets
b3 → galaxies
b4 → observations
b5 → models

b6 → describe
b7 → events
b8 → widely
b9 → idea
b10 → which

2026-01-21 Glacier Formation

b1 → They
b2 → change
b3 → through
b4 → like
b5 → and
b6 → As
b7 → move
b8 → carve
b9 → valleys
b10 → leave

2026-01-21 Philosophy of Mind

b1 → It
b2 → fundamental
b3 → about
b4 → identity
b5 → and
b6 → experience
b7 → discipline
b8 → how
b9 → why
b10 → perceive

2026-01-21 Piano Musicology

b1 → modern
b2 → was
b3 → around
b4 → by
b5 → who
b6 → new
b7 → that
b8 → it
b9 → for
b10 → to

2026-01-21 Plant Photoperiodism

b1 → together
b2 → temperature
b3 → impact
b4 → migration
b5 → rituals
b6 → hibernation
b7 → many

b8 → hormone
b9 → increase
b10 → spring

2026-01-21 Pottery Technology

b1 → pots
b2 → shaped
b3 → hand
b4 → heated
b5 → simple
b6 → producing
b7 → that
b8 → longer
b9 → societies
b10 → techniques

2026-01-21 South Pacific

b1 → populations
b2 → complex
b3 → with
b4 → traditions
b5 → social
b6 → The
b7 → political
b8 → economic
b9 → experienced
b10 → changes

2026-01-21 Spix's Macaw

b1 → population
b2 → this
b3 → blue
b4 → declined
b5 → of
b6 → loss
b7 → illegal
b8 → for
b9 → abroad
b10 → private

2026-01-21 Tectonic Plates

b1 → together
b2 → like
b3 → jigsaw
b4 → and
b5 → shift
b6 → earthquakes
b7 → formation
b8 → mountains
b9 → volcanic

b10 → Scientists

2026-01-21 Tiger Behavior

b1 → male
b2 → establishes
b3 → over
b4 → large
b5 → spanning
b6 → square
b7 → and
b8 → the
b9 → regularly
b10 → look

KPO 69 - Module 1

b1 → They
b2 → change
b3 → through
b4 → like
b5 → and
b6 → As
b7 → move
b8 → carve
b9 → valleys
b10 → leaving

KPO 70 - Module 2

b1 → populations
b2 → complete
b3 → with
b4 → traditions
b5 → social
b6 → The
b7 → political
b8 → economic
b9 → experienced
b10 → change

Rain in Earth's Ecosystem

b1 → precipitation
b2 → from
b3 → sky
b4 → replenishes
b5 → sources
b6 → vegetation
b7 → sustains
b8 → regions
b9 → abundant
b10 → while

TPO-1-3 Module 2

b1 → influenced
b2 → latitude
b3 → proximity
b4 → bodies
b5 → driven
b6 → human
b7 → deforestation
b8 → substantial
b9 → ecosystems
b10 → societies

TPO-2-1 Module 1

b1 → The
b2 → of
b3 → field
b4 → extremely
b5 → encompassing
b6 → from
b7 → smallest
b8 → to
b9 → One
b10 → hypothesis

TPO-2-2 Module 2

b1 → societies
b2 → remarkable
b3 → philosophy
b4 → government
b5 → introduced
b6 → ideas
b7 → democracy
b8 → Romans
b9 → intricate
b10 → framework

TPO-3-1 Module 1

b1 → These
b2 → of
b3 → organisms
b4 → typically
b5 → in
b6 → rocks
b7 → studying
b8 → scientists
b9 → learn
b10 → their

TPO-3-2 Module 2

b1 → reshaped
b2 → worldwide

b3 → production
b4 → manual
b5 → mechanized
b6 → boosted
b7 → and
b8 → Cities
b9 → rapidly
b10 → rural

TPO-4-1 Module 1

b1 → plants
b2 → process
b3 → blooming
b4 → growth
b5 → hibernation
b6 → species
b7 → flower
b8 → they
b9 → specific
b10 → light

TPO-4-2 Module 2

b1 → involves
b2 → as
b3 → education
b4 → programs
b5 → policies
b6 → at
b7 → safe
b8 → environments
b9 → professionals
b10 → identify

TPO-5-1 Module 1

b1 → include
b2 → amount
b3 → sunlight
b4 → distance
b5 → from
b6 → places
b7 → very
b8 → with
b9 → little
b10 → like

TPO-5-2 Module 2

b1 → significant
b2 → including
b3 → rise
b4 → as

b5 → social
b6 → establishment
b7 → powerful
b8 → and
b9 → of

TPO-6-1 Module 1

b1 → from
b2 → sky
b3 → replenishes
b4 → sources
b5 → vegetation
b6 → sustains
b7 → regions
b8 → abundant
b9 → while

TPO-6-2 Module 2

b1 → eruptions
b2 → create
b3 → mountains
b4 → other
b5 → they
b6 → also
b7 → destructive
b8 → damage
b9 → nearby
b10 → Studying

Volcanoes

b1 → eruptions
b2 → create
b3 → mountains
b4 → other
b5 → they
b6 → also
b7 → destructive
b8 → damage
b9 → nearby
b10 → studying
